through Design David Bihanic, 2015-01-12 At the crossroads of various disciplines this collective work examines the possibility of a new end user engagement in ongoing digital technological products and services development It provides an overview of recent research specifically focused on the user's democratic participation and empowerment It also enables readers to better identify the main opportunities of participatory design a concept which encourages the blurring of the role between user and designer This allows people to escape their status as end user and to elevate themselves to the level of creator This book explores new avenues for rethinking the processes and practices of corporate innovation in order to cope with current socio economic and technological changes In so doing it aims to help companies renew industrial models that allow them to design and produce new ranges of technological products and services by giving the user an active role in the

development process far beyond the basic role of consumer. Intended for designers, design researchers and scientists interested in innovation and technology management, this book also provides a valuable resource for professionals involved in technology based innovation processes.

Horror Fiction in the 20th Century Jess Nevins, 2020-01-07. Providing an indispensable resource for academics as well as readers interested in the evolution of horror fiction in the 20th century, this book provides a readable yet critical guide to global horror fiction and authors. *Horror Fiction in the 20th Century* encompasses the world of 20th century horror literature and explores it in a critical but balanced fashion. Readers will be exposed to the world of horror literature, a truly global phenomenon during the 20th century. Beginning with the modern genre's roots in the 19th century, the book proceeds to cover 20th century horror literature in all of its manifestations, whether in comics, pulps, paperbacks, hardcover novels or mainstream magazines, and from every country that produced it. The major horror authors of the century receive their due, but the works of many authors who are less well known or who have been forgotten are also described and analyzed. In addition to providing critical assessments and judgments of individual authors and works, the book describes the evolution of the genre and the major movements within it. *Horror Fiction in the 20th Century* stands out from its competitors and will be of interest to its readers because of its informed critical analysis, its unprecedented coverage of female authors and writers of color, and its concise historical overview.

The Music of Pavel Haas Martin Čurda, 2020-06-03. The Czech composer Pavel Haas (1899–1944) is commonly positioned in the history of twentieth century music as a representative of Leo Janáček's compositional school and as one of the Jewish composers imprisoned by the Nazis in the concentration camp of Theresienstadt. However, the nature of Janáček's influence remains largely unexplained, and the focus on the context of the Holocaust tends to yield a one-sided view of Haas's oeuvre. The existing scholarship offers limited insight into Haas's compositional idiom and does not sufficiently explain the composer's position with respect to broader aesthetic trends and artistic networks in inter-war Czechoslovakia and beyond. This book is the first attempt to provide a comprehensive, albeit necessarily selective, discussion of Haas's music since the publication of Lubomír Peduzzi's life and work monograph in 1993. It provides the reader with an enhanced understanding of Haas's music through analytical and hermeneutical interpretation, as well as cultural and aesthetic contextualisation, and thus reveals the rich nuances of Haas's multi-faceted work, which have not been sufficiently recognised so far.

Brazil Paul McAuley, 2017-10-23.
