Gray Whales Are Missing:

The Gray Whales Are Missing Robin A. Thrush, 1987 Just as his matchmaking efforts seem to be working with his widowed father and his favorite teacher ten year old Pence becomes involved in investigating why the migrating gray whales have deviated from their normal course off the California coast **The Better to Eat You With** Joel Berger, 2009-11-15 At dawn on a brutally cold January morning Joel Berger crouched in the icy grandeur of the Teton Range It had been three years since wolves were reintroduced to Yellowstone after a sixty year absence and members of a wolf pack were approaching a herd of elk To Berger s utter shock the elk ignored the wolves as they went in for the kill The brutal attack that followed swift and bloody led Berger to hypothesize that after only six decades the elk had forgotten to fear a species that had survived by eating them for hundreds of millennia Berger s fieldwork that frigid day raised important questions that would require years of travel and research to answer Can naive animals avoid extinction when they encounter reintroduced carnivores To what extent is fear culturally transmitted And how can a better understanding of current predator prey behavior help demystify past extinctions and inform future conservation The Better to Eat You With is the chronicle of Berger s search for answers From Yellowstone s elk and wolves to rhinos living with African lions and moose coexisting with tigers and bears in Asia Berger tracks cultures of fear in animals across continents and climates engaging readers with a stimulating combination of natural history personal experience and conservation Whether battling bureaucracy in the statehouse or fighting subzero wind chills in the field Berger puts himself in the middle of the action The Better to Eat You With invites readers to join him there The thrilling tales he tells reveal a great deal not only about survival in the animal kingdom but also the process of doing science in foreboding conditions and hostile environments **Outer Continental Shelf Issues** United States. Congress. House. Committee on Merchant Marine and Fisheries. Subcommittee on Oceanography, Great Lakes, and the Outer Continental Shelf, 1991 **Alaska Outer Continental Shelf, Beaufort Sea Planning Area Sales 186, 195, and 202, Oil and Gas Lease Sale** , 2003 **The Beautiful Lost** Luanne Rice, 2017-06-27 From NY Times bestselling author Luanne Rice a sweeping story of a girl and boy both troubled in different ways who take off on a whirlwind road trip Here are three things to know about Maia 1 Ever since her mother left Maia s struggled with depression which once got so bad she had to go to an institution for a while She doesn t want to go back 2 Maia s sure that if she finds her mother if the two of them can talk about whale songs and constellations then everything will be okay again 3 She s in love with Billy the handsome brooding boy who lives in the group home in town He doesn t seem to know that Maia exists until now When Maia sets off on a road trip in search of her mom Billy unexpectedly comes along They drive up the East Coast stopping along the way for lobster rolls and lighthouses Maia learns that Billy has dark secrets of his own and wants to outrun his past too But what will the future hold if they reach their destination From internationally bestselling author Luanne Rice this is a sweeping stunning story about the surprising directions our hearts can take **Pathologic**

Findings in Stranded Marine Mammals: A Global Perspective Gregory Dana Bossart, Alvin Cyril Camus, Debra Lee Miller, Stephen Raverty, 2022-02-09 This project is posthumously dedicated to Dr Gregory Dana Bossart Whether you knew him as colleague mentor friend family member or simply knew of him you could not help but be awestruck by his dedication intelligence thoughtfulness work ethic and passion for scientific inquiry especially for conservation of the marine environment Many of his publications were seminal in marine mammal health including infectious environmental and zoonotic diseases As we collected manuscripts for this special Frontiers edition it was heartwarming to hear the comments from contributors So many research scientists field biologists and veterinarians could easily have given up and said I just can't do this now especially with the added challenges posed by the current COVID 19 pandemic Instead contributors from around the world were determined to contribute to this collection because of their inspiration and shared commitment with Greg's vision The love and admiration within the marine community for Greg is phenomenal With that said we would be remiss if we did not say a few words about Greg as a mentor and friend Greg had a knack for helping students realize their abilities and pursue their own independent contributions to the marine mammal community He shared in their successes and worked tirelessly to facilitate their aspirations Greg would involve students early career scientists and colleagues in projects introduce them to collaborators and promote them and their work Greg was a genuinely caring person When he asked you how are you doing he honestly wanted to know He was always there ready to listen and provide guidance If you were to ask Greg what was most important to him in life he would say God family and marine life and one could argue that he had a special fondness for manatees He believed in the beauty of nature and that God had a hand in all of it He was in pursuit of ensuring that we all share this earth responsibly and sustainably We miss Greg dearly but honor and celebrate him as we carry on in our pursuits

Social Strategies of Carnivorous Mammalian Predators Mridula Srinivasan, Bernd Würsig, 2023-09-18 The book offers a comparative look at the social strategies of five carnivorous social predators four terrestrial and one marine that make them successful hunting units The focus is on mammalian predators hunting largely mammalian prey Each chapter with separate authors devoted to a particular species explores the versatile hunting techniques and social dynamics of these top predators as they attempt to survive defend and reproduce in challenging habitats Each chapter also delves into how the social fabric and ecology of each species influence their ability to deal with natural and man made threats and shifting baselines
