**There's More Than One Way to Be Okay** Lauren Merryfield, 2013-10-24 For the disabled in America today inclusion is a big issue Why do we shy away from someone we can see is blind Why do we avoid interacting with the disabled It s most often because we simply do not know what their lives are like and how to find common ground Simply by learning what Lauren Merryfield s life is like you might find a way to make inclusion a reality in your little piece of the world Stop procrastinating and read about what a disabled person s life is really like Learn what inclusion means for author Lauren Merryfield in her book There s More Than One Way to Be Okay See that her life is not so different from yours Think about promoting inclusion of the disabled and what that might mean for our society Lauren Merryfield invites readers to step into her life a blind woman s life and discover how inclusion can improve life for the disabled and for everyone

Education and Rehabilitation for Empowerment Ed Vaughan, James H. Omvig, 2005-11-01 In this book we are interested in patterns of education rehabilitation service socialization and ideas about blindness that in large part produce the above mentioned distinct patterns We will examine the economic interests of professional groups and the patterns of domination and subordination which are present in most rehabilitation relationships Our central tenet is that the behavior of blind people is not a product of the physical condition of blindness or the amount of

residual vision a blind person has Rather the behavior of blind people in our society is governed by socialization Blindness is a social problem arising from erroneous socially constructed negative beliefs about the capacities of blind people involuntarily assimilated from the broader society by the blind People learn to live independently or they learn to be dependent The reactions of parents teachers peers the health professionals rehabilitation counselors and the general public have defined the choices available to blind people This is the case in every culture and society around the world Differences result from different cultural values levels of economic development and historical traditions *Cassette Books* Library of Congress.
