MacDonald, 2009-10-30 On the cusp of memory and history the story of Scotland's twentieth century is contested territory international yet parochial prosperous yet ailing and passionate yet temperate This thematic account of Scotland's twentieth century examines the economic social political and cultural aspects that shaped the country during the period Catriona MacDonald underlines the tensions inherent in the life of a nation distinguished by stark changes and

surprising continuities a fragmented identity a shifting and at times uneasy accommodation in the UK nation state and an ongoing engagement with globalising tendencies In identifying the choices ambitions possibilities and contradictions that Scotland experienced during a century of profound change she uncovers a country in which one can truly say extremes met
