

The Great Awakening

- The Great Awakening began in the 1720s and 1730s in New Jersey and New England.
- It eventually swept through all colonies.
- “Fire and brimstone” style of worship stressed the importance of the individual’s relationship with God.

Great Awakening In New England

Thomas S. Kidd

Great Awakening In New England:

The Great Awakening in New England Edwin Scott Gaustad, 1957 Perhaps the most profound religious revival in the history of the New World took place in New England three centuries ago between 1740 and 1742 this tremendous spiritual upheaval had an effect upon the American colonies comparable to those produced by the great Methodist revival in England and the pietistic revolution in Germany somewhat earlier Dr Gaustad considers the Great Awakening in New England one of the most significant cultural phenomena in American colonial history and has written a significant book that makes clear its theological intellectual and institutional effects in American life Now for the first time in a century this epoch is studied in full detail and with an objectivity impossible then It is seen that for all its excesses and errors this period in colonial life exhibited many aspects of the religious problem of this country Its examination in the light of present day theology is vital to an understanding of America's religious heritage Jonathan Edwards George Whitefield Solomon Stoddard and others were the prime movers of this revival that fused two disparate strains in New England life The Enlightenment which was sober and straitlaced and Revivalism which was emotional and intense Never before has this watershed in early American life been so thoroughly researched from the sociological the theological and the historical point of view publisher *A Puritan Wooing* Frank Samuel Child, 1898

Wheelock's World John Fea, 1999-12-01 During the Great Awakening in New England Eleazar Wheelock the New Light minister missionary to the Indians and educator was a prolific religious communicator and letter writer His correspondence served as an agent in the creation preservation definition and redefinition of a revival community Such scribal publication was effective in spreading news of revivals and uniting New Light ministers in the remote corners of the New England countryside Letters rather than oral communication or the print public sphere frequently served as the catalyst for New England evangelicals to transcend their geographical isolation *NEW ENGLAND AND THE GREAT AWAKENING, A STUDY IN THE THEORY AND PRACTICE OF NEW ENGLAND CALVINISM*. HENRY BAMFORD PARKES, 1929

The Clergy and the Great Awakening in New England David Harlan, 1980

The Great Awakening in New England Edwin S. Gaustad, 2003-01-01

The Great Awakening, in the Middle Colonies (Classic Reprint) Charles Hartshorn Maxson, 2017-10-26 Excerpt from *The Great Awakening in the Middle Colonies* Centennial celebrations of what Jonathan Edwards called the Revival of Religion in New England in suggested to Joseph Tracy the preparation of a history of that revival His design was admirably executed Subordinate attention was given by him to the progress of the revival in other sections of the country and in Great Britain but in the main his *Great Awakening* is an exhaustive history of the revival proper in New England It gives extended quotations from the personal narratives of many promoters of the revival which were written in 1743 and 1744 for Prince's Christian History Approaching my task almost three fourths of a century after Tracy I find myself more in sympathy than was common in Tracy's day with the catholicity of Whitefield and with the democratic tendencies of the revival which were so largely responsible for the destruction of the ecclesiastical system of New

