

- * Layout pattern on cardboard
- * Cut out large 12"x48" shelves
- * Notch shelves to the thickness of cardboard and to a depth of 1/2 inches
- * Remember, do not slot the last two shelf pieces. These are to be glued on the ends of the divider and do not need to be slotted.
- * When all the pieces are cut and slotted put them together

Folded Plate Forms

Start off exploring cardboard forms by starting first in paper and then in cardboard. For starters, layout the pattern on what you have on a piece of paper and then fold it — diagonal lines from one side and vertical lines from the other.

To get different angles, just vary the spacing of the lines in the fold of the original form.

Cardboard (available in many colors) works well for making larger sized plate forms. The only trick is that cardboard should be scored before it is folded.

To score cardboard, cut through the top layer of

cutting, making sure not to cut all the way through. Reinforce the edges with tape.
