Fashion Meets Socialism Jukka Gronow, Sergey Zhuravlev, 2015-08-19 This book presents above all a study of the establishment and development of the Soviet organization and system of fashion industry and design as it gradually evolved in the years after the Second World War in the Soviet Union which was in the understanding of its leaders reaching the mature or last stage of socialism when the country was firmly set on the straight trajectory to its final goal Communism What was typical of this complex and extensive system of fashion was that it was always loyally subservient to the principles of the planned socialist economy This did not by any means indicate that everything the designers and other fashion professionals did was dictated entirely from above by the central planning agencies Neither did it mean that their

professional judgment would have been only secondary to ideological and political standards set by the Communist Party and the government of the Soviet Union On the contrary as our study shows the Soviet fashion professionals had a lot of autonomy They were eager and willing to exercise their own judgment in matters of taste and to set the agenda of beauty and style for Soviet citizens The present book is the first comprehensive and systematic history of the development of fashion and fashion institutions in the Soviet Union after the Second World War Our study makes use of rich empirical and historical material that has been made available for the first time for scientific analysis and discussion The main sources for our study came from the state party and departmental archives of the former Soviet Union We also make extensive use of oral history and the writings published in Soviet popular and professional press

Fashion and Authorship Gerald Egan, 2020-02-13

Studies of fashion and literature in recent decades have focused primarily on representations of clothing and dress within literary texts But what about the author How did he dress What were her shopping practices and predilections What were his alliances with modishness stylishness fashion The essays in this book explore these and other questions as they look at authors from the eighteenth century through the postmodern and digital eras cultural producers who were also men and women of fashion Alexander Pope Hester Thrale Mary Robinson Lord Byron William Thackeray Charlotte Bronte Wilkie Collins Margaret Oliphant Virginia Woolf Rebecca West Trudi Kanter Angela Carter and Martin Margiela The essays collected here ultimately converge upon a fundamental question what happens to our notions of timeless literature when authorship itself is implicated in the transient and the temporary the cycles and materials of fashion Gerald Egan's provocative introduction to this exciting new book poses a bold question How are authorship and literature so often linked to ideas of transcendence implicated in the transient trends and stuff of fashion The thirteen chapters that follow track authorship's complex implication in the discourses and materiality of fashion and fashionable goods from the eighteenth to the twentieth centuries Wide ranging in discipline and chronology yet forensically focused and carefully argued this book makes a striking and wonderfully original contribution to studies of authorship celebrity and material culture Dr Jennie Batchelor Professor of Eighteenth Century Studies University of Kent UK

Costuming Cosplay Therèse M. Winge, 2018-11-01 Cosplay, short for costume play, has grown from its origins at fan conventions into a billion-dollar global dress phenomenon. Costuming Cosplay takes us from elaborately crafted DIY costumes to online fandoms, examining how the practice of portraying fictional characters from popular culture through dress and performance has become a creative means of expressing and playing with different identities. With an approach that ranges from admiration and role play to gender performance, this is the first book to fully examine the subculture and costume of the Cosplay phenomenon. Drawing on extensive first-hand research at conventions across North America and Asia, Theresa M. Winge invites us to explore how Cosplay functions as a meritocracy of creativity, escapism, and disguise, and offers a creative realm in which fantasy and new forms of socializing carry as much importance as costume. Illustrated with color photographs of both celebrity and amateur Cosplayers, Costuming Cosplay is essential reading for students and scholars of fashion and costume, popular culture, anthropology, gender, and media studies, as well as global players and fans of Cosplay. *Fashion under Fascism* Eugenia Paulicelli, 2004-02-01 When we think of Italian fashion, Gucci, Max Mara, and the meteoric rise of Prada immediately spring to mind. But Italian fashion has a dark history that has not previously been explored. The Fascism of 1930s Italy dominated more than just politics; it spilled over into modes of dress. *Fashion under Fascism* is the first book to consider this link in detail. Fashion often functions as a tacit means of making a social statement, but under Mussolini it vividly reflected political tyranny. One's allegiance to the regime was choreographed by the dictatorship with the intent of creating a new national consciousness. Women, in particular, were manipulated through fashion ideals to create an authentic Italian femininity. Paulicelli explores the subtle yet sinister changes to the seemingly innocuous practices of everyday dress and shows why they were such a concern for the state. Importantly, she also demonstrates how these developments impacted on the global dominance of Italian fashion today. This fascinating book includes interviews with major designers such as Fernanda Gattinoni and Micol Fontana and sheds new light on the complicated relationship between style and politics.

Patriots Against Fashion A. Maxwell, 2014-08-05 During the era of the French Revolution, patriots across Europe tried to introduce a national uniform. A Cultural History of Dress and Fashion in the Modern Age Alexandra Palmer, 2018-11-01 Over the last century, there has

been a complete transformation of the fashion system. The unitary top down fashion cycle has been replaced by the pulsations of multiple and simultaneous styles while the speed of global production and circulation has become ever faster and more complex. Running in tandem the development of artificial fibres has revolutionized the composition of clothing and the increased focus on youth sexuality and the body has radically changed its design. From the 1920s flapper dress to debates over the burkini fashion has continued to be deeply involved in society's larger issues. Drawing on a wealth of visual, textual and object sources and illustrated with 100 images, *A Cultural History of Dress and Fashion in the Modern Age* presents essays on textiles, production and distribution, the body, belief, gender and sexuality, status, ethnicity and visual and literary representations to illustrate the diversity and cultural significance of dress and fashion in the period.
