Egypt Land Of The Pharaohs Lost Civilizations:

Egypt D. O'Connor, 2003 Egypt is a place where as one contemporary archaeologist has noted you can't put your spade in the ground and not find something This great treasure house of a country has been luring the curious for centuries Among them have been many who sought to become rich by plundering the past But at their best the searchers were magnificent professionals lovers of history and great respecters of the humanity behind their finds Much of what the world first learned about the Egyptians came from an early obsession with their tombs Thanks to the dryness that prevails throughout most of the land not only did these burial sites often contain bodies that had survived the ages largely intact but with them were found an array of items that revealed much about civilization thousands of years ago *Egypt* Time-Life Books, 1992

The Lost Civilization Enigma Philip Coppens, 2012-10-22 An examination of archaeological controversies with arguments showing evidence of prehistoric civilizations not recorded as part of human history Are history books giving us the whole story Or is civilization far more complex and older than we have been taught Our school textbooks barely mention the 6 000 year old Sumerian civilization yet the latest archaeological findings at sites such as Jericho and most recently Gobekli Tepe in Turkey have been dated to 10 000 BC Civilization goes back at least another 10 000 years if we are willing to believe what our ancestors themselves claimed The Lost Civilization Enigma reveals the truth about Lost magnitudes to known cultures such as the Bosnian Pyramids and the civilization of Old Europe The fabled lost golden cities of South America and the Amazon which are slowly being rediscovered Fascinating examples of lost technology such as the Antikythera Device Atlantis and the fact that it was a real civilization Analyzing the historical and archaeological record best selling author Philip Coppens demonstrates that there is substantial evidence that civilization is far older far more advanced and far more special than is currently accepted Clearly our history books have left out a great deal **Earth Tales** Henry T.
