Farmacología Ocular:

Farmacología ocular Josep Eladi Baños Díez, Marian March Pujol, 2002 Farmacología ocular alcanza su segunda edición con el deseo de colaborar en el desarrollo de una disciplina que ha experimentado un notable avance en los últimos años. En la presente obra se revisan los principios básicos de la farmacología que permiten comprender cómo los medicamentos ejercen sus acciones así como los efectos terapéuticos e indeseables derivados de estas. También se analizan de forma detallada las propiedades de algunos grupos farmacológicos que son de uso frecuente por los profesionales dedicados al cuidado de la función ocular pero difíciles de encontrar en las obras de farmacología o de oftalmología. Farmacología ocular ofrece los conocimientos esenciales que precisan aquellos lectores que van a ejercer o ejercen su actividad profesional en el ámbito de la oftalmología y la optometría.

Velázquez. Esta magnífica obra escrita por un importante grupo de autores de renombre internacional describe entre otros temas: Los fundamentos de la terapéutica ocular, el sistema de defensa ocular, la fisiología de la película lagrimal, los sistemas de administración de fármacos y su permeabilidad y sus agentes causales de infección, los antibióticos específicos y sus aplicaciones clínicas y quirúrgicas, la nueva generación de fluoroquinolonas, los nuevos usos de las tetraciclinas y la azitromicina tópica y los regímenes terapéuticos previos y posteriores a la cirugía de catarata, los trastornos inflamatorios y su tratamiento, el empleo de los antiinflamatorios.

La paz sin engaños: estrategias de solución para el conflicto colombiano Mario Ramírez Orozco, 2008-06-30. En un país como Colombia donde se ha mantenido latente un grave conflicto político social y armado la paz es una necesidad imperiosa pero no se trata de una paz cualquiera sino de una de carácter directa como por los efectos inherentes a otras formas de violencia indirectas o encubiertas. De ahí la importancia de este libro que ofrece principios generales para la solución pacífica de conflictos originados de problemas estructurales. Y al proponer el caso específico de Colombia se procura sacar este conflicto nacional del confinamiento en el cual se ha mantenido alcanzando implicaciones prácticas en futuras negociaciones de paz y demostrar la importancia de propuestas que planteen soluciones reales y duraderas de las causas que los han originado incluso en aquellos países en los que no existe un enfrentamiento armado abierto pero hay inestabilidad política y donde la mayoría de la población padece la extrema pobreza.

Consideraciones vasculares en el glaucoma S. Fabián Lerner, Alon Harris, 2012 Prefacio El glaucoma de ángulo abierto GAA es una de las principales causas de ceguera visual a nivel mundial La patogénesis de la neuropatíaptica glaucomatosa sigue sin comprenderse del todo bien y se ha propuesto la coexistencia de varios mecanismos patológicos A medida que la población mundial envejece el GAA tendrá una mayor prevalencia y los avances en el diagnóstico y el tratamiento de la neuropatíaptica glaucomatosa serán de suma importancia para proteger y mejorar la calidad de vida de nuestra población en proceso de envejecimiento El tratamiento del GAA ha estado enfocado a reducir la presión intraocular PIO la única estrategia terapéutica disponible actualmente para pacientes con glaucoma Mientras que una amplia variedad de estudios han demostrado que reducir la PIO disminuye el riesgo de desarrollo y o progresión del glaucoma muchos estudios también han demostrado que algunos pacientes continúan perdiendo la vista a pesar de una reducción significativa de la PIO Han habido varios intentos de dilucidar la etiología del deterioro de la neuropatíaptica

glaucomatosa a pesar de niveles bajos de PIO En las últimas décadas los déficits en la circulación ocular de pacientes con GAA han sido bien establecidos y podrán explicar la progresión continua de pacientes con GAA a pesar de tener una PIO reducida El propósito de la presente publicación es proporcionar una perspectiva actualizada del flujo ocular sanguíneo y la disregulación vascular en el GAA La importancia del tema fue demostrada por el foco de la sexta Reunión de Consenso de la Asociación Mundial de Glaucoma en 2009 que se concentró completamente en los déficits de flujo sanguíneo de los pacientes con GAA A pesar de que se ha establecido una gran cantidad de conocimiento acerca de los factores de riesgo del glaucoma aún quedan preguntas por responder Preceden los déficits de flujo sanguíneo a la progresión del glaucoma De qué forma entra a tallar la presión de perfusión ocular en el paradigma de PIO y flujo sanguíneo Qué conclusiones pueden extraerse de la evidencia reciente que demuestra la fluctuación de los factores de riesgo para el GAA incluyendo PIO presión sanguínea y presión de perfusión ocular Esperamos que este prospecto actualizado sirva como cimiento para investigaciones futuras diseñadas para responder esta y otras consideraciones importantes en el manejo del glaucoma Alon Harris MS PhD FARVO Director de Investigación Clínica Profesor de Oftalmología Lois Letzter Profesora de Fisiología Celular e Integrativa
