**Farewell to Model T** E. B. White, 2003-05-31 In 1922 just out of college and at loose ends E B White set off across America in a Model T He left his map at home but packed his typewriter his true destination he tells us was the world of letters White wrote the richly humorous Farewell to Model T for The New Yorker in 1936 it was the first of his essays to bring him fame In From Sea to Shining Sea White conjures the unspoiled America that remained his most enduring subject The first essay of E B White s to become famous Farewell to Model T originally appeared in 1936 in The New Yorker as Farewell My Lovely It is rich in comic descriptions of the eccentricities of the car the demands it put on its devoted owners and the hardware and decorative accessories from 98 cent anti rattlers to the de luxe flower vase of the cut glass anti splash type that kept them pouring over the Sears Roebuck catalog If there was an owner s manual for the flivver it didn t begin to divulge what the owner needed to know That s where theory speculation superstition and metaphysics came in I remember once spitting into a timer White recalls not in anger but in a spirit of research It is published for the first time with Sea to Shining Sea in which White conjures the America that he had discovered as a 22 year old during a cross country trip in his Model T The year was 1922 the same the year that Fitzgerald and Hemingway went to Paris to find themselves In it he would write My own vision of the land my own discovery of it was shaped more than by any other instrument by a Model T Ford a slow motion roadster of miraculous design strong tremulous and tireless from sea to shining sea *In the Words of E. B. White* E. B. White, 2011-11-15 The time not to become a father is eighteen years before a world war E B White on fatherhood I was lucky to be born abnormal It ran in the family on luck I would really rather feel bad in Maine than feel good anywhere else on Maine The English language is always sticking a foot out to trip a man on language The author of Charlotte s Web and One Man s Meat coauthor of The Elements of Style and columnist for The New Yorker for almost half a century E B White 1899 1985 is an American literary icon Over the course of his career White inspired generations of writers and readers with his essays both serious and humorous children s literature and stylistic guidance In the Words of E B White offers readers a delightful selection of quotations selected and annotated by his granddaughter and literary executor Martha White The quotations cover a wide range of subjects and situations from Automobiles Babies Bees City Life and College to Spiders Taxes Weather Work and Worry E B White comments on writing for children how to tell a major poet from a minor one and what to do when one becomes hopelessly mired in a sentence White was apt to address the subject of security by speaking first about a Ferris wheel at the local county fair or the subject of democracy from the perspective of roofing his barn and looking out across the bay he had a gift for bringing the abstract firmly into the realm of the everyday Included here are gems from White s books and essay collections as well as bits from both published and unpublished letters and journals This is a book for readers and writers for those who know E B White from his Notes and Comment column in The New Yorker have turned to The Elements of Style for help in crafting a polished sentence or have loved a spider s assessment of Wilbur as

that shows how consumer desire and manufacturer decisions created impacts across the product lifecycle from raw material extraction to manufacturing to consumer use to disposal From the provocative public antics of young millionaires who owned the first cars early in the twentieth century to the SUV craze of the 1990s Auto Mania explores developments that touched the environment Along the way McCarthy examines how Henry Ford s fetish for waste reduction tempered the environmental impacts of Model T mass production how Elvis Presley s widely shared postwar desire for Cadillacs made matters worse how the 1970s energy crisis hurt small cars and why baby boomers ignored worries about global warming McCarthy shows that problems were recognized early The difficulty was addressing them a matter less of doing scientific research and educating the public than implementing solutions through America s market economy and democratic government Consumer and producer interests have rarely aligned in helpful ways and automakers and consumers have made powerful opponents of regulation The result has been a mixed record of environmental reform with troubling prospects for the future E.B. White Robert L. Root,1999 Robert Root explores the milieu in which White began writing the Notes and Comments section of the New Yorker and puts in perspective the influence of popular colyumists like Don Marquis and Christopher Morley on the tone and form of White s work as a paragrapher He examines White s persistent disaffection with the demands and limitations inherent in his Comment pieces for the New Yorker and his experiences as a columnist for Harper s Magazine where his One Man s Meat feature produced his most enduring essay Once More to the Lake and took the segmented column form to new levels of accomplishment Drawing on White s manuscripts Root s literary analysis of early drafts demonstrates how unique White s essays were *The Vintage Ford* ,2003 **The British National Bibliography** Arthur James Wells,2004
