Strained Peace: Northern Ireland from Good Friday to Brexit Amanda Hall, 2024-09-30 As the United Kingdom continues to grapple with the aftermath of Brexit one corner of the Union has remained caught in the crosshairs Northern Ireland has been the subject of renewed scrutiny since 2016 as efforts to leave the European Union come up against the terms of the Good Friday Agreement and threaten the region's hard won peace The reasons for these challenges can be traced back to the Agreement itself as the negotiated settlement and its immediate aftermath set in place a strained peace This book examines the function and dysfunction of peace after 1998 to explain why its endurance cannot be taken for granted Strained peace stands apart from the traditional peace violence binary Structures of conflict and patterns of division are reiterated in the structures of peace Tensions might relax just as they might be inflamed by new challenges but the threat of a return to violence is never fully gone This book explores how such a condition developed between Good Friday and Brexit addressing variations in the quality of peace in the insecurity of official structures at Stormont the shifting role of community groups and the third sector and the adaptation of culture as a culture war replaced physical violence on the streets

Female Combatants after Armed Struggle Niall Gilmartin, 2018-12-07 This book stems from a simple feminist curiosity that can be succinctly summed up into a single question what happens to combatant women after the war Based on in depth interviews with 40 research participants mostly former combatants within the Irish Republican Army IRA this book offers a critical exploration of republican women and conflict transition in the North of Ireland Drawing on the feminist theory of a continuum of violence this book finds that the dichotomous separation of war and peace within conventional approaches represents a gendered fiction Despite undertaking wartime roles that were empowering agentic and subversive this book finds that the post conflict moment as experienced by female combatants represents not peace and security but a continuity of gender discrimination violence injustice and insecurity The experiences and perspectives contained in this book challenge the discursive deployment of terms such as post conflict peace and security and moreover shed light on the many forms of post war activism undertaken by combatant women in pursuit of peace equality and security The book represents an important intervention in the field of gender political violence and peace and more specifically female combatants and conflict transition It is analytically significant in its exploration of the ways in which gender operates within non state military movements emerging from conflict and will be of interest to students and scholars alike

Brexit and the Political Economy of Ireland Paul Teague, 2021-05-03 The UK's departure from the EU has profoundly affected the politics and economics of Northern Ireland Brexit has shattered a political accommodation that was taking shape in the region that involved nationalism and unionism refraining from aggressively pursuing their own objectives or making excessive demands on each other Economically it has made the task of building an innovative economy in the region immeasurably more difficult Without radical change Northern Ireland is destined to be an economic outhouse of an underperforming UK economy This book represents the first systematic study of the impact of Brexit on the political and economic future of Northern Ireland and Ireland It provides a detailed assessment of the consequences of the Belfast Agreement and highlights how Brexit imperils the advances that have been made since its signing in 1998 It makes a dispassionate assessment of the changes that may be necessary to create a stronger Northern Ireland economy On the one hand demands for the immediate unification of Ireland that are now being made loudly and persistently by nationalists and republicans are considered too precipitous The two economies on the island are not yet ready for Irish unity On the other hand the book argues the case for a radical reorientation of the Northern Ireland economy through the incremental creation of an all Ireland economy The book cuts through the rhetoric that characterizes so much discussion about the Northern Ireland economy and provides a hard headed appraisal of not only its structure and performance but also the economic feasibility of Irish unity *Conflict at the Interface* Bert Preiss, 2020-02-18 More than two decades after the Northern Ireland peace agreement conflict still flares between deprived Protestant Unionist Loyalist and Catholic Nationalist Republican working class interface communities who remain divided by numerous peace walls In light of Brexit the Irish border issue and the power sharing impasse progress in local peacebuilding has stalled This might even jeopardise the overall peace process Within this context this book explores largely empirically the nature and causes of conflict at the interface An attempt is also made to provide an outlook on peace in Northern Ireland and to highlight potential lessons for other conflict ridden divided societies **Criminal Justice in Transition** Anne-Marie McAlinden, Clare Dwyer, 2015-11-12 This book represents a critical

examination of key aspects of crime and criminal justice in Northern Ireland which will have resonance elsewhere It considers the core aspects of criminal justice policy making in Northern Ireland which are central to the process of post conflict transition including reform of policing judicial decision making and correctional services such as probation and prisons It examines contemporary trends in criminal justice in Northern Ireland and various dimensions of crime relating to female offenders young offenders sexual and violent offenders community safety and restorative justice The book also considers the extent to which crime and criminal justice issues in Northern Ireland are being affected by the broader processes of policy transfer globalisation and transnationalism and the extent to which criminal justice in Northern Ireland is divergent from the other jurisdictions in the United Kingdom Written by leading international authorities in the field the book offers a snapshot of the cutting edge of critical thinking in criminal justice practice and transitional justice contexts
