*Graves Registry, and Other Poems* Keith Wilson, 1969      *The Madness of It All* W.D. Ehrhart, 2010-07-27 I cannot begin to count the number of times over the past 37 years that I have wished I had never heard of Vietnam let alone fought in the Vietnam War That experience has haunted my days It has troubled my nights It has shaped my identity and colored the way I see the world and everything in it from the Preface W D Ehrhart called one of the great poets and writers of nonfiction produced by the Vietnam War by The Nation here presents 43 essays whose topics include not only the Gulf Vietnam and Korean wars the conflict between Israel and Palestine war and journalism and American war poetry but also junk mail the Internet the IRS tugboats drawbridges race relations the justice system health care small town life in America nicotine addiction the bravado of youth honesty and American culture the rhetoric of national mythology and presidential isolation among others      *Retrieving Bones* William Daniel Ehrhart, Philip K. Jason, 1999 Many of the twelve stories and fifty poems assembled in *Retrieving Bones* have long been out of print and are almost impossible to find in any other source The editors have enhanced this collection by providing maps a chronology of the Korean War and annotated lists of novels works of nonfiction and films In a detailed introduction Ehrhart and Jason discuss the milestones of the Korean War and place each fiction writer and poet represented into historical and literary contexts      **Edinburgh Companion to Twentieth-Century British and American War Literature** Adam Piette, 2012-03-07 The first reference book to deal so fully and incisively with the cultural representations of war in 20th century English and US literature and film The volume covers the two World Wars as well as specific conflicts that generated literary and imaginativ      WLA , 1997      **Encyclopedia of American Poetry: The Twentieth Century** Eric L. Haralson, 2014-01-21 The Encyclopedia of American Poetry The Twentieth Century contains over 400 entries that treat a broad range of individual poets and poems along with many articles devoted to topics schools or periods of American verse in the century Entries fall into three main categories poet entries which provide biographical and cultural contexts for the author s career entries on individual works which offer closer explication of the most resonant poems in the 20th century canon and topical entries which offer analyses of a given period of literary production school thematically constructed category or other verse tradition that historically has been in dialogue with the poetry of the United States      **Dictionary Catalog of the Harris Collection of American Poetry and Plays, Brown University Library, Providence, Rhode Island** Brown University. Library, 1972      **Remembering the Forgotten War** Philip West, Suh Ji-moon, Donald Gregg, 2015-02-12 In contrast to the many books that use military diplomatic and historic language in analyzing the Korean War this book takes a cultural approach that emphasizes the human dimension of the war an approach that especially features Korean voices There are chapters on Korean art on the war translations into English of Korean poetry by Korean soldiers and American soldier poetry on the war There is a photographic essay on the war by combat journalist and Pulitzer Prize winning photographer Max Desfor Another chapter includes and analyzes songs on the Korean War Korean

American and Chinese that illuminate the many complex memories of the war There is a discussion of Korean films on the war and a chapter on Korean War POWs and their contested memories More than any other nonfiction book on the war this one shows us the human face of tragedy for Americans Chinese and most especially Koreans June 2000 was the fiftieth anniversary of the outbreak of the Korean War this moving volume is intended as a commemoration of it

**War and Literature: Looking Back on 20th Century Armed Conflicts** Tom Burns,Elcio Cornelsen,Volker Jaeckel,Luiz Gustavo Vieira,2014-06-01 This comprehensive volume analyzes the radical change in the nature of armed conflicts and in the way they are narrated and represented Ever since the First World War has changed war itself rendering meaningless the very vocabulary of war in terms such as battle front non combatant open city and hero new words new approaches new theories and new texts had to be invented The enemy became invisible Submarines tanks mines gas long range artillery and airplanes made this war different from all the other that came before A hundred years after the beginning of this terrible war it is now time to recall different representations of the armed conflicts of the 20th century The articles in this collection analyze representations of the Canudos Civil War in Brazil the First World War the Second World War the Korean War the Vietnam War the colonial wars in Africa and the war in Afghanistan aiming to understand how war and the telling of war have changed during the most murderous hundred years in the history of mankind

*American War Poetry* Lorrie Goldensohn,2006 Arranged by war the book begins with the Colonial period and proceeds through Whitman admiring Civil War soldiers crossing a river to end with Brian Turner who published his first book in 2005 beckoning a bullet in contemporary Iraq

