In 2021, we welcomed a **record number of permanent residents**, more than **405,000**.

**Immigration** accounts for almost **100%** of Canada's labour force growth and nearly **80%** of our **population growth**.

Canada regained many of the jobs lost during the pandemic, but there remain **960,000 unfilled positions** across all sectors.

By 2030, **5 million** Canadians are set to retire and the worker to retiree ratio will drop down to only 3:1.

This is a clear sign that we have a **strong economic need for increased immigration**.

*Economic Recovery for Canada* John Cornwall, Wendy A. Maclean, Canadian Institute for Economic Policy, 1984      **What Global Economic Crisis?** P. Arestis, M. Baddeley, J. McCombie, 2001-07-11 Economics has become an excessively esoteric discipline Opportunities to bridge the gap between theorizing and policymaking are becoming increasingly limited One issue of great importance to modern policymakers is the relationship between globalization and economic crisis With unprecedented trends towards globalization in part propelled by developments in information technology the repercussions of economic crisis are more profound than ever before particularly for developing countries What Global Economic Crisis bridges the gap between theory and policy by examining the destabilising effects of financial crises on economic growth stability and development It also presents some innovative ideas intended to inform the design of institutions able to foster more effective international policy coordination      *Interactions in Political Economy* Steven Pressman, 1996-08-08 In recent years there has been a growing dissatisfaction with standard economic theorising which has fostered the development of alternative ways of understanding how economies actually work Too often though these approaches have been developed in isolation or even in opposition to each other However Interactions in Political Economy demonstrates      **The World Economy in Crisis** Lorie Tarshis, 1984-01-01 Lorie Tarshis held that much of the economic suffering in the 1970s was not necessary that the crisis could have been easily eased had it not been for governments faulty diagnoses and poorly designed prescriptions Faced with increasingly serious energy shortages economic slowdowns rising unemployment and skyrocketing Third World debt Western governments responded with inflation fighting policies left over from the Second World War that served only to exacerbate the situation In this book Tarshis recommended an overall strategy to confront these problems without resorting to the stopgaps then in vogue with government decision makers World Economy in Crisis offers an acute diagnosis of the pervasive malaise facing the world economy in the 1970s and a critical perspective on contemporary official responses to it      *The Political Economy of Canada* Michael Howlett, Alex Netherton, M. Ramesh, 1999 Debates on the role of the state and the viability of Canadian economic development are especially intense during periods of change such as the contemporary era of globalization In this completely revised updated and enlarged second edition of The Political Economy of Canada Professors Howlett Netherton and Ramesh outline the principal structural elements of the Canadian political economy and describe the importance of such factors as resources social class and international trade The authors stress the significance of political institutions at the national international and subnational levels that substantially affect the production and distribution of wealth Three chapters consider the strengths and weaknesses of major approaches to Canada's political economy the liberal and socialist theories as well as the staples approach pioneered by Harold Innis Subsequent chapters explore the structure and organization of and the interrelationships between the state labour and capital in Canada and show how their fragmented and decentralized nature limits the capacity of governments to manage a globalized economy

The book outlines the history of the domestic political economy and examines how Canada is linked to the international political economy through the World Trade Organization and NAFTA Particular attention is devoted to the constraints imposed on the Canadian state by a market oriented resource exporting economy and by growing reliance on US trade The final chapters examine monetary and fiscal management and industrial policy demonstrating how these policy arenas are shaped by ideology new globalizing and regionalizing constraints and the dis organization of the major policy actors

*Capitalist Development in the Twentieth Century* John Cornwall, Wendy Cornwall, 2001-07-12 Capitalism in the twentieth century was marked by periods of persistent bad performance alternating with episodes of good performance A lot of economic research ignores this phenomenon other work concentrates almost exclusively on developing technology as its cause This 2001 book draws upon Schumpeterian Institutional and Keynesian economics to investigate how far these swings in performance can be explained as integral to capitalist development The authors consider the macroeconomic record of the developed capitalist economies over the past 100 years including rates of growth inflation and unemployment as well as the interaction of economic variables with the changing structural features of the economy in the course of industrialization and transformation This approach allows for changes both in the economic structure and in the economic variables to be generated within the system This study will be essential reading for macroeconomists and economic historians [Canadiana](#), 1984

**Rebuilding From Within** Rotstein, Abraham, 1984-01-01 In this study written in 1984 the author discusses problems and weaknesses in Canada s economy and offers solutions for improving in the future Skeptical of the benefits of free trade proposals and deeply critical of the effects of monetarism the author proposes an alternative vision of the nation s development Rotstein outlines the sorts of industrial policies that Canada must have in a balanced portfolio to better exploit the domestic market and survive in a changing global marketplace Rebuilding from Within is a clear headed response to the economic upheavals experienced in Canada in the early 1980s
