starting within their own Latina African American Native American and Asian American communities have resisted coercion of their reproductive abilities Projected against the backdrop of the mainstream pro choice movement and radical right agendas these dynamic case studies feature the groundbreaking work being done by health and reproductive rights organizations led by women of color The book details how and why these women have defined and implemented expansive reproductive health agendas that reject legalistic remedies and seek instead to address the wider needs of their communities It stresses the urgency for innovative strategies that push beyond the traditional base and goals of the mainstream pro choice movement strategies that are broadly inclusive while being specific strategies that speak to all women by speaking to each woman While the authors raise tough questions about inclusion identity politics and the future of women s organizing they also offer a way out of the limiting focus on choice Undivided Rights articulates a holistic vision for reproductive freedom It refuses to allow our human rights to be divvied up and parceled out into isolated boxes that people are then forced to pick and choose among