*The Publishers' Trade List Annual* ,1904

**Historical Dictionary of the Korean War** Paul M. Edwards,2010-06-10 The Korean War has often been regarded as a forgotten war although that is certainly unfair It was if anything a rather crucial war within the ambit of the Cold War started by North Korea in 1950 and although the bulk of the fighting was over by 1954 peace has never been concluded and the two sides still face off over the demilitarized zone On the other side of the zone is South Korea which has since become a very prosperous and democratic country while North Korea has achieved relatively little So that war is certainly not forgotten by the Koreans And given the large number of deaths and casualties it is still remembered by many in the United States and other allies as well as China and the Soviet Union This Historical Dictionary of the Korean War now in its second edition does much to jolt our memory and inform us about the war This is done first in a lengthy chronology tracking the war but also the path to war and what happened after The introduction covers the war as a whole trying to make sense of it The dictionary section provides all of the necessary details on significant persons places and events battles and other engagements military units and material as well as the political economic and social background There are also maps and a list of acronyms This is really the ideal source for information in addition to which it also has an extensive bibliography

**Dead on a High Hill** W.D. Ehrhart,2014-01-10 A new collection of Bill Ehrhart s essays 25 of

them written between 2002 and 2012 on subjects ranging from the Vietnam War failures of American policy makers to life in 21st century Vietnam the trenches of the Western Front the mountains of Korea the sands of Iraq from the value of one's name to the cowardice of Congress mountain gorillas in Rwanda the journalist Gloria Emerson teaching poetry to teenagers on the famous Wilfred Owen and the obscure Robert James Elliott These essays explore the fallacies of history the madness of war the craft of poetry the profession of teaching and the art of living     *The Routledge Introduction to American War Literature* Jennifer Haytock, 2018-05-11 War and violence have arguably been some of the strongest influences on literature but the relation is complex more than just a subject for story telling war tends to reshape literature and culture Modern war literature necessarily engages with national ideologies and this volume looks at the specificity of how American literature deals with the emotional intellectual social political and economic contradictions that evolve into and out of war Raising questions about how American ideals of independence and gender affect representations of war while also considering how specifically American experiences of race and class interweave with representations of combat this book is a rich and coherent introduction to these texts and critical debates     *A Literary History of the American West* Western Literature Association (U.S.), 1987 Literary histories of course do not have a reason for being unless there exists the literature itself This volume perhaps more than others of its kind is an expression of appreciation for the talented and dedicated literary artists who ignored the odds avoided temptations to write for popularity or prestige and chose to write honestly about the American West believing that experiences long known to be of historical importance are also experiences that need and deserve a literature of importance     **International Who's Who in Poetry 2005** Europa Publications, 2004-08-02 The 13th edition of the International Who's Who in Poetry is a unique and comprehensive guide to the leading lights and freshest talent in poetry today Containing biographies of more than 4 000 contemporary poets world wide this essential reference work provides truly international coverage In addition to the well known poets talented up and coming writers are also profiled Contents Each entry provides full career history and publication details An international appendices section lists prizes and past prize winners organizations magazines and publishers A summary of poetic forms and rhyme schemes The career profile section is supplemented by lists of Poets Laureate Oxford University professors of poetry poet winners of the Nobel Prize for Literature winners of the Pulitzer Prize for American Poetry and of the King's Queen's Gold medal and other poetry prizes

Desperado, 1970     Dismantling Glory Lorrie Goldensohn, 2006-04-18 Dismantling Glory presents the most personal and powerful words ever written about the horrors of battle by the very soldiers who put their lives on the line Focusing on American and English poetry from World War I World War II and the Vietnam War Lorrie Goldensohn a poet and pacifist affirms that by and large twentieth century war poetry is fundamentally antiwar She examines the changing nature of the war lyric and takes on the literary thinking of two countries separated by their common language World War I poets such as Wilfred Owen emphasized the role of soldier as victim By World War II however English and American poets influenced by

the leftist politics of W H Auden tended to indict the whole of society not just its leaders for militarism During the Vietnam War soldier poets accepted themselves as both victims and perpetrators of war s misdeeds writing a nontraditional more personally candid war poetry The book not only discusses the poetry of trench warfare but also shows how the lives of civilians women and children in particular entered a global war poetry dominated by air power invasion and occupation Goldensohn argues that World War II blurred the boundaries between battleground and home front thus bringing women and civilians into war discourse as never before She discusses the interplay of fascination and disapproval in the texts of twentieth century war and notes the way in which homage to war hero and victim contends with revulsion at war s horror and waste In addition to placing the war lyric in literary and historical context the book discusses in detail individual poets such as Wilfred Owen W H Auden Keith Douglas Randall Jarrell and a group of poets from the Vietnam War including W D Ehrhart Bruce Weigl Yusef Komunyakaa David Huddle and Doug Anderson Dismantling Glory is an original and compelling look at the way twentieth century war poetry posited new relations between masculinity and war changed and complicated the representation of war and expanded the scope of antiwar thinking     Athanor ,1971 Some issues include inserts called Microbooks No 4 includes Yonnie John Wieners 3 p 14 cm
