Fascism As A Mass Movement:

Fascism as a Mass Movement Mihály Vajda, 1976 **Fascism as a Mass Movement** Vajda György Vajda, 1976 The Political Aesthetics of ISIS and Italian Futurism Thorsten Botz-Bornstein, 2018-12-17 Through empirical analysis and theoretical reflection this book shows that the aesthetics and politics of the Islamic State is futurist ISIS overcomes postmodern pessimism and joins the modern techno oriented and optimistic attitude propagated by Italian Futurism in the early twentieth century The Islamic State does not only excel through the extensive use of high tech weapons social media commercial bot and automated text systems By putting forward the presence of speeding cars and tanks mobile phones and computers ISIS presents jihad life as connected to modern urban culture Futurism praised violence as a means of leaving behind imitations of the past in order to project itself most efficiently into the future A profound sense of crisis produces in both Futurism and jihadism a nihilistic attitude toward the present state of society that will be overcome through an exaltation of technology Futurists were opposed to parliamentary democracy and sympathized with nationalism and colonialism ISIS jihadism suggests a similarly curious combination of modernism and conservative values The most obvious modern characteristic of this new image of fundamentalism is the highly aestheticized recruiting material *Right-Wing Culture in Contemporary Capitalism* Mathias Nilges, 2019-12-12 Commentators across the political spectrum have argued that the future has been absorbed by an ever expanding present to which we cannot imagine alternatives The notion that we have lost the ability to imagine change culturally socially and politically has become one of the defining problems of our time But what is the difference between the populist narratives of those who promise to solve this problem by returning us to a glorious past and those who promise to lead us into a glorious future Often this book argues not very much at all Revealing neo authoritarianism and capitalist hyper innovation as two sides of the same coin Mathias Nilges shows that today's reactionaries and futurists both harness and profit from the same temporal crises of our present Looking to design popular culture literature and recent theoretical and political discussions Nilges offers ways of understanding the re emergence of familiar and disturbing forms of right wing politics and culture authoritarianism paternalism fascism not as historical repetition but as dangerous consequences of the contradictions of capitalism today Using critical theory in particular the work of Ernst Bloch this book recovers a politics and culture of hope which it locates beyond a future that is colonized by capitalism and a past that becomes the mystical playground for the new Right in that which was never allowed to be and thus demands realization Critical Theory from the Margins Saladdin Ahmed, 2023-09-01 Great critical theorists from Marx and Engels to Adorno and Horkheimer not only came from the margins but also stayed faithful to the plight of the marginalized They refused to compromise about the struggle for equality and tried to universalize its emancipatory essence From Marx to Benjamin critical philosophers who showed fidelity to the cause were denied a career in European universities and made impoverished stateless and homeless Marginalization and critical theory are inseparable yet today Marxism is

institutionalized and the Frankfurt School's Critical Theory is gentrified Critical Theory from the Margins however revives the Critical Theory that endorses criticism aiming to negate dominant regimes of truth It is unapologetic in its fidelity to the universalist struggles of the minoritized In that spirit Saladdin Ahmed shows that capitalism imposes a totalitarian social mode of existence and neoliberalism perpetuates fascism as a class of ideology across nationalist and religious movements This book then is both a theorization and an argument in favor of the application of the episteme of the silenced as the essence of the critical education necessary for achieving universal emancipation

Rising Fascism in America Anthony DiMaggio, 2021-12-30 *Rising Fascism in America It Can Happen Here* explores how rising fascism has infiltrated U S politics and how the media and academia failed to spot its earlier rise Anthony R DiMaggio spotlights the development of rightwing polarization of the media Trump's political ascendancy and the prominence of extremist activists including in Congress Fascism has long bubbled under the surface until the coup attempt of January 6th 2021 This book offers tactics to combat fascism exploring social movements such as Antifa and Black Lives Matter in mobilizing the public When so little scholarship engages the question of fascism Anthony R DiMaggio combines the rigor of academic analysis with an accessible style that appeals to student and general readers