England Tracy wrote with the purpose of encouraging a similar quickening in his own time but wished to avoid resort to measures which he imagined to be harmful I find my purpose not in the advocacy of a program but in the attempt to demonstrate that the religious energies liberated by the Great Awakening were transformed into forces social humanitarian educational and political which have been of almost incalculable importance in the making of the American people This study much briefer than Tracy's will make only such reference to the revival in New England as is demanded for understanding the movement in the Middle Colonies The statement of the relation Of the revival in the Middle Colonies to its extension southward will not be so abbreviated because that relation was very close and because there is no account of the revival in the South like that of Tracy for New England About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works Great Awakening in New England Edwin S. Gaustad,1972-01-01 Law and Providence in Joseph Bellamy's New England Mark Valeri,1994-10-13 This study of religious thought and social life in early America focuses on the career of Joseph Bellamy 1719 1790 a Connecticut Calvinist minister noted chiefly for his role in originating the New Divinity the influential theological movement that evolved from the writings of Bellamy's teacher Jonathan Edwards Tracing Bellamy's contributions as a preacher noted controversialist and church leader from the Great Awakening to the American Revolution Mark Valeri explores why the New Divinity was so immensely popular Set in social contexts such as the emergent market economy the war against France and the politics of rebellion Valeri shows Bellamy's story reveals much about the relationship between religion and public issues in colonial New England **The Great Awakening** Jonathan Edwards,1972 Interpreting the Great Awakening of the eighteenth century was in large part the work of Jonathan Edwards whose writings on the subject defined the revival tradition in America Moving from sensitive descriptions of the Surprising work of God in conversion to a consuming quest for the essence of true religion and threading his way through mounting controversies over errors in doctrine and disorders in practice Edwards sought to locate an authentic core of evangelical experience to define it in terms of biblical faith and psychological insight and to defend it against both overheated zealous and rationalistic critics The tracts that unfold his thoughts presented here with related correspondence for the first time in accurate critical texts document a movement so significant for the American character that it has been called our national conversion In a carefully researched introduction C C Goen identifies the Arminian threat to which the Northampton pastor responded at the onset of the Awakening and traces Edwards' understanding of vital religion as it developed in the ambiguous context of revivalism Mr Goen's study also illuminates little

known aspects of A Faithful Narrative and describes the haphazard way in which that important work reached its eager audience C C Goen author of Revivalism and Separatism in New England 1740 1800 1962 is professor of church history at the Wesley Theological Seminary in Washington D C

The Indian Great Awakening Linford D. Fisher, 2012-06-14 This book tells the gripping story of New England's Natives efforts to reshape their worlds between the 1670s and 1820 as they defended their land rights welcomed educational opportunities for their children joined local white churches during the First Great Awakening 1740s and over time refashioned Christianity for their own purposes

Jonathan Edwards and the Great Awakening in New England Andrew Robert Elmer Wyant, 1897

Jonathan Edwards: Writings from the Great Awakening (LOA #245) Jonathan Edwards, 2013-10-17 A collection of writings from and about New England's Great Awakening a spiritual movement that gave rise to American evangelicalism from the theologian and philosopher who first reported it to the masses Jonathan Edwards 1703 1758 is recognized today as a great theologian and philosopher In his own day Edwards was best known as a leader of what is now known as the Great Awakening a series of small town revivals that mushroomed into a movement credited with giving birth to American evangelicalism and laying the groundwork for the American Revolution In authoritative texts drawn from first editions and manuscript sources this volume brings together all of Edwards's essential writings from and about the revivals including the famous sermon Sinners in the Hands of an Angry God and his vivid Faithful Narrative of the Surprising Work of God in the Conversion of Many Hundreds of Souls the work that first publicized the awakenings Characterized by precise logic and powerful imagery his writing continues to inspire students and spiritual seekers alike

LIBRARY OF AMERICA is an independent nonprofit cultural organization founded in 1979 to preserve our nation's literary heritage by publishing and keeping permanently in print America's best and most significant writing The Library of America series includes more than 300 volumes to date authoritative editions that average 1 000 pages in length feature cloth covers sewn bindings and ribbon markers and are printed on premium acid free paper that will last for centuries

The First Great Awakening John Howard Smith, 2014-12-18 The First Great Awakening an unprecedented surge in Protestant Christian revivalism in the Eighteenth Century sparked enormous of controversy at the time and has been a source of scholarly debate ever since Few historians have sought to write a synthetic history of the First Great Awakening and in recent decades it has been challenged as having happened at all being either an exaggeration or an invention The First Great Awakening expands the movement's geographical theological and sociopolitical scope Rather than focus exclusively on the clerical elites as earlier studies have done it deals with them alongside ordinary people and includes the experiences of women African Americans and Indians as the observers and participants they were It challenges prevailing scholarly opinion concerning what the revivals were and what they meant to the formation of American religious identity and culture Cover image NPG 131 George Whitefield by John Wollaston oil on canvas circa 1742 National Portrait Gallery London

