Eight Nayikas:

The Body Adorned Vidya Dehejia, 2009-02-26 The sensuous human form elegant and eye catching is the dominant feature of premodern Indian art From the powerful god Shiva greatest of all yogis and most beautiful of all beings to stone dancers twisting along temple walls the body in Indian art is always richly adorned Alankara ornament protects the body and makes it complete and attractive to be unornamented is to invite misfortune In The Body Adorned Vidya Dehejia who has dedicated her career to the study of Indian art draws on the literature of court poets the hymns of saints and acharyas and verses from inscriptions to illuminate premodern India's unique treatment of the sculpted and painted form She focuses on the coexistence of sacred and sensuous images within the common boundaries of Buddhist Jain and Hindu sacred spaces redefining terms like sacred and secular in relation to Indian architecture She also considers the paradox of passionate poetry in which saints praised the sheer bodily beauty of the divine form and nonsacred Rajput painted manuscripts which freely inserted gods into the earthly realm of the courts By juxtaposing visual and literary sources Dehejia demonstrates the harmony between the sacred and the profane in classical Indian culture Her synthesis of art literature and cultural materials not only generates an all inclusive picture of the period but also revolutionizes our understanding of the cultural ethos of premodern India

Artistic Visions and the Promise of Beauty Kathleen M. Higgins, Shakti Maira, Sonia Sikka, 2017-03-06 This volume examines the motives behind rejections of beauty often found within contemporary art practice where much critically acclaimed art is deliberately ugly and alienating It reflects on the nature and value of beauty asking whether beauty still has a future in art and what role it can play in our lives generally The volume discusses the possible end of art what art is and the relation between art and beauty beyond their historically Western horizons to include perspectives from Asia The individual chapters address a number of interrelated issues including art beauty and the sacred beauty as a source of joy and consolation beauty as a bridge between the natural and the human beauty and the human form the role of curatorial practice in defining art order and creativity and the distinction between art and craft The volume offers a valuable addition to cross cultural dialogue and in particular to the sparse literature on art and beauty in comparative context It demonstrates the relevance of the rich tradition of Asian aesthetics and the vibrant practices of contemporary art in Asia to Western discussions about the future of art and the role of beauty

An Epitome of Indian Aesthetics and Fine Arts: Sanskrit Poetics Dr. Thiagarajan Rajagopal, This book is a primer to Understand the History and Development of Alankara Sastra It will be an easy reading for Sanskrit and useful for students of other literature too In Sanskrit there are several synonyms of beauty Saundarya Caruta Ramaniyata Saubhagya Sobha Lavanya Kanti Vicchitti and so forth But the most frequently adopted key term of aesthetics is Alankara That is why Alankara sastra should be translated as the science of beauty Its widest meaning is adequately stressed by Vamana who aphoristically states Saundaryam alankarah Since alankara can also mean a means of beauty it can denote poetic and artistic devices also In the Rgveda itself we have the use of the word aramkrti which is cognate with the later word alankara and which gives rise to the Indian name of aesthetics namely Alankarasastra The Vedic term has a double connotation one aesthetic and the other magical
