## **Far Memory Joan Grant Autobiography:**

*Far Memory* Joan Grant, 1985 This is Joan Grant's autobiography of her childhood and the development of her psychic talents and ability to recall earlier lives. It is a fascinating and breathtaking story which draws the reader vividly into the midst of her many rich and colorful experiences. It is poignant, charming, insightful, and inspiring and records in great detail how she came to write her novels. Like her novels, *Far Memory* is a treat. As *The London Times* put it, Joan Grant is a writer with unique qualities. Her conceptions have originality and novelty; her style is simple and beautiful. *Far Memory* is a major contribution to new age biographies. *Far Memory* Joan Grant, 1969 EXPLORING REINCARNATION Hans

TenDam, 2012-12-31 *Exploring Reincarnation* examines the full range of explanations for past life recall. This definitive study includes case histories from around the world as well as intriguing theories about the relationship between body and soul from general social beliefs about past lives to detailed questions about karma and past life regression therapy. An outstanding introduction to reincarnation from a historical, scientific, and philosophical point of view. *Exploring Reincarnation* is the now classic panorama on reincarnation ideas and experiences. Premonitions of the Titanic Disaster Terry Keefe, 2021-03-28 Passengers cancelling their tickets for Titanic's maiden voyage out of apprehension, a famous social reformer who died on Titanic warned in 1911 that he would be in danger from water in April 1912, inhabitants of the remote islands of Fiji aware of the sinking before reports of the collision reached the Pacific, a dying girl who on 14 April 1912 sees a big ship sinking in the water and mysteriously knows the name of the violinist in Titanic's orchestra. These are just a few of the numerous claims to psychic foreknowledge of the ship's sinking. Within days of the widely publicised disaster of 1912, stories began circulating of extraordinary omens and individuals who supposedly had supernatural premonitions of the disaster. Furthermore, four fictional works, one dating as far back as twenty-six years, came to be seen as anticipating the disaster. Between 1960 and 2006, five major commentators published extended analyses of the alleged premonitions, none of which is now easily accessible to an English readership. This book examines them all in detail. The whole treatment of the matter opens up fascinating questions concerning the paranormal but also raises and leaves unresolved crucial issues specific to premonitions and how they can be legitimately examined. Readers are left to make their own judgement on Titanic premonitions.

**Dreams Beyond Time** Lee Irwin, 2022-05-04 *Dreams Beyond Time: On Sacred Encounter and Spiritual Transformation* offers readers an overview of dreams research as applied to non-ordinary dreams. Lee Irwin describes four basic types of dreaming: normative, mythic, psychic, and transpersonal, and he illustrates each type with specific dream examples. These types of dreaming are then used as a lens to look more closely at additional dream types that indicate dreaming as a process of creative discovery. Through virtual dreaming encounters, latent human potentials are revealed and suggest aspects for spiritual development based on dream recording, interpretation, and analysis. In turn, this leads to a metaphysical description that is pan-sentient, illustrating a vivid living universe of process becoming in which certain dream types reveal mythic

psychic and transpersonal capacities as intrinsic to a deeper more awakened sense of intersubjective self awareness While dream theories from many diverse authors are explored the author uses an existential and phenomenological method to analyze dreaming contents in relationship to altered states of mind trance out of body and near death experience meditation imagination and stages of lucid self awareness Transpersonal dreams are given considerable attention in relationship to mystical traditions paranormal research and the comparative anthropology of self     The Limitless Soul Bryn Blankinship,2025-08-05 Access the Soul Level of Your Mind to Resolve Current Life Issues Featuring numerous past life afterlife and future life case studies The Limitless Soul invites you to explore the many aspects of a soul s existence These narratives show that life is not a random series of events and they can be used to gain insight into your soul s future while exploring earthly lessons for your current incarnation Using her hypno regression technique Soul Expression Spiritual Regression SESR author Bryn Blankinship explains how revisiting certain times in your soul s history can bring resolution to long standing issues and shift energies that are affecting your current life incarnation This enlightening book carries universal messages and offers hands on exercises meditations and practices for awakening your soul s guidance With it you ll discover your personal gifts and a deeper understanding of your place in this world     *We Meet in Dreams* Laurie Conrad,2012-03-01 A book for anyone who wants to look more deeply into the true nature of their dreams Most of us have had a dream experience that seemed more real than an ordinary dream a dream that felt like it really happened Weve wondered what made that dream feel so different so vivid so meaningful to us According to author and clairvoyant Laurie Conrad there are two kinds of dreams One is psychological the product of our subconscious mind with its endless torrent of thoughts and desires In *We Meet in Dreams* the author presents us with the compelling possibility that some of our dreams are actually visits to other realms or to other places on Earth These dreams suggest that our relationship to time and space may be less fixed than we think Through exploring and interpreting a wide range of dreams including flying dreams shared dreams and nightmares Laurie Conrad helps us to distinguish the difference between our ordinary dreams and other realm visits In the process many fascinating unexpected interpretations are offered that defy the ways that dreams have been understood until now     **Maps of Consciousness** Ralph Metzner,2023-09-19 A classic guide to expanding perception and consciousness development Explores six ancient yet timeless systems for exploring the mind the I Ching Tantra Tarot astrology alchemy and the yoga philosophy of Actualism Shares exercises from each system and illuminates the key stages in the journey of consciousness development Shows how each of these disciplines can help you become a fully aware and conscious participant in your own spiritual evolution In this highly acclaimed classic psychedelic elder Ralph Metzner presents a guide to six ancient systems once known only to the initiated few to expand awareness and free your consciousness from exterior limitations and cultural conditioning Metzner begins with the I Ching revered by the Chinese as the oldest and wisest book in the world He explains how it reveals change as the evolutionary constant and offers a hands on
