Fashioning Furniture:

Fashioning Memory Heike Jenss, 2015-10-22 The valuing of old clothes as vintage and the recollection of the sartorial past whether through second hand consumption or the wearing of new old fashioned clothes has become a widespread phenomenon This book illuminates sartorial and bodily engagements with memory and time through the temporal and nostalgic potency of fashion and what this means for contemporary wearers Based on in depth ethnographic research including participant observation and interviews with sixties enthusiasts in Germany who relocate British mod style into the twenty first century Jenss examines the practices and experiences that are part of the sartorial remembering of the sixties from hunting flea markets and eBay to the affect of material and mediated memories on vintage wearers Jenss offers unique insights into the fashioning of time cultural memory and modernity tracing the history and current appeal of vintage in fashion and youth culture and asking what kind of experiences of temporality and memory are enacted through fashion How have evaluations of second hand clothes shifted in the twentieth century Fashioning Memory provides a unique insight into the diverse use of fashion as a memory mode and asks how style is remembered performed transformed and reinvested across time place and generation Studio Furniture of the Renwick Gallery Oscar P. Fitzgerald, 2019-01-01 Take a tour of the Renwick Gallery the craft division of the Smithsonian and enjoy an in depth look at the artists and the work of this unparalleled collection of handmade contemporary furniture This absorbing volume features profiles and interviews of 64 artists and reveals their artistic influences and interpretations along with 112 stunning photos of iconic work *Fashioning Submission* Silvia Vacirca, 2023-05-30 The behind the scene history of the fashion magazine Bellezza the Italian Vogue founded in 1941 has never been submitted to scholarly attention Its utopian function in defining a new culture of fashion and code of glamour contributed to the totalitarian project of building a new Italian woman The current volume fills this gap using the case *Fashioning Furniture* John Trigg, David Field, 1974 Brands and Branding Geographies Andy Pike, 2011-01-01 The volume edited by Andy Pike includes contributions by several leading figures in the study of brands places and place branding However this is not what makes the book a welcome addition to the literature What really makes the book interesting is actually the brave attempt to deal with an intrinsically difficult topic one that is rarely if ever explored the relationship between brands and branding with the places in and around which these operate Several facets of this relationship are explored in the book The book is introduced nicely by Andy Pike in a chapter that sets the scene and clarifies the intentions of the book I am glad the first book to handle these issues is on my shelves Mihalis Kavaratzis Regional Studies An incomparably rich trove of work on the multifarious and contradictory entanglements between space place and brand The volume helps us understand how and why places of origin play an ever greater role in the marketing of commodities even while corporations continue to seek placelessness in pursuit of the bottom line And it illuminates how and why entrepreneurial governments seeking to enhance global competitiveness increasingly turn to place branding at the

neighborhood urban and national scale even while launching rounds of restructuring that undercut the authenticity and viability of local identities A valuable and accessible contribution to the urban studies and cultural studies literature Miriam Greenberg University of California Santa Cruz US An important effort to pull together multidisciplinary research on the spatial dimensions of brands and branding in an international context John A Quelch Harvard Business School US Despite overstated claims of their global homogeneity ubiquity and contribution to flattening spatial differences the geographies of brands and branding actually do matter This vibrant collection provides a comprehensive reference point for the emergent area of brand and branding geographies in a multi disciplinary and international context The eminent contributors leaders in their respective fields present critical reflections and synthesis of a range of conceptual and theoretical frameworks and methodological approaches incorporating market research oral history discourse and visual analyses They reflect upon the politics and limits of brand and branding geographies and map out future research directions The book will prove a fascinating and illuminating read for academics researchers students practitioners and policy makers focusing on the spatial dimensions of brands and branding

Design Management Robert Jerrard,David Hands,2013-08-06 Quantifying and assessing the value of an organization s design department can be problematic The tools traditionally used by auditors are usually insufficient to measure either the value of design projects or their influence within an organization This book demystifies the design development and design management process scrutinising it against a new set of auditing principles which illuminates its true value in a contemporary context Featuring a series of international case studies Design Management Exploring Fieldwork and Applications argues that assessment of the design function within any organization must incorporate both qualitative and quantitative research methods The book explores a number of key themes such as new product development risk in design and corporate identity Moreover by drawing on a range of techniques from the social sciences the authors rigorously develop means by which design may be understood accurately This book represents an important and timely contribution to our knowledge of the management of product and service innovation It will be an
