Fast Cars Clean Bodies Decolonization And The Reordering Of French Culture:

Fast Cars, Clean Bodies Kristin Ross, 1995 *Fast Cars Clean Bodies* examines the crucial decade from Dien Bien Phu to the mid 1960s when France shifted rapidly from an agrarian insular and empire oriented society to a decolonized Americanized and fully industrial one In this analysis of a startling cultural transformation Kristin Ross finds the contradictions of the period embedded in its various commodities and cultural artifacts automobiles washing machines women s magazines film popular fiction even structuralism as well as in the practices that shape determine and delimit their uses *The Roman Noir in Post-war French Culture* Claire Gorrara, 2003 *The Roman Noir in Post War French Culture* offers a lively introduction to the post war French roman noir from a cultural studies perspective A populist and widely disseminated genre the French roman noir has suffered from a reputation as a minor genre with its roots in American popular culture In this study Claire Gorrara challenges such preconceptions and examines how selected writers have appropriated the roman noir as a critical response to formative concerns and debates in post war French society Starting with the first truly French roman noir L o Malet s *120 rue de la gare* 1943 and concluding with Maud Tabachnik s feminist thriller *Un t pourri* 1994 Gorrara analyses both texts and film in relation to their specific historical and cultural context From the heritage of the Second World War and France s wars of decolonisation to the rise of consumer culture and questions of gender and sexual equality the roman noir operates in dialogue with its times mediating social change and transformation with stories of crime transgression and marginality All the novelists studied were published initially in popular collections such as the *S rie noire* but they have been chosen for the innovation of their work and the exciting ways in which they resist tired conventions and offer new ways of representing social reality One of the first English language studies of this popular genre *The Roman Noir in Post War French Culture* offers much more than close readings of these fascinating texts it demonstrates the important contribution of the roman noir to the cultural histories of post war France *The Cambridge Companion to Modern French Culture* Nicholas Hewitt, 2003-09-11 France entered the twentieth century as a powerful European and colonial nation In the course of the century her role changed dramatically in the first fifty years two World Wars and economic decline removed its status as a world power whilst the immediate post war era was marked by wars of independence in its colonies Yet at the same time in the second half of the century France entered a period of unprecedented growth and social transformation Throughout the century and into the new millennium France retained its former international reputation as a centre for cultural excellence and innovation and its culture together with that of the Francophone world reflected the increased richness and diversity of the period This Companion explores this vibrant culture and includes chapters on history language literature thought theatre architecture visual culture film and music and discuss the contributions of popular culture Francophone culture minorities and women [After Django](#) Tom Perchard, 2015-01-12 How did French musicians and critics interpret jazz that quintessentially American music in the mid twentieth century How far did players reshape what they learned from records

and visitors into more local jazz forms and how did the music figure in those angry debates that so often suffused French cultural and political life After Django begins with the famous interwar triumphs of Josephine Baker and Django Reinhardt but for the first time the focus here falls on the French jazz practices of the postwar era The work of important but neglected French musicians such as Andr Hodeir and Barney Wilen is examined in depth as are native responses to Americans such as Miles Davis and Thelonious Monk The book provides an original intertwining of musical and historical narrative supported by extensive archival work in clear and compelling prose Perchard describes the problematic efforts towards aesthetic assimilation and transformation made by those concerned with jazz in fact and in idea listening to the music as it sounded in discourses around local identity art 1968 radicalism social democracy and post colonial politics **Sounds French**

Jonathyne Briggs,2015-03-02 Sounds French examines the history of popular music in France between the arrival of rock and roll in 1958 and the collapse of the first wave of punk in 1980 and the connections between musical genres and concepts of community in French society Decolonising Europe? Berny Sèbe,Matthew G. Stanard,2020-04-01 Decolonising Europe

