Stream of Consciousness: Poetics of the Universal Vakunta, Peter Wuteh, 2015-04-26 On perusing Stream of Consciousness Poetics of the Universal by Peter Wuteh Vakunta one is struck by the eclectic and englobing nature of themes broached Vakunta's poetry is both a transversal and longitudinal dissection of our world The poet assumes the posture of a divinity casting interrogative glances at the deeds of humans Not a single terrestrial creature evades his prying eyes Even the most subtle creatures on Planet Earth are scathed by the poet's effusion of vitriolic emotions The poet pursues evil doers right into their graves Even in their death throes he continues to deal them fatal blows Armed with a caustic pen this chronicler does not sit on the fence and watch events transpire Instead he speaks for the downtrodden of all races and social strata black white yellow Papuan Andalusian wretched opulent This adds grist to the title of the book The poet distances himself from the rigor of Kant and the moralism of La Rochefoucauld Weary of hearing the voices of humans in distress he paints the portrait of another kind of Humanity Vakunta's poetry celebrates the harmonious cohabitation of verbal sophistry with the power of the word Tamegnon Demagbo University of Indianapolis USA

Green Rape Wuteh Vakunta, 2008-05-15 Green Rape Poetry for the Environment is an anthology of poems written in strong support of environmental literacy Each poem is the poet's cry of protest against the rape of natural and built environments The anthology examines a wide range of issues including the clash of global capitalism with environmental activism It takes a close look at the major themes in international discourse on environmental degradation climate change renewable energy sources global warming Gene technology biodiversity and more The poet dispels a number of myths notably the existence of an inexhaustible bank of natural resources at the disposal of Man He attempts to provide a solution to the abusive and unbalanced utilization of scarce natural resources In a unique way the poems contribute to the fostering of environmental awareness that would contribute to the sustainable management of natural resources The poet invites us to look beyond the doomsday rhetoric about the state of the environment and to commit more of our resources where they will do the most good to lifting the world's population out of poverty The significance of this anthology to environmental education resides in its contribution to the debate on global sustainable development especially efforts to protect the environment and eradicate