The Great Awakening Thomas S. Kidd, 2018-10-24 A detailed examination of the First Great Awakening

this volume presents a valuable study of the spiritual movement that profoundly shaped colonial American cultural and religious life Thomas Kidd's comprehensive introduction relies on recent scholarship to describe three contemporary views of the revivals those of radicals in favor of them moderates supporting them and antirevivalists attacking them The views and experiences of these participants and critics emerge through nearly 40 documents organized into topical sections By expanding coverage of the radicals and the ordinary people including women African Americans and Native Americans who joined the revival movement Kidd gives students an opportunity to hear a broader collection of voices from colonial American society The volume also includes illustrations headnotes to the documents a chronology of the Great Awakening a selected bibliography questions to consider and an index The Great Awakening in New England Edwin Scott Gaustad, 1968

The Great Awakening Joseph Tracy, 2017-11-01 Joseph Tracy 1793-1874 was an American Congregationalist minister His careful research draws together all the available contemporary sources to give a fascinating insight into the events surrounding the awakening that took place throughout New England in the eighteenth century The immense roles played by Jonathan Edwards and George Whitefield are inevitably prominent but all the other characters and the parts they played are also featured It is estimated that between twenty five and fifty thousand were converted during this period from the local revivals in the 1730s through the more extensive and widespread blessing of the early 1740s and beyond Tracy does not shirk the need to examine the aberrations and excesses that marked the revival in some parts nor the controversies that raged between the friends and foes of the revival From these important lessons may be learned even now by all those looking for significant blessing on their ministries Tenacious of Their Liberties James F. Cooper Jr., 1999-02-04 Although the importance of Congregationalism in early Massachusetts has engaged historians' attention for generations this study is the first to approach the Puritan experience in Congregational church government from the perspective of both the pew and the pulpit For the past decade author James F Cooper Jr has immersed himself in local manuscript church records These previously untapped documents provide a fascinating glimpse of lay clerical relations in colonial Massachusetts and reveal that ordinary churchgoers shaped the development of Congregational practices as much as the clerical and elite personages who for so long have populated histories of this period Cooper's new findings will both challenge existing models of church hierarchy and offer a new dimension to our understanding of the origins of New England democracy Refuting the idea of clerical predominance in the governance of colonial Massachusetts churches Cooper shows that the laity were both informed and empowered to rule with ministers rather than beneath them From the outset of the Congregational experiment ministers articulated and lay people embraced principles of limited authority higher law and free consent in the conduct of church affairs These principles were codified early on in the Cambridge Platform which the laity used as their standard in resisting infringements upon their rights By neglecting the democratic components of Congregationalism Cooper argues scholars have missed the larger political significance of the movement Congregational thought and practice in fact served as one

indigenous seedbed of several concepts that would later flourish during the Revolutionary generation including the notions that government derives its legitimacy from the voluntary consent of the governed that governors should be chosen by the governed that rulers should be accountable to the ruled and that constitutional checks should limit both the governors and the people By examining the development of church government through the perspective of lay clerical interchange Cooper comes to a fresh understanding of the sometimes noble sometimes sordid and sometimes rowdy nature of church politics His study casts new light upon Anne Hutchinson and the Antinomian Controversy the Cambridge Platform the Halfway Covenant the Reforming Synod of 1679 and the long standing debate over Puritan declension Cooper argues that in general church government did not divide Massachusetts culture along lay clerical lines but instead served as a powerful component of a popular religion and an ideology whose fundamentals were shared by churchgoers and most ministers throughout much of the colonial era His is a book that will interest students of American culture religion government and history

The Great Awakening in New England Edwin Scott Gaustad, 1968 *Nathaniel Taylor, New Haven Theology, and the Legacy of Jonathan Edwards* Douglas A. Sweeney, 2002-12-05 Nathaniel Taylor was arguably the most influential and the most frequently misrepresented American theologian of his generation While he claimed to be an Edwardsian Calvinist very few people believed him This book attempts to understand how Taylor and his associates could have counted themselves Edwardsians In the process it explores what it meant to be an Edwardsian minister and intellectual in the 19th century
