Eight Painters The Surrealist Context:

Eight Painters J. H. Matthews, 1982-01-01 **André Breton** J. H. Matthews, 1986-01-01 Breton's stature is much greater than that of a number of contemporaries who have received already far more attention from the critics than he. It provides justification without excuse especially when the commentator's purpose is to shed light on the intricacies of Breton's mind, the significance of his original work or the impact of his ideas on twentieth-century culture. Hence the aim pursued in the present study may be stated without further preamble: To attempt to broaden understanding of the evolution of André Breton's thinking during a critical period in his life, the one which brought him to leadership of the surrealist movement in France. Evidently the focus here is narrow, the goal being to give clearer definition to the intellectual state of a young man emerging from doubt and so from self-doubt into renewed confidence in his poetic calling.

Lorca's Drawings and Poems Cecelia J. Cavanaugh, 1995 Lorca's Drawings and Poems focuses on the act of reading Lorca's drawn or written texts and how the reading of one genre can inform the reading of another. Throughout the study poetry and drawings from every period of Lorca's career are examined. Selected drawings are interpreted; next poems contemporary to those drawings are analyzed in their light. In chapter 1 a common poetics is extracted from Lorca's comments about his drawings and writing and placed in the context of the literary and artistic movements of his day. The evolution of the literary criticism that examines Lorca's drawings is traced and reviewed. Lorca's texts are examined from varying perspectives in the chapters that follow. In chapter 2 drawings and poems from 1927 to 1928 are analyzed in light of Lorca's participations in artistic and literary movements during those years. Texts from each period of Lorca's work are read in chapter 3 in a study of Lorca's employment of space and his depiction of setting and subject in his drawings and poems. Such a chronological approach allows the reading of Lorca's texts to reveal the evolution of his aesthetics as well as to identify the imagery and techniques that remained consistent throughout his career.

Feminist Theatrical Revisions of Classic Works Sharon Friedman, 2014-01-10 Re-visioning the classics often in a subversive mode has evolved into its own theatrical genre in recent years and many of these productions have been informed by feminist theory and practice. This book examines recent adaptations of classic texts produced since 1980, influenced by a range of feminisms and illustrates the significance of historical moment, cultural ideology, dramaturgical practice and theatrical venue for shaping an adaptation. Essays are arranged according to the period and genre of the source text: re-visioned classical theater and myth (e.g. Antigone, Metamorphoses, Shakespeare) and seventeenth-century theater (e.g. King Lear, The Rover); nineteenth and twentieth-century narratives and reflections (e.g. The Scarlet Letter, Jane Eyre, A Room of One's Own) and modern drama (e.g. A Doll House, A Streetcar Named Desire).