Popular Responses to the End of Empire offers a new paradigm to understand decolonisation in Europe by showing how it was fundamentally a fluid process of fluxes and refluxes involving not only transfers of populations ideas and sociocultural practices across continents but also complex intra European dynamics at a time of political convergence following the Treaty of Rome Decolonisation was neither a process of sudden rapid changes to European cultures nor one of cultural inertia but a development marked by fluidity movement and dynamism Rather than being a static process where Europe s former metropolises and their peoples at home reacted to the end of empire out there decolonisation translated into new realities for Europe s cultures societies and politics as flows ebbs fluxes and cultural refluxes reshaped both former colonies and former metropolises The volume s contributors set out a carefully crafted panorama of decolonisation s sequels in European popular culture by means of in depth studies of specific cases and media analysing the interwoven meaning momentum memory material culture and migration patterns of the end of empire across eight major European countries The revised meaning of decolonisation that emerges will challenge scholars in several fields and the panorama of new research in the book charts paths for new investigations The question mark in the title asks not only how European cultures experienced the end of empire but also the extent to which this is still a work in progress Decolonizing the Republic Félix F. Germain,2016-07-01

Decolonizing the Republic is a conscientious discussion of the African diaspora in Paris in the post World War II period This book is the first to examine the intersection of black activism and the migration of Caribbeans and Africans to Paris during this era and as Patrick Manning notes in the foreword successfully shows how black Parisians in their daily labors weekend celebrations and periodic protests opened the way to decolonizing the Republic advancing the respect for their rights as citizens Contrasted to earlier works focusing on the black intellectual elite Decolonizing the Republic maps the formation of a working class black France Readers will better comprehend how those peoples of African descent who settled in France and

fought to improve their socioeconomic conditions changed the French perception of Caribbean and African identity laying the foundation for contemporary black activists to deploy a new politics of social inclusion across the demographics of race class gender and nationality This book complicates conventional understandings of decolonization and in doing so opens a new and much needed chapter in the history of the black Atlantic

host the Academy Awards ceremony Kyle Kooper who created title sequences for Seven and Mission Impossible and motion picture art director Jan Roelfs whose credits include Gattaca Orlando and Little Women **It's So French!** Vanessa R. Schwartz, 2007-12-15 The recent history of cultural exchange between France and the United States would appear to be defined by freedom fries and boycotts against Beaujolais or on the other side of the Atlantic by enraged farmers toppling statues of Ronald McDonald But this dismal state of affairs is a long way from the mutual admiration that followed World War II epitomized in a 1958 cover of Look magazine that declared Brigitte Bardot conquers America It's So French explores the close affinity between the French and American film industries that flourished in the postwar years breaking down myths of American imperialism and French cultural protectionism while illuminating the vital role that cinema has played in the globalization of culture Hollywood was once enamored with everything French and this infatuation blossomed in a wildly popular series of films including An American in Paris Gigi and Funny Face Schwartz here examines the visual appeal of such films and then broadens her analysis to explore their production and distribution probing the profitable influences that Hollywood and Paris exerted on each other This exchange moved beyond individual films with the sensational spectacle of the Cannes Film Festival and the meteoric career of Brigitte Bardot And in turn their success led to a new kind of film that celebrated internationalism and cultural hybridity Ultimately Schwartz uncovers an intriguing paradox that the road to globalization was paved with nationalist clichés and thus films beloved for being so French were in fact the first signs of a nascent cosmopolitan culture Packed with an array of colorful film stills publicity photographs paparazzi shots ads and never before seen archival images It's So French is an incisive account of the fertile collaboration between France and the United States that expanded the geographic horizons of both filmmaking and filmgoing forever changing what the world saw and dreamed of when they went to the movies *Explaining the History of American Foreign Relations* Michael J. Hogan, Thomas G. scholar whose research covered an extraordinarily wide range of interests and approaches encompassing the history of empire literature politics and cultural production across the Francophone world from the eighteenth to the twenty first century Each of the chapters within engages with a different aspect of Marsh s interest in French colonialism and the entanglements of its complex afterlives whether it be her interest in the longevity of imperial rivalries loss and colonial nostalgia exoticism and the female body decolonization and the ends of empire the French colonial imagination the policing of racialized bodies or anti colonial activism and resistance As well as reflecting the geographical and intellectual breadth of Marsh s research the volume demonstrates how her work continues to resonate with emerging scholarship around decoloniality transcolonial mobilities and anti colonial resistance in the Francophone world From French India to Algeria and from the Caribbean to contemporary France this collection demonstrates the persistent relevance of Marsh s scholarship to the histories and legacies of empire while opening up conversations about its implications for decolonial approaches to imperial histories and the future of Francophone Postcolonial Studies
