## **Fantastic Worlds Myths Tales And Stories:**

*Fantastic Worlds* Eric S. Rabkin, 1979-06-07 Offers the first anthology to cover the entire scope of fantastic literature from myths scripture tales of fairies and elves to modern fiction Discusses the uses people make of these tales and their sources in psychology and society

*Fantastic Worlds* Eric S. Rabkin, 1979-06-07 As the first international anthology to cover the entire scope of fantastic narrative *Fantastic Worlds* presents over fifty tales myths and stories ranging from Genesis to Ovid Hans Christian Andersen to J R R Tolkien Edgar Allan Poe to James Thurber and Franz Kafka to Italo Calvino Including tales of fairies and elves ghost stories high fantasy and stories of social criticism and the conflict between science and religion this volume presents a diverse selection of writings that all share the same capacity to liberate the human spirit through the wild mental acrobatics of fantasy

*Violence, Utopia and the Kingdom of God* George Aichele, Tina Pippin, 2002-01-31 This controversial book explores the presence of the fantastic in Biblical and related texts and the influence of Biblical traditions on contemporary fantasy writing cinema music and art The contributors apply a variety of critical concepts and methods from the field of fantasy studies including the theories of Tolkien Todorov Rosemary Jackson and Jack Zipes to Biblical texts and challenge theological suppositions regarding the texts which take refuge in science or historiography *Violence Utopia and the Kingdom of God* presents a provocative and arresting new analysis of Biblical texts which draws on the most recent critical approaches to provide a unique study of the Biblical narrative

**Imagination and Fantasy in the Middle Ages and Early Modern Time** Albrecht Classen, 2020-08-24 The notions of other peoples cultures and natural conditions have always been determined by the epistemology of imagination and fantasy providing much freedom and creativity and yet have also created much fear anxiety and horror In this regard the pre modern world demonstrates striking parallels with our own insofar as the projections of alterity might be different by degrees but they are fundamentally the same by content Dreams illusions projections concepts hopes utopias dystopias desires and emotional attachments are as specific and impactful as the physical environment This volume thus sheds important light on the various lenses used by people in the Middle Ages and the early modern age as to how they came to terms with their perceptions images and notions Previous scholarship focused heavily on the history of mentality and history of emotions whereas here the history of pre modern imagination and fantasy assumes center position Imaginary things are taken seriously because medieval and early modern writers and artists clearly reveal their great significance in their works and their daily lives This approach facilitates a new deep structure analysis of pre modern culture

**Speculations on Speculation** James E. Gunn, Matthew Candelaria, 2005 Science fiction is a field of literature that has great interest and great controversy among its writers and critics This book examines the roots history development current status and future directions of the field through articles contributed by well respected science fiction writers teachers and critics The articles speculate on what is science fiction is science fiction serious literature which writers are considered good science fiction writers and where the genre of science

fiction is headed with 21st century writers Contributors include Brian W Aldiss Kathryn Cramer Samuel R Delany David G Hartwell Ursula K Le Guin Barry N Malzberg Darko Suvin Michael Swanwick and many other outstanding authors Examining all genres and subgenres of science fiction writing this book provides differing viewpoints on science fiction making it a great basis for dynamic classroom discussions *C.S. Lewis, Writer, Dreamer, and Mentor* Lionel Adey, 1998 This new study by Lionel Adey is unique in its attempt to trace the development of C S Lewis as a maker and reader of books Adey shows how the two sides of Lewis s personality Dreamer and Mentor affected his writing in its various modes l **Envisioning the Future** Marleen S. Barr, 2003-09-03 Writers speculate on the future and the role of science fiction **The Many Facets of Stephen King** Michael R. Collings, 1985-01-01 A study of King s fiction including a chapter on criticism and a chronology of King s works From the Heart Kathryn Jane Bell, 2003 It can be frustrating demoralising even to be too afraid or intimidated to express either in speech or in writing what is going on in one s mind It s one thing to write enough to complete a class assignment or to please a teacher it s another to really use and take ownership of one s language and express oneself from one s heart The main goal of *From the Heart* is to encourage just that The exercises are designed to give students the opportunity to develop language skills while at the same time using their own individual creative talents The activities were selected with several goals in mind To help students explore their own creativity in a supportive environment To help them discover that inspiration for writing is everywhere To build their confidence in voicing their own heartfelt ideas To provide abundant opportunities to practice their newly acquired skills To help them feel comfortable about getting and giving feedback that improves writing As they achieve these goals they will find themselves more confident and comfortable with their new language producing texts that are much more interesting than standard classroom fare and really writing from their hearts The Power of Form Ana Fernandes, Ana Raquel Fernandes, Rui Carlos Fonseca, José Pedro Serra, 2015-02-27 Although positivism dismissed myths as childish fancy bound to be superseded by reason there has been a continuous reappraisal of the power of myths since the 19th century Once viewed as primitive and unreliable accounts and an inadequate and distorted form of knowledge myths came to be perceived as exemplary narratives consisting of rich and complex symbolic constructs that carry meaning and a connection to reality Myths then came to be regarded as a privileged expression of the human soul and of its possibly submerged and unconscious abysses and dramas Rather than inherently obscure and elusive to a rational grasp mythical narratives would therefore be driven by logical reasoning giving shape to a particular worldview of life and humankind The enduring power of mythical narrative is attested to by its very plasticity subject to multiple recreations informed by changing concerns and insights Mythical narratives have thus attracted the interest of various disciplines from ethnology and history to philosophy literature sociology politics the history of religions and art history This interdisciplinary volume studies how myths are inscribed and recycled within both individual and collective heritage and examines the personal and political implications of multifaceted engagement with myths as one of the

