The English Theatrical Avant-Garde 1900-1925 Simon Shepherd, 2022-12-30 The English Theatrical Avant Garde 1900 1925 unearths an extensive range of hitherto forgotten or ignored theatre practices In doing so it reveals some of the well known figures of the early twentieth century English theatre in a strikingly new light It fluently describes an intensity of innovation and experiment that together made the Edwardian theatre rather more radical and rather more queer than we've ever thought Where the majority of writing on the early twentieth century theatrical avant garde is concerned with European movements and experiments English activity of the period is often seen as parochial and conservative mainly realism and issues based drama This book presents a new model of how avant gardes might work a model based not on masculine individualism but on communal inclusion In describing this fascinating material the author introduces us to many new figures and shows familiar ones in different ways there's Florence Farr independent woman Bob Trevelyan radical pacifist and music drama pioneer Granville Barker doing fairy plays while de dramatising drama Laurence Housman socialist homosexual scripting St Francis and the oddly modern J M Barrie Together they made theatre practices rich in their diversity but consistent in their attempt to be new producing a theatrical avant garde unlike any other This is a vital and indispensable new study for scholars and students of early twentieth century theatre in England and beyond

English Theatre in Transition 1881-1914 James Woodfield, 2015-07-16 Originally published in 1984 The turn of the nineteenth and twentieth centuries was a time of considerable change in the English theatre Victorian attitudes were shocked or shattered by the new drama of Ibsen the major figure of George Bernard Shaw dominated the period theatre censorship was the subject of a long and furious contest and staging conventions changed from the spectacular stylings of Irving and Beerbohm Tree to the masking and statuesque styles of Isadora Duncan and the inner realism of Stanislavsky This book traces the activities of the leading figures in the English theatre notably William Archer who introduced Ibsen to this country and who became one of the main promoters of

the idea of a National Theatre Other personalities discussed include Harley Granville Barker particularly his association with Shaw at the Court Theatre and his part in campaigns against censorship and for changes in the staging of Shakespeare and Edward Gordon Craig whose rebellion against the Victorian theatre took an anti realist direction This is a stimulating account of the background to the modern English theatre which can only increase appreciation of its standard and variety
