Far from Paradise James Ferguson, 1990 *Resource Sustainability and Caribbean Development* Duncan F. M. McGregor, David Barker, Sally Lloyd-Evans, 1998 *Resource Sustainability and Caribbean Development* follows on from Barker and McGregor's earlier edited volume *Environment and Development in the Caribbean Geographical Perspectives* 1995 and aims to focus more specifically on the theme of sustainability and to examine research contributions of geographers to problems of sustainability in the Caribbean region While the problems of environmental degradation have increased in recent decades the ability of Caribbean governments to cope with the consequences appears to have been eroded There is however a growing recognition within the region of the need for development strategies that focus on the social needs of the people yet simultaneously protect the fragile natural environment It is hoped that the research presented here will serve to inform the wider research and decision making community of the main problems associated with resource sustainability in the region and of some of the major research directions crucial to the alleviation of these problems Preface *Women, Feminism and Development* Huguette Dagenais, Denise Piché, 1994-06-24 *Women Feminism and Development* illustrates the significance and relevance of work on development carried out from a feminist perspective with a particular focus on the contribution of Canadian researchers and activists Covering a wide range of themes and concerns the volume gathers authors from different organizational backgrounds and academic disciplines and includes chapters on such different cultural and geographical areas as China Malaysia and Thailand Mexico and the West Indies Uganda Malawi and Ghana and Canadian Inuit and Indian communities A unity of purpose as well as a call for a fundamental reconceptualization of society emerge from these varied voices *Women Feminism and Development* is structured to convey a feminist perspective for the construction of theoretical methodological and political approaches to development a critical evaluation of the effect of development policies on women's lives and gender relations and an understanding of the multiple strategies that can lead to the empowerment of women and real development **Encyclopedia of the Developing World** Thomas M. McLean-Farrell, 2016-02-11 This is a significant in depth study that explores the cultural context of the religious experience of West Indian immigrant communities Whereas most studies to date have focussed on how immigrants settle in their new home contexts Janice A McLean Farrell argues for a

more comprehensive perspective that takes into account the importance of religion and the role of both home and the host contexts in shaping immigrant lives in the Diaspora West Indian Pentecostals Living Their Faith in New York and London explores how these three elements religion the home and host contexts influence the ethnic religious identification processes of generations of West Indian immigrants Using case studies from the cities of New York and London the book offers a critical cross national comparison into the complex and indirect ways the historical socio economic and political realities in diaspora contribute to both the identification processes and the missional practices of immigrants Its focus on Pentecostalism also provides a unique opportunity to test existing theories and concepts on the interface of religion and immigration and makes important contributions to the study of Pentecostalism

Virgin Capital Tami Navarro, 2021-11-01 Virgin Capital examines the cultural impact and historical significance of the Economic Development Commission EDC in the United States Virgin Islands A tax holiday program the EDC encourages financial services companies to relocate to these American owned islands in exchange for an exemption from 90% of income taxes and to stimulate the economy by hiring local workers and donating to local charitable causes As a result of this program the largest and poorest of these islands St Croix has played host to primarily US financial firms and their white managers leading to reinvigorated anxieties around the costs of racial capitalism and a feared return to the racial and gender order that ruled the islands during slavery Drawing on fieldwork conducted during the boom years leading up to the 2008 2009 financial crisis Virgin Capital provides ethnographic insight into the continuing relations of coloniality at work in the quintessentially modern industry of financial services and neoliberal development regimes with their grounding in hierarchies of race gender class and geopolitical positioning
