Gray Morrow Visionary Morrow:

Gray Morrow, Visionary Gray Morrow, Mark Wheatley, Allan Gross, 2001 *Gray Morrow, Visionary* Mark Wheatley, Allan Gross, 2001 Cartoonists, Works, and Characters in the United States through 2005 John Lent, 2006-04-30

This penultimate work in John Lent's series of bibliographies on comic art gathers together an astounding array of citations on American cartoonists and their work. Author John Lent has used all manner of methods to gather the citations: searching library and online databases, contacting scholars and other professionals attending conferences and festivals, and scanning hundreds of periodicals. He has gone to great length to categorize the citations in an easy-to-use scholarly fashion, and in the process has helped to establish the field of comic art as an important part of social science and humanities research. The ten volumes in this series, covering all regions of the world, constitute the largest printed bibliography of comic art in the world and serve as the beacon guiding the burgeoning fields of animation, comics, and cartooning. They are the definitive works on comic art research and are exhaustive in their inclusiveness, covering all types of publications: academic, trade, popular, fan, etc., from all over the world. Also included in these books are citations to systematically researched academic exercises, as well as more ephemeral sources such as fanzines, press articles, and fugitive materials: conference papers, unpublished documents, etc., attesting to Lent's belief that all pieces of information are vital in a new field of study such as comic art.

The Year's Best Science Fiction: Nineteenth Annual Collection Gardner Dozois, 2002-07-22 The twenty-first century has so far proven to be exciting and wondrous and filled with challenges we had never dreamed. New possibilities previously unimagined appear almost daily, and science fiction stories continue to explore those possibilities with delightful results. Collected in this anthology are such compelling stories as *On K2* with Kanakaredes by Dan Simmons. A relentlessly paced and absorbing tale set in the near future about three mountain climbers who must scale the face of K2 with some very odd company. *The Human Front* by Ken MacLeod. In this compassionate coming-of-age tale, the details of life are just a bit off from things as we know them, and nothing is as it appears to be. *Glacial* by Alastair Reynolds. A fascinating discovery on a distant planet leads to mass death and a wrenching mystery as spellbinding as anything in recent short fiction. The twenty-six stories in this collection imaginatively take us far across the universe into the very core of our beings, to the realm of the gods and the moment just after now. Included here are the works of masters of the form and of bright new talents, including Eleanor Arnason, Chris
