Eighth Air Force At War:

The US Eighth Air Force in World War II William J. Daugherty, 2024-04-15 When America entered World War II in 1941 it was first left to the Army Air Forces to take the fight to Germany In January 1942 the US Eighth Air Force was created and ordered to England even though it was without men equipment or airplanes This is the story of Brigadier General Ira C Eaker s two years with VIII Bomber Command and later as commander of the Eighth as he worked to grow it into a force capable of striking German targets from above twenty thousand feet Initially promised one hundred airplanes and the men to fly them he soon discovered his bombers were often diverted to the North Africa and Pacific theaters Along the way Eaker faced other critical issues including atrocious weather heavy casualties and the absence of escort fighters Meanwhile the head of the Army Air Forces General Hap Arnold clashed with and criticized Eaker for not flying more missions with more airplanes Ultimately as the air war unfolded the war of words behind the scenes continued until the generals reached a point of irreconcilable differences and Arnold relieved Eaker of command In spite of this the Mighty Eighth Air Force continued to pummel the Germans Not once not even in the two absolute worst air battles of the war the Schweinfurt missions of 1943 each of which cost one of every four bombers and six hundred plus men for each mission did the Eighth ever turn back before reaching their target Not until after the first two years was there a fighter that could escort the heavy bombers the B 17s and B 24s even partway into Germany much less to targets near the Vienna border and return The story of the first two years of the Mighty Eighth Air Force in many senses presents an even stronger case for heroism dedication and simple self sacrifice than that depicting events in the final seventeen months Operations Analysis in the United States Army Eighth Air Force

in World War II Charles W. McArthur, 1990 *Operations Analysis in the United States Army Eighth Air Force in World War II* Charles W. McArthur, 1990 Operations research grew out of the application of the scientific method to certain problems of war during World War II This book tells the story of how operations research became an important activity in the Eighth Air Force It emphasizes the people involved in these historical events rather than the technical matters with which they dealt

Eighth Air Force Bombing 20-25 February 1944: How Logistics Enabled Big Week To Be Big Major Jon M. Sutterfield USAF, 2015-11-06 Eighth Air Force 8AF conducted the US s first thousand bomber raids against Germany in February 1944 recorded in history as Big Week Until that time the USAAF was not able to concentrate such firepower on the enemy in such a short period of time It took much effort to make Big Week big covering the spectrum of planning and execution activities dating back to the end of World War I that were adapted and flexed to be successful in a different context Indeed the depth and breadth of the preparations required to successfully execute Big Week on the scale intended is deserving of a closer examination Leadership from President Roosevelt to first line supervisors influenced 8AF logistics before February 1944 Major General Hugh J Knerr was the one man that stood out as the champion of USAAF logistics He influenced the concept of logistical operations in the ETO and more specifically put logistics on a level of importance equal to that of operations

within the United States Strategic Air Forces USSTAF He synchronized logistics with operations and strove for constant improvement by making organizational and process changes aimed at increasing logistical responsiveness effectiveness and efficiency The British provided tremendous host nation support including construction of new airfields skilled and unskilled labor support supply items and transportation The British host nation support 8AF received far surpassed what a cursory review of World War II history leads one to believe and serves as a model for US led coalition operations in the 21st century The US Merchant Marine and US Navy provided sealift of goods from the stateside depots to the theater The US Army provided supply support of common items and Air Service Command ASC provided technical and supply support Last but not least both civil servants and civilian contractors provided depot maintenance and in theater technical support
