All Equally Real: Femininities and Masculinities Today Anna Pilińska,Harmony Siganporia,2019-01-04 This volume was first published by Inter Disciplinary Press in 2014 This volume is a collection of research papers which deem gender identities to be dynamic and multiple categories refusing resolutely to reduce their complexity to fit neat extant binaries It attempts to grapple with the dialectic which emerges from the fact that while there is a certain resistance to being labeled in contemporary discourses on sexuality gender identities actively influence how we interpret the world and how we function within it we exist amongst patterns models and behaviours as well as among people who virtually demand to be labeled because to them this forms the basis of a stable identity Various cultural perspectives and realities are here given voice bringing to bear upon the reader the need to identify privileges they might take for granted but which are unobtainable elsewhere As the curtain of one s own cultural context is lifted this volume hopes that these privileges are even if for a moment no longer invisible
