Eight Women Philosophers Theory Politics And Feminism:

Eight Women Philosophers Jane Duran, 2006 This work traces the themes of standard philosophical theorising and feminist thought across eight women philosophers in the Western tradition Hildegard of Bingen Anne Conway Mary Astell Mary Wollstonecraft Harriet Taylor Mill Edith Stein Simone Weil and Simone de Beauvoir **Eight Women Philosophers** Jane Duran, 2010-10-01 Spanning over nine hundred years **Eight Women Philosophers** is the first singly authored work to trace the themes of standard philosophical theorizing and feminist thought across women philosophers in the Western tradition Jane Duran has crafted a comprehensive overview of eight women philosophers Hildegard of Bingen Anne Conway Mary Astell Mary Wollstonecraft Harriet Taylor Mill Edith Stein Simone Weil and Simone de Beauvoir that underscores the profound and continuing significance of these thinkers for contemporary scholars Duran devotes one chapter to each philosopher and provides a sustained critical analysis of her work utilizing aspects of Continental theory poststructuralist theory and literary theory She situates each philosopher within her respective era and in relation to her intellectual contemporaries and specifically addresses the contributions each has made to major areas such as metaphysics epistemology theory of value and feminist theory She affirms the viability and importance of recovering these women's overlooked work and provides a powerful answer to the question of why the rubric women philosophers remains so valuable **The Oxford Handbook of American and British Women Philosophers in the Nineteenth Century** Lydia Moland, John D and Catherine T MacArthur Professor of Philosophy Lydia Moland, Alison Stone, 2025 The Oxford Handbook of American and British Women Philosophers in the Nineteenth Century challenges the misconception that there were no female philosophers during this era It explores the diverse philosophical contributions of women including those who wrote academic texts novels pamphlets journalism and activist writings and examines women's contributions to both philosophical movements and topics in social philosophy It reveals that the nineteenth century was more conducive to women authors than commonly believed and discusses how factors like race and class influenced women's philosophical perspectives The Handbook corrects the historical narrative and broadens our understanding of philosophy by showcasing the significant contributions of women philosophers **Where Are the Women?** Sarah Tyson, 2018-10-16 Philosophy has not just excluded women It has also been shaped by the exclusion of women As the field grapples with the reality that sexism is a central problem not just for the demographics of the field but also for how philosophy is practiced many philosophers have begun to rethink the canon Yet attempts to broaden European and Anglophone philosophy to include more women in the discipline's history or to acknowledge alternative traditions will not suffice as long as exclusionary norms remain in place In **Where Are the Women** Sarah Tyson makes a powerful case for how redressing women's exclusion can make philosophy better She argues that engagements with historical thinkers typically afforded little authority can transform the field outlining strategies based on the work of three influential theorists Genevieve Lloyd Luce Irigaray and Michèle Le Doeuff Following from the possibilities

they open up at once literary linguistic psychological and political Tyson reclaims two passionate nineteenth century texts the Declaration of Sentiments from the 1848 Seneca Falls Convention and Sojourner Truth's speech at the 1851 Akron Ohio Women's Convention showing how the demands for equality rights and recognition sought in the early women's movement still pose quandaries for contemporary philosophy feminism and politics Where Are the Women challenges us to confront the reality that women's exclusion from philosophy has been an ongoing project and to become more critical both of how we see existing injustices and of how we address them

Canon Fodder Penny A. Weiss, 2015-11-09 This book is an exercise in the recovery of historical memory about a set of thinkers who have been forgotten or purposely ignored and as a result never made it into the canon of Western political philosophy Penny Weiss calls them canon fodder recalling the fate of soldiers in war who are treated by their governments and military leaders as expendable Despite some real progress at recovery over the past few decades and the now frequent references to a few female thinkers like Mary Wollstonecraft Hannah Arendt and Simone de Beauvoir the surface has only been scratched and the rich resources of women's writings about political ideas remain still largely untapped Included here and intended to further whet the palate are figures from Sei Shōnagon Christine de Pizan and Mary Astell to Elizabeth Cady Stanton Anna Julia Cooper and Emma Goldman Restoring female thinkers to the conversation of political philosophy is the primary goal of this book Part I deploys a range of these thinkers to discuss the nature of political inquiry itself Part II focuses on alternative approaches to and visions of core political ideas equality power revolution childhood and community While mainly an intellectual act of revival this book also affects practical political life because remote and academic as they sometimes appear debates about what to include in the canon ultimately touch almost everyone students handed texts from lists of great books to guide them and citizens whose governments justify their actions with ideas from political texts deemed classic

What Makes a Philosopher Great?
 Stephen Hetherington, 2017-11-10 This book is inspired by a single powerful question What is it to be great as a philosopher

No single grand answer is presumed to be possible instead rewardingly close studies of philosophical greatness are developed This is a scholarly yet accessible volume blending metaphilosophy with the long history of philosophy and traversing centuries and continents The result is a series of case studies by accomplished scholars each chapter trying to understand and convey a particular philosopher s greatness Lloyd P Gerson on Plato Karyn Lai on Zhuangzi David Bronstein on Aristotle Jonardon Ganeri on Buddhaghosa Jeffrey Hause on Aquinas Gary Hatfield on Descartes Karen Detlefsen on du Chatelet Don Garrett on Hume Allen Wood on Kant as a moral philosopher Nicholas F Stang on Kant as a metaphysician Ken Gemes on Nietzsche Cheryl Misak on Peirce David Macarthur on Wittgenstein This also serves a larger philosophical purpose Might we gain increased clarity about what philosophy is in the first place After all in practice we individuate philosophy partly through its greatest practitioners greatest contributions The book does not discuss every philosopher who has been regarded as great The point is not to offer a definitive list of The Great Philosophers but rather to learn something about what great philosophy is and might be from illuminated examples of past greatness

Travel Narratives in Translation, 1750-1830 Alison Martin, Susan Pickford, 2013-05-07 This book examines how non fictional travel accounts were rewritten reshaped and reoriented in

translation between 1750 and 1850 a period that saw a sudden surge in the genre's popularity It explores how these translations played a vital role in the transmission and circulation of knowledge about foreign peoples lands and customs in the Enlightenment and Romantic periods The collection makes an important contribution to travel writing studies by looking beyond metaphors of mobility and cultural transfer to focus specifically on what happens to travelogues in translation Chapters range from discussing essential differences between the original and translated text to relations between authors and translators from intra European narratives of Grand Tour travel to scientific voyages round the world and from established male travellers and translators to their historically less visible female counterparts Drawing on European travel writing in English French German Spanish and Portuguese the book charts how travelogues were selected for translation how they were reworked to acquire new aesthetic political or gendered identities and how they sometimes acquired a radically different character and content to meet the needs and expectations of an emergent international readership The contributors address aesthetic political and gendered aspects of travel writing in translation drawing productively on other disciplines and research areas that encompass aesthetics the history of science literary geography and the history of the book
