J. Mike Groen,Nicholas Márquez-Grant,Rob Janaway,2015-02-17 Forensic archaeology is mostly defined as the use of archaeological methods and principles within a legal context However such a definition only covers one aspect of forensic archaeology and misses the full potential this discipline has to offer This volume is unique in that it contains 57 chapters from experienced forensic archaeological practitioners working in different countries intergovernmental organisations or NGO s It shows that the practice of forensic archaeology varies worldwide as a result of diverse historical educational legal and judicial backgrounds The chapters in this volume will be an invaluable reference to forensic archaeologists forensic anthropologists humanitarian and human rights workers forensic scientists police officers professionals working in criminal

justice systems and all other individuals who are interested in the potential forensic archaeology has to offer at scenes of crime or places of incident This volume promotes the development of forensic archaeology worldwide In addition it proposes an interpretative framework that is grounded in archaeological theory and methodology integrating affiliated behavioural and forensic sciences **Cumulated Index Medicus** ,2000 *The Experimental Psychology of Beauty* C.W.

Valentine,2015-06-05 Originally published in 1962 the experimental study of aesthetics was a field particularly associated with the name of C W Valentine who in this book provided a critical review of research carried out since the end of the nineteenth century principally by British and American psychologists The investigations described many of them conducted by the author are concerned with individual responses to what is commonly regarded as beautiful in painting music and poetry an important distinction being made between the perception of objects as beautiful as opposed to pleasing The reactions of children and adults and of people having different ethnic and social backgrounds are explored in a variety of experiments dealing with specific elements including colour form and balance in painting musical intervals discord harmony melody and tempo and rhythm metre imagery and associations in classical and romantic poetry Other experiments seek to disclose the temperamental and attitudinal factors underlying individual differences in the judgement and appreciation of specific works of art Of particular interest are the studies of responses to modern paintings poems and musical compositions The findings throw light on the development of discrimination and taste and suggest the possibility of some common factor in the appreciation of these three arts It was felt that critics as well as psychologists and aestheticians would find much to encourage reflection and to stimulate further research 'Adolf Island' Caroline Sturdy Colls,Kevin Colls,2022-03-15 Adolf

Island offers new forensic archaeological and spatial perspectives on the Nazi forced and slave labour programme that was initiated on the Channel Island of Alderney during its occupation in the Second World War Drawing on extensive archival research and the results of the first in field investigations of the crime scenes since 1945 the book identifies and characterises the network of concentration and labour camps fortifications burial sites and other material traces connected to the occupation providing new insights into the identities and experiences of the men and women who lived worked and died within this landscape Moving beyond previous studies focused on military aspects of occupation the book argues that Alderney was intrinsically linked to wider systems of Nazi forced and slave labour **Diagnostic Imaging in**

**Ophthalmology** Carlos F. Gonzales,Melvin H. Becker,Joseph C. Flanagan,2012-12-06 This book has been written for radiologists ophthalmologists neurologists neurosurgeons plastic surgeons and others interested in the evaluation of disorders with ophthalmologic signs and symptoms It is designed to provide recent knowledge in this area derived from ultrasonography computed tomography CT and magnetic resonance imaging MRI In the past decade the advent of ultrasonography computed tomography and more recently magnetic resonance imaging has provided diagnostic images of the eye orbit and brain in a fashion that had been a dream of many prior to the development of these techniques These

newer modes of diagnosis have replaced some previous techniques such as nuclear medicine imaging and to some degree vascular studies and orbitography There are three sections to this book The first section is a discussion of the imaging techniques The second is devoted to the role of these imaging methods in the evaluation of ophthalmic disorders The last section dealing with radiotherapy for ophthalmologic tumors is included because the current imaging techniques are needed for treatment planning We wish to thank the many people who have assisted us in preparing this manuscript Among these are many librarians secretaries trainees and photographers We are especially indebted to artist Peter Clark for his illustrations and to Mr Martin Leibo vice Associate Curator of New York University Medical School and Director of Health Sciences Library of Goldwater Memorial Hospital New York City Also we wish to thank our families for their help and patience