forms through which societies try to make sense of their perplexities

### **Race and Utopian Desire in American**

**Literature and Society** Patricia Ventura, Edward K. Chan, 2019-10-12 Bringing together a variety of scholarly voices this book argues for the necessity of understanding the important role literature plays in crystallizing the ideologies of the oppressed while exploring the necessarily racialized character of utopian thought in American culture and society Utopia in everyday usage designates an idealized fantasy place but within the interdisciplinary field of utopian studies the term often describes the worldviews of non dominant groups when they challenge the ruling order In a time when white supremacy is reasserting itself in the US and around the world there is a growing need to understand the vital relationship between race and utopia as a resource for resistance Utopian literature opens up that relationship by envisioning and negotiating the prospect of a better future while acknowledging the brutal past The collection fills a critical gap in both literary studies which has largely ignored the issue of race and utopia and utopian studies which has said too little about race *Foods of the Gods* Gary Westfahl, George Edgar Slusser, Eric S. Rabkin, 1996 Gluttony and starvation pleasure and pain growth and decay These and other extremes of our condition related to food though all but banned from the civilized tables of mainstream fiction are ideal topics for the undomesticated free roaming modes of fantasy As acts and ideas food and eating are fundamental to all that makes us human and dominate our symbolic realms of art literature and cuisine These essays show us the power of speculative modes of fiction to help us look anew at prehistorical and psychomythical attitudes toward food and eating historical Western cultural attitudes toward the material fact of food and the necessity of eating and the relationship between attitudes toward food and how how much when and where we eat The contributors come from a variety of backgrounds including anthropology film and French Russian English and medieval literature Ranging in their focus from shamans to cannibals utopias to social Darwinism muscle magazines to supermarket tabloids the contributors discuss the theory and practice of science fictional eating the dialectic at the level of eating between individual needs and collective norms and the ways that eating habits and the availability and choice of food serve to contextualize and demarcate modern fictional genres In addition to discussing such writers as C S Lewis Stephen King Octavia Butler Jonathan Swift and Anne Rice the contributors also consider such films as Indiana Jones and the Temple of Doom and Cocteau's *Beauty and the Beast*

**Four Who Entered Paradise** Howard Schwartz, 2000-07 To find more information on Rowman Littlefield titles please visit us at [www.rowmanlittlefield.com](http://www.rowmanlittlefield.com) **To See the Wizard** Laurie Ousley, 2021-02-19 To See the Wizard Politics and the Literature of Childhood takes its central premise as the title indicates from L Frank Baum's *The Wonderful Wizard of Oz* Upon their return to The Emerald City after killing the Wicked Witch of the West the task the Wizard assigned them Dorothy the Tin Woodman Scarecrow and Lion learn that the wizard is a humbug merely a man from Nebraska manipulating them and the citizens of both the Emerald City and of Oz from behind a screen Yet they all continue to believe in the powers they know he does not have still insisting he grant their wishes The image of the man behind the screen and the reader's