Germans and Jews George L. Mosse, 2023-05-23 Originally published in 1970 *Germans and Jews* brings together George L Mosse's thoughts on a critical time in German history when thinkers on both the left and the right shared a common goal In the late nineteenth and early twentieth centuries intellectuals across the political spectrum aimed to solve the problems of contemporary society by creating a force that would eliminate both state Marxism and bourgeois society a third force beyond communism and capitalism This pervasive turn in ideology had profound effects on German history In Mosse's reading left wing political efforts became increasingly unrelated to reality while the right finally discovered in fascism the force it had been seeking This innovative perspective has implications for understanding not only the rise of fascism and Nazism in Germany but also the rise and fall of the New Left in the United States and Europe which was occurring at the time of Mosse's writing A new critical introduction by Sarah Wobick Segev research associate at the University of Hamburg places Mosse's work in its historical and intellectual contexts and draws lessons for students and scholars today

The Rise of Hindu Authoritarianism Achin Vanaik, 2017-03-21 With the Hindu nationalist BJP now replacing the Congress as the only national political force the communalization of the Indian polity has qualitatively advanced since the earlier edition of this book in 1997 This edition has been substantially reworked and updated with several new chapters added Hindutva's rise necessitates a more critical take on mainstream secular claims ironically reinforced by liberal left sections discovering special virtues in India's distinctive secularism The careful evaluation of the ongoing debate on Indian fascism has resonances for the broader debate about how best to assess the dangers of the far right's rise in other liberal democracies A study follows of how Hindutva forces are pursuing their project of establishing a Hindu Rashtra and how to thwart them through a wider transformative struggle targeting capitalism itself

Physical Culture, Power, and

the Body Patricia Vertinsky, Jennifer Hargreaves, 2006-11-28 During the past decade there has been an outpouring of books on the body in society but none has focused as specifically on physical culture that is cultural practices such as sport and dance within which the moving physical body is central Questions are raised about the character of the body specifically the relation between the natural body the constructed body and the alien or virtual body The themes of the book are wide in scope including physical culture and the fascist body sport and the racialised body sport medicine health and the culture of risk the female Muslim sporting body power and politics experiencing the disabled sporting body embodied exhibitions of striptease and sport the social logic of sparring sport girls and the neoliberal body Physical Culture Power and the Body aims to break down disciplinary boundaries in its theoretical approaches and its readership The author s multi disciplinary backgrounds demonstrate the widespread topicality of physical culture and the body

Affect and the Rise of Right-Wing Populism Michalinos Zembylas, 2021-05-06 This book uses affect theory to analyze the rise of right wing populism in recent years and discusses the pedagogical implications for democratic education It provides examples of how affect and emotion play a crucial role in the rise and reproduction of current right wing populism The author suggests ideas about affective pedagogies for educators to use along with recognizing the risks involved to renew democratic education The chapters lay out the importance of harnessing the power of affective experiences and adopting strategic pedagogical approaches to provide affirmative practices that move beyond simply criticizing right wing populism The book consequently undermines the power of fascist and right wing tendencies in public life and educational settings without stooping to methods of indoctrination This volume is a valuable resource for researchers and policy makers in education political science and other related fields who can utilize the affective complexities involved in combatting right wing populism to their advantage

Herbert Marcuse and the Crisis of Marxism Douglas Kellner, 1984-01-01 This book provides a critical overview of the entirety of Marcuse s work and discusses his enduring importance Kellner had extensive interviews with Marcuse and provides hitherto unknown information about his road to Marxism his relations with Heidegger and Existentialism his involvement with the Frankfurt School and his reasons for appropriating Freud in the 1950s In addition Kellner provides a novel interpretation of the genesis and structure of Marcuse s theory of one dimensional society of the development of his political theory and of the role of aesthetics in his critical theory

