Grassroots Theater A Search For Regional Arts In America:

Grassroots Theater Robert Edward Gard, 1999 ROBERT GARD'S TIMELESS BOOK is a moving account of one man's struggle to bring his dream of community building through creative theater to citizens around the country. He traveled across America from New York's Finger Lakes to the prairies of Alberta, Canada to the backwoods of northern Wisconsin, discovering and nurturing the folklore, legends, history and drama of the region. He talked to ballad singers, painters, tellers of tall tales and farm women whose poetry and painting reflected the elemental violence of nature and quiet joys of neighborliness. Readers will discover in *Grassroots Theater* a spiritual autobiography of Robert Gard, a rare chronology of a little known era in theater history, useful projects for local community groups and lively discussion of such cultural themes as the role of the arts in American democracy. *Grassroots Theater* reminds us that an individual's creative vision transcends technology, current events and changing demographics. Writes Gard, "The knowledge and love of place is a large part of the joy in people's lives. There must be plays that grow from all the countryside of America fabricated by the people themselves, born of their happiness and sorrow, born of toiling hands and free minds, born of music and love and reason."

Grassroots theatre Robert Gard, 1955 The Federal Theatre Project in the American South Cecelia Moore, 2017-09-26

The Federal Theatre Project in the American South introduces the people and projects that shaped the regional identity of the Federal Theatre Project. When college theatre director Hallie Flanagan became head of this New Deal era jobs program in 1935, she envisioned a national theatre comprised of a network of theatres across the country. A regional approach was more than organizational; it was a conceptual model for a national art. Flanagan was part of the little theatre movement that had already developed a new American drama drawn from the distinctive heritage of each region and which they believed would collectively illustrate a national identity. The Federal Theatre plan relied on a successful regional model: the folk drama program at the University of North Carolina, led by Frederick Koch and Paul Green. Through a unique partnership of public university, private philanthropy and community participation, Koch had developed a successful playwriting program and extension service that built community theatres throughout the state. North Carolina, along with the rest of the Southern region, seemed an unpromising place for government theatre. Racial segregation and conservative politics limited the Federal Theatre's ability to experiment with new ideas in the region. Yet in North Carolina, the Project thrived. Amateur drama units became vibrant community theatres where whites and African Americans worked together. Project personnel launched *The Lost Colony*, one of the first so-called outdoor historical dramas that would become its own movement. The Federal Theatre sent unemployed dramatists, including future novelist Betty Smith, to the university to work with Koch and Green. They joined other playwrights, including African American writer Zora Neale Hurston, who came to North Carolina because of their own interest in folk drama. Their experience, told in this book, is a backdrop for

each successive generation's debates over government cultural expression art and identity in the American nation