continued pursuit of the Wizard is a powerful one that has at its core an issue central to the study of children's literature: the relationship between the adult writer and the child reader. As Jack Zipes, Perry Nodelman, Daniel Hade, Jacqueline Rose, and many others point out, before the literature for children and young adults actually reaches these intended readers, it has been mediated by many and diverse cultural, social, political, psychological, and economic forces. These forces occasionally work purposefully in an attempt to consciously socialize or empower, training the reader into a particular identity or way of viewing the world by one who considers him or herself an advocate for children. Obviously, these wizards acting in literature can be the writers themselves, but they can also be the publishers, corporations, school boards, teachers, librarians, literary critics, and parents, and these advocates can be conservative, progressive, or any gradation in between. It is the purpose of this volume to interrogate the politics and the political powers at work in literature for children and young adults. Childhood is an important site of political debate, and children often the victims or beneficiaries of adult uses of power; one would be hard pressed to find a category of literature more contested than that written for children and adolescents. Peter Hunt writes in his introduction to *Understanding Children's Literature* that children's books are overtly important educationally and commercially, with consequences across the culture, from language to politics; most adults, and almost certainly the vast majority in positions of power and influence, read children's books as children, and it is inconceivable that the ideologies permeating those books had no influence on their development. If there were a question about the central position literature for children and young adults has in political contests, one needs to look no further than the myriad struggles surrounding censorship. Mark I. West observes, for instance, "Throughout the history of children's literature, the people who have tried to censor children's books for all their ideological differences share a rather romantic view about the power of books. They believe, or at least they profess to believe, that books are such a major influence in the formation of children's values and attitudes that adults need to monitor every word that children read." Because childhood and young adulthood are the sites of political debate for issues ranging from civil rights and racism to the construction and definition of the family, indoctrinating children into or subverting national and religious ideologies, the literature of childhood bears consciously political analysis, asking how socialization works, how children and young adults learn of social, cultural, and political expectations, as well as how literature can propose means of fighting those structures. To *See the Wizard: Politics and the Literature of Childhood* intends to offer analysis of the political content and context of literature written for and about children and young adults. The essays included in *To See the Wizard* analyze nineteenth and twentieth-century literature from America, Britain, Australia, the Caribbean, and Sri Lanka that is for and about children and adolescents. The essays address issues of racial and national identity and representation, poverty and class mobility, gender, sexuality, and power, and the uses of literature in the healing of trauma and the construction of an authentic self.

*The Divine Daughter* Andrew Gilchrist, 2019-03-27

Ever feel swept up in a sea of novelty? When did the new become more important than the true? Andrew Gilchrist found a remedy to today's nausea

of novelty in the most familiar elements of narrative and music He has composed a new arrangement from the ideas of Marshall McLuhan Northrop Frye Bernard Lonergan and Jordan Peterson weaving together a promising relationship between what we believe and how we live This book starts a conversation at the crossroads of art literature religion and psychology And it begins with the oldest of stories A boy fell in love with a girl and sung her a song Each chapter in this book charts a series of helpful symbols and sounds drawing attention to the melodies rhythms and tempos that make up our most common experiences The scientific revolution gave birth to a new understanding of the relationship between observer and observed lover and beloved That birth has changed the song However we have not welcomed this new daughter into the family with a proper name or fully recognized her part in our spiritual development With her wisdom we too might find hope and delight in the back and forth journey between tradition and innovation Could her compelling voice and playful character help us prepare for the greatest roles of our lives

**Seers, Witches and Psychics on Screen** Karin Beeler, 2014-01-10

This book addresses the pervasive representation of women with unique visionary abilities in postfeminist television series and films from the 1990s to the present These women mediate between the living and the dead or between different worlds of experience redefining what it means to be normal and challenging the traditional boundary between science and the inner world of visionary mystical experience Part 1 includes a discussion of modern day Cassandra figures including the witches and other seers of the television series Buffy the Vampire Slayer Angel Firefly Charmed Hex and Tru Calling Part 2 discusses modern television shows whose main characters represent a contemporary spin on Joan of Arc including Joan of Arcadia and the short lived Wonderfalls Finally Part 3 investigates female mediums and other psychic detectives in reality television series such as Psychic Investigators and Rescue Mediums the popular television dramas Medium Ghost Whisperer and Afterlife and contemporary films such as Ghost The Gift and Premonition

