Home Ownership and Social Inequality in Comparative Perspective Karin Kurz, 2004-07-09 This cross national comparative study analyzes the relationship between social inequality and the attainment of home ownership over the life course in 12 countries A New Youth? Elisabetta Ruspini, 2016-03-16 A New Youth provides a cross cultural perspective on

the challenges and problems posed by young people's transition to adulthood. The authors address questions such as: What are the experiences of being young in different European countries? What can we learn about the differences of being young in non-European countries? Are young people developing new attitudes towards society? What are the risks associated with the transition of youth to adulthood? Can we identify new attitudes about citizenship? On a more general level, are there experiences and new social meanings associated with youth? The volume is comparative between various European and non-European countries in order to identify the emerging models of transition. These characteristics are connected with broader social, political, and cultural changes: changes related to extended education, increasing women's participation in the labour market, changing welfare regimes, as well as changes in political regimes and in the representation and construction of individual identities and biographies towards an increasing individualization. The work offers critical reflections in the realm of sociology of youth by providing broader understandings of the term youth. The detailed analysis of new forms of marginality and social exclusion among young people offers valuable insight for policy development and political debate.

Globalised Minds, Roots in the City Alberta Andreotti, Patrick Le Galès, Francisco Javier Moreno-Fuentes, 2014-11-11
Globalised Minds: Roots in the City utilises empirical evidence from four European cities to explore the role of urban upper middle classes in the transformations experienced by contemporary European societies. Presents new empirical evidence collected through an original comparative research about professionals and managers in four European cities in three countries. Features an innovative combination of approaches, methods, and techniques in its analyses of European post-national societies. Reveals how segments of Europe's urban population are adopting exit or partial exit strategies in respect to the nation-state. Utilises approaches from classic urban sociology, globalization and mobility studies, and spatial class analysis. Includes in-depth interviews, social networking techniques, and classic questions of political representation and values.

Demography: Analysis and Synthesis, Four Volume Set Graziella Caselli, Jacques Vallin, Guillaume Wunsch, 2006-01-03
This four-volume collection of over 140 original chapters covers virtually everything of interest to demographers, sociologists, and others. Over 100 authors present population subjects in ways that provoke thinking and lead to the creation of new perspectives, not just facts and equations to be memorized. The articles follow a theory, methods, applications approach and so offer a kind of one-stop shop that is well suited for students and professors who need non-technical summaries, such as political scientists, public affairs specialists, and others. Unlike shorter handbooks, Demography: Analysis and Synthesis offers a long-overdue thorough treatment of the field. Choosing the analytical method that fits the data and the situation requires insights that the authors and editors of Demography: Analysis and Synthesis have explored and developed. This extended examination of demographic tools not only seeks to explain the analytical tools themselves but also the relationships between general population dynamics and their natural economic, social, political, and cultural environments. Limiting themselves to human populations only, the authors and editors cover subjects that range from the core building blocks of population change.

Generazioni Autori Vari, 2011-02-14T00:00:00+01:00 Il volume raccoglie contributi storici relativi soprattutto all'età moderna che affrontano il tema dei rapporti tra le generazioni nel passato e delle loro ricadute sulle configurazioni attuali dei legami familiari a partire dalle sollecitazioni delle scienze sociali quali l'antropologia, la sociologia e la demografia. Dal piano politico simbolico a quello demografico, dalla questione dell'assistenza a quella della gestione dei conflitti, ci si interroga tra l'altro sul modello dualistico che ha contrapposto in talune interpretazioni un'Europa mediterranea dai legami familiari forti a un'Europa nord occidentale in cui questi legami sarebbero stati da lungo tempo più deboli e quindi sostituiti dalla dimensione pubblica del welfare con differenti andamenti demografici riguardo alle strutture familiari e alla fecondità.

Il senso dei tempi. Per una sociologia del presente Giovanni Boccia Artieri, Davide Borrelli, 2015-09-28T00:00:00+02:00 Questo volume raccoglie i contributi selezionati in occasione del decimo Forum Giovani dell'Associazione Italiana di Sociologia AIS che si è tenuto nel 2013 all'Università di Firenze. I saggi qui raccolti si confrontano a partire da diverse prospettive teoriche e approcci metodologici con le emergenze del presente in particolare con le conseguenze della crisi economica, sociale e culturale che stiamo vivendo in questi anni. Nel complesso lo spessore dei contributi fa ritenere che la ricerca italiana nel campo della sociologia sia viva, qualificata e tutt'altro che depressa. Il che costituisce un incoraggiante segnale di riscatto da parte delle giovani generazioni di studiosi rispetto alla situazione critica in cui si trova a operare la ricerca universitaria nel nostro paese in particolare nel settore delle scienze sociali. In occasione del Forum Giovani AIS 2013 si è tenuta la seconda edizione del Premio Franco Rizzo dedicata alla memoria dell'illustre sociologo della politica.

IL MONDO IN DIVENIRE. Un dibattito aggiornato sulle previsioni di Jacques Attali BARBARA MAUSSIÉ, 2020-10-19 Questo volume presenta i risultati di una ricerca sociologica che con un rigoroso metodo scientifico confronta la realtà odierna con le previsioni fatte nel 2000 dall'economista Jacques Attali nel saggio *Lessico per il futuro*. Dizionario del XXI secolo. L'indagine in particolare riguarda l'analisi di alcuni dei vocaboli presentati da Attali organizzati in 12 aree tematiche: lavoro, tempo libero, turismo, sport, amore, famiglia, religione, politica, economia, educazione e comunicazione. Per ogni tema, oltre a essere stati analizzati dati secondari e la più recente letteratura scientifica, sono stati raccolti i pareri di competenti specialisti d'eccellenza tra intellettuali teorici e protagonisti della società contemporanea offrendo un dibattito aggiornato e un invito a una riflessione critica su alcune delle questioni principali della società contemporanea. La ricerca si avvale del contributo di Francesco Alberoni, Leonardo Becchetti, Roberto Cipriani, Flavia Coccia, Nicol Costa, Domenico De Masi, Paola Di Nicola, Gaetano Domenici, Francesco Giorgino, Claudio Gubitosi, Piero Ignazi, Fabio Massimo Lo Verde, Giovanni Malag, Mons Andrea Manto, Dacia Maraini, Federico Moccia, Mario Morcellini, Giuseppe Noia, Nicola R.
