

Aging community, changing crops: The faith of grapes in Turkey

Atak Ayaz¹

Abstract

This article explains the social and economic changes that transpired in Turkey's rural areas by focusing on a *vigneron* village in the country's northwest. My goal is to show that the neo-liberalization of Turkey's economy in the 1980s and the privatization of state-owned production facilities in the 2000s exacerbated the devaluation of farmers' products and the depreciation of their labor. As a result of income unpredictability and an aging population, agrarian communities have either turned their vineyards into olive groves or uprooted them. Meanwhile, since the early 2000s, grape cultivation in Turkey has entered a wine-oriented phase primarily led by urbanites from non-agricultural sectors. Even though the percentage of wine grapes has increased in recent years, they mostly come from newly established vineyards of a new class of wine entrepreneurs. Based on 13 months of ethnographic research in vineyards and small-scale wineries in Turkey's Thrace, I argue that the peasantry in Turkey is in a transition that poses an indeterminate future for the country's grape cultivation and vineyard areas.

1. Introduction

This article tells the story of a young olive tree in a vineyard. This narrative reveals the political economy behind what might be seen simply as a tree out of place. Although Turkey is among the top five countries in terms of vineyard area (Figure 1; Akdemir & Candar, 2022), *vignerons* cultivating grapes for generations are uprooting their vineyards and, climate-allowing, turning them into olive groves. Olive trees in former vineyards symbolize the agony of the lost economic viability of grape cultivation for an aging agricultural community in Thrace, a region in northwestern Turkey that borders Greece and Bulgaria, whose economy is primarily based on grape cultivation—viticulture. Building on 13 months of ethnographic research—during which I studied the tensions and negotiations among grassroots farmers, a new class of urbanite wine entrepreneurs, and state institutions—this article focuses on grape cultivation's unpredictable and precarious state. Situating the state's economic planning of production in its enterprises as the leading actors, my goal is to show that the shift from

Seven Social Movements That Changed America Linda Gordon,2025-03-04 A brilliantly conceived and provocative work from an award winning historian that examines how seven twentieth century social movements transformed America How do social movements arise wield power and bring about meaningful change Renowned scholar Linda Gordon investigates these and other salient questions in this visionary cautionary timely and utterly necessary book Nicole Eustace narrating how some of America s most influential twentieth century social movements transformed the nation Beginning with the turn of the century settlement house movement the book compares Chicago s celebrated Hull House begun by privileged women to a much less well known African American project Cleveland s Phillis Wheatley House begun by a former sharecropper Expanding her highly praised book *The Second Coming of the KKK* the second chapter shows how a northern Klan became a mass movement in the 1920s Contrary to what many Klan opponents thought this KKK was a middle class organization its members primarily urban and well educated In the 1930s the KKK gave birth to dozens of American fascist groups small but extremely violent Profiles of two other 1930s movements follow the Townsend campaign for old age insurance named for its charismatic leader Dr Francis Townsend It created the public pressure that brought us Social Security which was considered radical at the time as was the movement to bring about federal unemployment aid for millions Proceeding to the 1955 1956 Montgomery bus boycott which jump started the career of Martin Luther King Jr the narrative shows how the city s entire Black population refused to ride segregated buses initiated by Black women their years long hard fought victory inspired the civil rights movement Gordon then examines the 1970s farmworkers struggle led by Cesar Chavez and made possible by the work of tens of thousands of the primarily Mexican American farmworkers Together they built the United Farm Workers Union winning better wages and working conditions for some of the country s poorest workers The book concludes with the dramatic stories of two Boston socialist feminist groups Bread and Roses and the Combahee River Collective which influenced the whole women s liberation movement Throughout the work Gordon concentrates not on ideologies but on how millions of grassroots activists strategized and changed the United States Separately and together these seven narratives bring to life the creativity and hard work of social movements and in doing so reveal how they have been central to American history in stories that reverberate with today s political activism