The Perils of Normalcy Karel Plessini, 2014-02-24 A taboo breaker and a great provocateur George L Mosse 1918-99 was one of the great historians of the twentieth century forging a new historiography of culture that included brilliant insights about the roles of nationalism fascism racism and sexuality Jewish gay and a member of a culturally elite family in Germany Mosse came of age as the Nazis came to power before escaping as a teenager to England and America Mosse was innovative and interdisciplinary as a scholar and he shattered in his groundbreaking books prevalent assumptions about the nature of National Socialism and the Holocaust He audaciously drew a link from bourgeois respectability and the ideology of the Enlightenment the very core of modern

Western civilization to the extermination of the European Jews In this intellectual biography of George Mosse Karel Plessini draws on all of Mosse's published and unpublished work to illuminate the origins and development of his groundbreaking methods of historical analysis and the close link between his life and work He redefined the understanding of modern mass society and politics masterfully revealing the powerful influence of conformity and political liturgies on twentieth century history Mosse warned against the dangers inherent in acquiescence showing how identity creation and ideological fervor can climax in intolerance and mass murder a message of continuing relevance *Fascism Today* Shane Burley, 2017-11-06 We can no longer ignore the fact that fascism is on the rise in the United States What was once a fringe movement has been gaining cultural acceptance and political power for years Rebranding itself as alt right and riding the waves of both Donald Trump's hate fueled populism and the anxiety of an abandoned working class they have created a social force that has the ability to win elections and inspire racist street violence in equal measure *Fascism Today* looks at the changing world of the far right in Donald Trump's America Examining the modern fascist movement's various strains Shane Burley has written an accessible primer about what its adherents believe how they organize and what future they have in the United States The ascension of Trump has introduced a whole new vocabulary into our political lexicon white nationalism race realism Identitarianism and a slew of others Burley breaks it all down From the tech savvy trolls of the alt right to esoteric Aryan mystics from full fledged Nazis to well groomed neofascists like Richard Spencer he shows how these racists and authoritarians have reinvented themselves in order to recruit new members and grow Just as importantly *Fascism Today* shows how they can be fought and beaten It highlights groups that have successfully opposed these twisted forces and outlines the elements needed to build powerful mass movements to confront the institutionalization of fascist ideas protect marginalized communities and ultimately stop the fascist threat Shane Burley is a writer filmmaker and antifascist based in Portland Oregon *Right Wing Social Revolution and Its Discontent: the Dynamics of Genocide* Leslie Herzberger, 2006-12-21 The history of the United States in the last thirty years its preoccupation with the Vietnam War and the devastating affects of that war on the psyche of this nation is evidence of a foreign policy tragedy Foreign policy tragedy brings domestic tragedy in its wake The purpose of this study is to work out why the approaches to social revolution and that is what the Vietnam War was about have been wrong on both sides of the ideological spectrum the last thirty years in the U S point out why they were wrong point to where they were wrong and point to the consequences of acting in a society when the perceptions are in certain respects wrong Let me sum up my perception on what went wrong in Vietnam It was a Right wing war fought on Left wing premises It was a war that could not have been won because those who designed it would not or could not win it but were also afraid of losing it It was a war that was wrongly perceived by both sides of the ideological spectrum The Liberal argument was that America tried everything and still lost it The Conservative argument was that it could have been won if the opposition had not tied their hands keeping them from an all out effort that would have been

