Too Much Anne Cassidy, 2010-10-06 With the baby boom generation came the genre of parenting books that told parents how to teach their kids everything from toilet training to developing self esteem Generally the message has been go easy on your child but hard on yourself It is starting to become apparent especially in the best of families that giving your kids lots of choices validating their feelings at great peril to your own and providing enough individual attention for each child is creating a generation of kids over whom we have no control Cassidy argues that this comes from over thinking our role as parents We ve pondered every step so much that the juice the joy and worst of all our confidence is gone The reasons are clear We have fewer children later in life so we ve had more time to ponder We ve grown up just as research on infant and child development has come of age so there s no shortage of material to think about As a generation we ve prided ourselves on self improvement and we bring the same zeal to child improvement We re less likely to live close to our families and so are more likely to seek out expert solutions To counter this thinking Cassidy will suggest keeping the big picture in mind what kind of people do you really want your kids to be Honest kind cooperative empathetic It may mean losing sight of whether enough play dates are scheduled for the week and if you ve positively reinforced the latest creative endeavor but it will bring back your instincts about what is important to your family as a whole and to your kids to become decent people Los Angeles Magazine ,1997-05
