Mann, 2017-09-22 Reviewers of a recent exhibition termed Federico Barocci ca 1533 1612 the greatest artist you've never heard of One of the first original iconographers of the Counter Reformation Barocci was a remarkably inventive religious painter and draftsman and the first Italian artist to incorporate extensive color into his drawings The purpose of this volume is to offer new insights into Barocci's work and to accord this artist the dates of whose career fall between the traditional Renaissance and Baroque periods the critical attention he deserves Employing a range of methodologies the essays include new ideas on Barocci's masterpiece the Entombment of Christ fresh thinking about his use of color in his drawings and innovative design methods insights into his approach to the nude revelations on a key early patron a consideration of the reasons behind some of his most original iconography an analysis of his unusual approach to the marketing of his pictures an exploration of some little known aspects of his early production such as his reliance on Italian majolica and contemporary sculpture in developing his compositions

and an examination of a key Barocci document the post mortem inventory of his studio A translated transcription of the inventory is included as an appendix *Federico Barocci and the Oratorians* Ian F. Verstegen, 2015-07-01 In 1586 Federico Barocci delivered his Visitation of the Virgin and St Elizabeth to the Chiesa Nuova in Rome For the next quarter century Barocci dominated the art scene in Rome there was no other artist from whom it was harder to get work and no other artist charged such high prices Having two important altarpieces in the Chiesa Nuova and two additional commissions discussed was an impressive feat for an artist living exclusively in Urbino Why did the Oratorians monopolize Barocci's talents in Rome and why does it seem that Barocci was their first choice when considering artists to decorate their church What was it about Barocci's art that appealed to Oratorian sensibilities and their vision of the artistic program for decoration of their church This book examines the relationship between Barocci and the Congregation of the Oratory arguing for a distinct physiognomy of Oratorian patronage and exposing the function the Oratorians expected of religious imagery in contrast to other groups of their time While explaining Oratorian patronage it thus deals with a thorny question in social science how can a collective body have unified intentions and actions The result is a contribution both to the history of Italian painting and to art historical methodology *Sixteenth-century Italian Drawings in New York Collections* William Griswold, Linda Wolk-Simon, Metropolitan Museum of Art (New York, N.Y.), 1994 Focusing exclusively on examples from the 16th century the great age of Italian drawing this stunning volume published to accompany an early 1994 exhibition at The Metropolitan Museum of Art includes 124 prized works from The Metropolitan the Pierpont Morgan Library the Cooper Hewitt Museum and some 20 private collections in New York The catalogue is organized by school and within each section chronologically by artist Each drawing is illustrated and presented with a discussion that places it in the context of the artist's career and explores the purpose for which it was made Paper edition unseen 35 Annotation copyright by Book News Inc Portland OR

Verstegen, 2007-03-01 This collection of essays offers a thorough study of the patron artist relationship through the lens of one of early modern Italy's most powerful and influential historical families Contributors present a longitudinal study of the della Rovere family's ascent into Italian nobility The della Rovere was a family of popes cardinals and powerful dukes who financed some of the world's best known and greatest artwork The essays explore the issue of identity and its maintenance of carving a permanent spot for a family name in a rapidly changing atmosphere Although these studies depart from art patronage they uncover how the popes cardinals dukes and signore of the

della Rovere family constituted their identity Originally a nouveau riche creation of papal nepotism the della Rovere first populated the ranks of cardinals under the powerful popes Sixtus IV and Julius II Within the framework of later papal relations the family negotiated its position within the economy of Italian nobles