required to win it The war was started in earnest by the Liberals under Kennedy The strategy was to roll up the enemy by hitting on the peasant and through it cut off the leaders Pacification education re education indoctrination and the introduction of self defense techniques to the South Vietnamese peasants was meant to stop the revolution exported from the North in its tracks The U S policy was predicated on the assumption that the peasants really had something to do with the ruling functions of the North Vietnamese revolution after Thermidor that after the onset of Thermidor after the institutionalization of the revolution in Hanoi the revolution was still revolution The Liberal approach has believed that revolution is tantamount to Maos view of it in China peasants all immersed in the revolutionary process as fish in the sea And so you would have to drain the very ocean itself to stop it Our approach to the post revolutionary process is that after the onset of Thermidor in a society revolution is a bunch of terror informed super bureaucrats at the center of a society increasingly cut off from the periphery In a post revolutionary society it is the leaders that matter not the fish in the sea So bombing the small fish into fish soup hell in response as did the West in Vietnam in that war every tree every outhouse every shack and every village until they drop so much ordinance that the entire region is brain dead from defoliants and pockmarks and natural calamities while leaving the center untouched would seem insane Yet that was the policy in Vietnam of America And then nothing happened Nothing happened week after week year after year except that America itself was being driven mad doing the same thing and expecting it to come out different That as the President elect said in 1993 was and is insanity But what choice did they all have The pro war liberal American leadership that designed the war in Vietnam did not dare bomb Hanoi the capitol of North Vietnam for fear of triggering World War III with Red China and with Soviet Russia both of whose client North Vietnam was So they tied their own hands figuring that by coming through the back door fish in the sea style piece by piece nobody will notice in China and Russia ergo no World War III So they took a strategy that was insane and made a virtue out of its necessity They tied their own hand And then they blamed the opposition for forcing them to fight with their hands tied behind their backs On the other h

Fascism Roger Griffin, 2018-06-11 The word fascism sometimes appears to have become a catch all term of abuse applicable to anyone on the political right from Hitler to Donald Trump and from Putin to Thatcher While some argue that it lacks any distinctive conceptual meaning at all others have supplied highly elaborate definitions of its essential features It is therefore a concept that presents unique challenges for any student of political theory or history In this accessible book Roger Griffin one of the world s leading authorities on fascism brings welcome clarity to this controversial ideology He examines its origins and development as a political concept from its historical beginnings in 1920s Italy up to the present day and guides students through the confusing maze of debates surrounding the nature definition and meaning of fascism Elucidating with skill and precision its dynamic as a utopian ideology of national racial rebirth Griffin goes on to examine its post Second World War mutations and its relevance to understanding contemporary right wing political phenomena ranging from Marine Le Pen to Golden Dawn This concise and

engaging volume will be of great interest to all students of political theory the history of political thought and modern history

The Fascist Persuasion in Radical Politics A. James Gregor, 2015-03-08 How valid are the assertions of contemporary radicals who insist that they are Marxists A James Gregor measures the distance that separates today's radicals from the belief system of Marx and Engels He finds that the characteristic qualities of modern mass mobilizing movements bear more impressive similarities to the paradigmatic Fascism of Benito Mussolini than to classical Marxism Thus he offers a new conceptual framework for the analysis of contemporary totalitarian movements and established regimes Originally published in 1974 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Three Way Fight Xtn Alexander, Matthew N. Lyons, 2024-05-28 What's the relationship between combating the far right and working for systemic change What does it mean when fascists intensify racial oppression and patriarchy but also call for the downfall of economic elites or even take up arms against the state Three way fight politics confront these urgent questions squarely arguing that the far right grows out of an oppressive capitalist order but is also in conflict with it in real ways and that radicals need to combat both The three way fight approach says we need sharper analysis of far right movements so we can fight them more effectively and we also need to track ongoing developments within the ruling class including liberal or centrist efforts to co-opt antifascism as a tool of state repression and system legitimation This book offers an introduction to three way fight politics with more than thirty essays position statements and interviews from the Three Way Fight website and elsewhere spanning from the antifascist struggles of the 1980s and 1990s to the political upheavals of the twenty first century Over fifteen authors explore a range of topics such as fascist politics relationship with patriarchy and settler colonialism Tom Metzger's Third Position anticapitalist fascism conflict within the business community over the 2016 presidential election and the Trump administration's shifting relationship with the organized far right Many of the writings address issues of political strategy such as tensions between radicals and liberals within the reproductive rights movement and the George Floyd rebellion video gaming as an arena of political struggle and the importance and challenges of approaching antifascist organizing in ways that are militant community based and nonsectarian

The Evolution of Alienation Lauren Langman, Devorah Kalekin-Fishman, 2006 Building on the Marxian view of alienation as the inevitable consequence of wage labor that divests human beings of control over their life forces The Evolution of Alienation provides new insights into contemporary conditions Contributors explore how alienation is fostered in

