The Grandissimes Thomas J. Richardson, 1981      **A Certain Slant of Light: Regionalism and the Form of Southern and Midwestern Fiction** ,      *Popular New Orleans* Florian Freitag, 2020-10-01 New Orleans is unique which is precisely why there are many Crescent Cities all over the world for almost 150 years writers artists cultural brokers and entrepreneurs have drawn on and simultaneously contributed to New Orleans s fame and popularity by recreating the city in popular media from literature photographs and plays to movies television shows and theme parks Addressing students and fans of the city and of popular culture *Popular New Orleans* examines three pivotal moments in the history of New Orleans in popular media the creation of the popular image of the Crescent City during the late nineteenth century in the local color writings published in Scribner s *Monthly Century Magazine* the translation of this image into three dimensional immersive spaces during the twentieth century in Disney s theme parks and resorts in California Florida and Japan and the radical transformation of this image following Hurricane Katrina in public performances such as Mardi Gras parades and operas Covering visions of the Crescent City from George W Cable s *Old Creole Days* stories 1873 1876 to Disneyland s *New Orleans Square* 1966 to Rosalyn Story s opera *Wading Home* 2015 *Popular New Orleans* traces how popular images of New Orleans have changed from exceptional to exemplary      **Swamp Souths** Kirstin L. Squint, Eric Gary Anderson, Taylor Hagood, Anthony Wilson, 2020-03-04 *Swamp Souths Literary and Cultural Ecologies* expands the geographical scope of scholarship about southern swamps Although the physical environments that form its central subjects are scattered throughout the southeastern United States the Atchafalaya the Okefenokee the Mississippi River delta the Everglades and the Great Dismal Swamp this evocative collection challenges fixed notions of place and foregrounds the ways in which ecosystems shape cultures and creations on both local and global scales Across seventeen scholarly essays along with a critical introduction and afterword *Swamp Souths* introduces new frameworks for thinking about swamps in the South and beyond with an emphasis on subjects including Indigenous studies ecocriticism intersectional feminism and the tropical sublime The volume analyzes canonical writers such as William Faulkner Zora Neale Hurston and Eudora Welty but it also investigates contemporary literary works by Randall Kenan and Karen Russell the films *Beasts of the Southern Wild* and *My Louisiana Love* and music ranging from swamp rock and zydeco to Beyonc s visual album *Lemonade* Navigating a complex assemblage of places and ecosystems the contributors argue with passion and critical rigor for considering anew the literary and cultural work that swamps do This dynamic collection of scholarship proves that swampy approaches to southern spaces possess increased relevance in an era of climate change and political crisis      Reading Africa into American Literature Keith Cartwright, 2021-12-14 The literature often considered the most American is rooted not only in European and Western culture but also in African and American Creole cultures Keith Cartwright places the literary texts of such noted authors as George Washington Cable W E B DuBois Alex Haley Zora Neale Hurston Ralph Ellison William Faulkner Joel Chandler Harris

Herman Melville Toni Morrison and many others in the context of the history spiritual traditions folklore music linguistics and politics out of which they were written Cartwright grounds his study of American writings in texts from the Senegambian Old Mali region of Africa Reading epics fables and gothic tales from the crossroads of this region and the American South he reveals that America s foundational African presence along with a complex set of reactions to it is an integral but unacknowledged source of the national culture identity and literature

**Savage Preservation** Brian Hochman,2014-11-15 During the late nineteenth and early twentieth centuries writers and anthropologists believed that the world s primitive races were on the brink of extinction They also believed that films photographs and phonographic recordings modern media in their technological infancy could capture lasting relics of primitive life before it vanished into obscurity For many Americans the promise of media and the problem of race were inextricably linked While professional ethnologists tried out early recording machines to preserve the sounds of authentic indigenous cultures photographers and filmmakers hauled newfangled equipment into remote corners of the globe to document rituals and scenes that seemed destined to vanish forever In *Savage Preservation* Brian Hochman shows how widespread interest in recording vanishing races and disappearing cultures influenced audiovisual innovation experimentation and use in the United States Drawing extensively on seldom seen archival sources from phonetic alphabets and sign language drawings to wax cylinder recordings and early color photographs Hochman uncovers the parallel histories of ethnography and technology in the turn of the century period While conventional wisdom suggests that media technologies work mostly to produce ideas about race *Savage Preservation* reveals that the reverse has also been true During this period popular conceptions of race constructed the authority of new media technologies as reliable archives of the real Brimming with nuanced critical insights and unexpected historical connections *Savage Preservation* offers a new model for thinking about race and media in the American context and a fresh take on a period of accelerated technological change that closely resembles our own

 historical analysis of the migration and integration of white and free black refugees from nineteenth century St Domingue  
 Haiti to Louisiana and follows the progress of their descendants over the course of two hundred years The refugees  
 reinforced Louisiana s tri racial system and pushed back the progress of Anglo American racialization by several decades But  
 over the course of the nineteenth century the ascendance of the Anglo American racial system began to eclipse Louisiana s  
 tri racial Latin Caribbean system The result was a racial palimpsest that transformed everyday life in southern Louisiana  
 White refugees and their descendants in Creole Louisiana succumbed to pressure to adopt a strict definition of whiteness as  
 purity that conformed to standards of the Anglo American racial system Those of color however held on to the logic of the tri  
 racial system which allowed them to inhabit an intermediary racial group that provided a buffer against the worst effects of  
 Jim Crow segregation The St Domingue Haiti migration case foreshadows the experiences of present day immigrants of color  
 from Latin America and the Caribbean many of whom chafe against the strictures of the binary U S racial system and resist  
 by refusing to be categorized as either black or white The St Domingue Haiti case study is the first of its kind to compare the  
 long term integration experiences of white and free black nineteenth century immigrants to the U S In this sense it fills a  
 significant gap in studies of race and migration which have long relied on the historical experience of European immigrants  
 as the standard to which all other immigrants are compared      *Lamp ...* ,1905