**The Cross, the Plow and the Skyline** Ernest J. Yanarella, 2022-03-01 The apocalyptic pastoral and urban traditions have fundamentally shaped Western history and influenced American religion culture and politics This book argues that these traditions have not only been decisive in giving form and substance to classic and modern American literature but have been appropriated by contemporary science fiction As a loosely connected set of cultural narratives the Cross the Plow and the Skyline have through the medium of science fiction and fantasy provided a bold vista on the future grounded in an emergent ecological imagination In the expanded second edition of the original 2001 publication the author argues that a significant shift has taken place in contemporary Anglo American science fiction and fantasy SF F from twentieth century SF F critically analyzed in the first edition s critical inquiry Avantgarde works in twenty first century speculative fiction extensively examined in representative works in interludes separating the slightly revised original chapters have become darker in their visions of the possible future more focused on slowness over breakneck speed more amenable to gender racial and global diversity in authorship plot and subgenre creation less attached to anchor concepts like the city wilderness and the domesticated landscape in plot

development more prone to dystopian and critical dystopian tropes simultaneously more open toward but critical of Young Adult fiction and more supportive of the breakdown of borders and antagonisms between science fiction and fantasy and SF and literary fiction Ensnared in the cultural social and political zeitgeist of the New Millennium's first two decades these features of twenty first century science fiction and fantasy may yet settle into and inform emergent and pluralistic varieties of ecological politics spreading across the globe and confronting the Earth's social and environmental crises of our times and coming decades

**Imagining Apocalypse** NA NA,2016-04-30 This volume brings together essays by specialists in different disciplines on the cultural expression of apocalypse in particular in anglophone science fiction of the nineteenth and twentieth centuries Approaching these works from historical philosophical linguistic and literary perspectives the contributors examine the relationship between secular and spiritual apocalypse connecting the fiction and films to their historical moment Not surprisingly war recurs throughout this material as a critical turning point fulfilment of prophecy or prelude to a new age In particular the essays explore the issue of whether modern apocalypse is seen as an ending or a beginning considered under its political ethnic and gendered aspects Among the writers covered are H G Wells Olaf Stapledon and such contemporary figures as Michael Moorcock J G Ballard and Storm Constantine *Investigating*

*Charmed* Stan Beeler,Karin Beeler,2007-11-28 In 1998 the series *Charmed* the story created by Constance M Burge of three sisters who discover that they are powerful witches first aired on the WB network The series ran for eight series and into top rating DVDs and has established a continuing presence as cult TV The world of *Charmed* is distinctively one of female solidarity with sisters Piper Prudence Phoebe and with the death of Pru half sister Paige making up the power of three In their crusade against the demonic population of their home city of San Francisco the Halliwell sisters have also inherited their powers and *The Book of Shadows* through the female line The expert contributors to *Investigating Charmed* all of them fans of the show explore its nature as ground breaking TV They debate the status of *Charmed* as third wave feminist narrative as well as its upturning of notions of sexuality and its creation of alternative forms of family life The San Francisco setting is explored as is *Charmed*'s brand of witchcraft and fantasy its mythological antecedents and female heroes Looking also at the fans relationship to the show as well as its novelizations fan fiction and blogs the book on this fantastic magical show concludes with a complete Episode Guide

*The Mental Health of Gifted Intelligent Machines* John Senior,Éva Gyarmathy,2024-02-13 *The Mental Health of Gifted Intelligent Machines* explores the increasingly sophisticated behaviours of developing AI and how we can ensure it will have emotional resilience ethical strength and an ability to think in a new and enhanced way Its primary aim is to change how we understand the world by investigating humanity as an intelligent being examining and contrasting human and artificial intelligence The book considers what we can learn from the likely mental health issues that will occur with increasingly sophisticated aspects of machine intelligence and how they will reflect the human condition It asks questions about our identity in a deeply uncertain and disruptive ever changing world how we will

improve and enhance our psychological intelligence to meet the increasing complications and demands of the future and what we need to do now to be psychologically intelligent enough to live a full meaningful life in a new world evolving around us The book argues that changes in our understanding of mental health psychology and our view of intelligence will challenge huge aspects of our fundamental beliefs and assumptions and that it is essential we explore new arenas to further understand both our own human psychological issues and mental health as we develop gifted intelligent machines It is a must read for all students researchers and professionals involved with AI gifted education consciousness and mental health