The Cultural Front Michael Denning, 1998 As garment workers longshoremen autoworkers sharecroppers and clerks took to the streets striking and organizing unions in the midst of the Depression artists writers and

filmmakers joined the insurgent social movement by creating a cultural front Disney cartoonists walked picket lines and Billie Holiday sang Strange Fruit at the left wing cabaret Caf Society Duke Ellington produced a radical musical Jump for Joy New York garment workers staged the legendary Broadway revue Pins and Needles and Orson Welles and his Mercury players took their labor operas and anti fascist Shakespeare to Hollywood and made Citizen Kane A major reassessment of US cultural history The Cultural Front is a vivid mural of this extraordinary upheaval which reshaped American culture in the twentieth century

The Social Basis of European Fascist Movements Detlef Mühlberger, 2015-10-16 Between 1919 and 1945 most countries in Europe spawned some form of fascism Some have become considerably more notorious than others this book first published in 1987 sets out to analyse the social forces that went into the making of the fascist parties of the major European countries and to show the similarities and differences in their constitution as well as to suggest reasons for their different degrees of penetration and success Few books have surveyed the whole field the team of contributors engaged in the present enterprise offer a systematic and thorough survey of the social characteristics of European fascist movements a subject of central importance to social and political history

Fascism As A Mass Movement Introduction

In the digital age, access to information has become easier than ever before. The ability to download Fascism As A Mass Movement has revolutionized the way we consume written content. Whether you are a student looking for course material, an avid reader searching for your next favorite book, or a professional seeking research papers, the option to download Fascism As A Mass Movement has opened up a world of possibilities. Downloading Fascism As A Mass Movement provides numerous advantages over physical copies of books and documents. Firstly, it is incredibly convenient. Gone are the days of carrying around heavy textbooks or bulky folders filled with papers. With the click of a button, you can gain immediate access to valuable resources on any device. This convenience allows for efficient studying, researching, and reading on the go. Moreover, the cost-effective nature of downloading Fascism As A Mass Movement has democratized knowledge. Traditional books and academic journals can be expensive, making it difficult for individuals with limited financial resources to access information. By offering free PDF downloads, publishers and authors are enabling a wider audience to benefit from their work. This inclusivity promotes equal opportunities for learning and personal growth. There are numerous websites and platforms where individuals can download Fascism As A Mass Movement. These websites range from academic databases offering research papers and journals to online libraries with an expansive collection of books from various genres. Many authors and publishers also upload their work to specific websites, granting readers access to their content without any charge. These platforms not only provide access to existing literature but also serve as an excellent platform for undiscovered authors to share their work with the world. However, it is essential to be cautious while downloading Fascism As A Mass Movement. Some websites may offer pirated or illegally obtained copies of copyrighted material. Engaging in such activities not only violates copyright laws but also undermines the efforts of authors, publishers, and researchers. To ensure ethical downloading, it is advisable to utilize reputable websites that prioritize the legal distribution of content. When downloading Fascism As A Mass Movement, users should also consider the potential security risks associated with online platforms. Malicious actors may exploit vulnerabilities in unprotected websites to distribute malware or steal personal information. To protect themselves, individuals should ensure their devices have reliable antivirus software installed and validate the legitimacy of the websites they are downloading from. In conclusion, the ability to download Fascism As A Mass

Movement has transformed the way we access information. With the convenience, cost-effectiveness, and accessibility it offers, free PDF downloads have become a popular choice for students, researchers, and book lovers worldwide. However, it is crucial to engage in ethical downloading practices and prioritize personal security when utilizing online platforms. By doing so, individuals can make the most of the vast array of free PDF resources available and embark on a journey of continuous learning and intellectual growth.

FAQs About Fascism As A Mass Movement Books

1. Where can I buy Fascism As A Mass Movement books? Bookstores: Physical bookstores like Barnes & Noble, Waterstones, and independent local stores. Online Retailers: Amazon, Book Depository, and various online bookstores offer a wide range of books in physical and digital formats.
