Body, Cosmos and Eternity Rogério Sousa, 2014-08-29 This volume collects papers from the symposium Body Cosmos and Eternity the Symbolism of Coffins in Ancient Egypt convened at the historical building of the University of Port February 2013

Gleaming Coffins. Iconography and Symbolism in Theban Coffin Decoration (21st Dynasty) Rogério Sousa, 2018-03-15 Egyptian coffin decoration is a complex and multidimensional phenomenon with its own history and evolution Yellow coffins were crafted in Thebes during a particular critical period in the Egyptian History witnessing to a situation of political unrest and severe economic scarcity affecting Egypt the Near East and the Mediterranean And yet there is no evidence for a decline in the production of these outstanding funerary artefacts On the contrary the corpus of yellow coffins outnumbers the previous types of Egyptian anthropoid containers and stands out among the most complex and sophisticated objects ever crafted in the Ancient World Besides this historical paradox the yellow corpus presents important epistemological challenges for our understanding of

Egyptian material culture what kind of space is created within the walls and forms of an anthropoid coffin What role plays variability and change in this process Last but not the least can we understand the meaning behind the multiple shapes and endless variations adopted in coffin decoration during this period This book addresses these questions presenting the results of a comparative study on coffin decoration involving an extensive sample of objects from the yellow corpus dispersed in museums around the world The results of this study reveal the principles of composition that ruled the work of the ancient Theban craftsmen and show how important coffin decoration was for the Theban priesthood of Amun to convey their own corporative values *The Ancient Egyptian Book of the Moon: Coffin Texts Spells 154-160* Gyula Priskin, 2019-05-02 This book proposes that Coffin Texts spells 154 160 recorded at the beginning of the 2nd millennium BCE form the oldest composition about the moon in ancient Egypt and indeed the world Based on a new translation the detailed analysis of these spells reveals that they provide a chronologically ordered account of the phenomena of a lunar month Graeco-Egyptian Coffins, Masks and Portraits Campbell Cowan Edgar, 1905 **The Beautiful Burial in Roman Egypt** Christina Riggs, 2006-01-06 This important new study looks at the intersection of Greek and Egyptian art forms in the funerary sphere of Roman Egypt A discussion of artistic change cultural identity and religious belief foregrounds the detailed analysis of more than 150 objects and tombs many of which are presented here for the first time In addition to the information it provides about individual works of art supported by catalogue entries the study explores fundamental questions such as how artists combine the iconographies and representational forms of different visual traditions and why two distinct visual traditions were employed in Roman Egypt *How to Make an Egyptian Coffin* Julie Dawson, 2018 Coffin Commerce Kathlyn M. Cooney, 2021-06-10 This discussion will be centered on one ubiquitous and rather simple Egyptian object type the wooden container for the human corpse We will focus on the entire lifespan of the coffin how they were created who bought them how they were used in funerary rituals where they were placed in a given tomb and how they might have been used again for another dead person Using evidence from Deir el Medina we will move through time from the initial agreement between the craftsman and the seller to the construction of the object by a carpenter to the plastering and painting of the coffin by a draftsman to the sale of the object to its ritual use in funerary activities to its deposit in a burial chamber and briefly to its possible reuse Magic and Divination in the Ancient World, 2021-10-01 This collection of essays focuses on divination across the Ancient World from early Mesopotamia to late antiquity The authors deal with the forms theory and poetics of this important and still poorly understood ancient phenomenon *Following Osiris* Mark Smith, 2017 Osiris god of the dead was one of ancient Egypt's most important deities The earliest secure evidence for belief in him dates back to the fifth dynasty c 2494 2345BC but he continued to be worshipped until the fifth century AD Following Osiris is concerned with ancient Egyptian conceptions of the relationship between Osiris and the deceased or what might be called the Osirian afterlife asking what the nature of this relationship was and what the prerequisites were for enjoying its benefits It does not seek to provide

a continuous or comprehensive account of Egyptian ideas on this subject but rather focuses on five distinct periods in their development spread over four millennia The periods in question are ones in which significant changes in Egyptian ideas about Osiris and the dead are known to have occurred or where it has been argued that they did as Egyptian aspirations for the Osirian afterlife took time to coalesce and reach their fullest form of expression An important aim of the book is to investigate when and why such changes happened treating religious belief as a dynamic rather than a static phenomenon and tracing the key stages in the development of these aspirations from their origin to their demise while illustrating how they are reflected in the textual and archaeological records In doing so it opens up broader issues for exploration and draws meaningful cross cultural comparisons to ask for instance how different societies regard death and the dead why people convert from one religion to another and why they abandon belief in a god or gods altogether

Death and Salvation in Ancient Egypt Jan Assmann, 2011-11-14 Human beings the acclaimed Egyptologist Jan Assmann writes are the animals that have to live with the knowledge of their death and culture is the world they create so they can live with that knowledge In his new book Assmann explores images of death and of death rites in ancient Egypt to provide startling new insights into the particular character of the civilization as a whole Drawing on the unfamiliar genre of the death liturgy he arrives at a remarkably comprehensive view of the religion of death in ancient Egypt Assmann describes in detail nine different images of death death as the body being torn apart as social isolation the notion of the court of the dead the dead body the mummy the soul and ancestral spirit of the dead death as separation and transition as homecoming and as secret Death and Salvation in Ancient Egypt also includes a fascinating discussion of rites that reflect beliefs about death through language and ritual
