Great American History Ron Thom,2018-05-15 A person could write a history story every day for the rest of his life and not come close to covering all the history of America The history of America in the last five hundred years reflect every human experience that man possesses The stories selected for this book depict men women and events of every possible description Most of these stories are not found in high school history books yet are influential in the development of America Kit Carson fought Indians but also guided Fremont through the West Elizabeth Blackwell became the first woman to receive a medical degree in America at a time when women were not even thought of as citizens Then there is the innovative genius of the Burma Shave signs that sold shaving cream all over the country History is a very delicate subject The reader is at the mercy of the eye witness account of a person s actions or an event taking place The eye witness from one side will see it one way while the person recording the event from the other side may see it differently It is then up to the historian to decipher these varying accounts and determine what really happened It is possible that both sides were wrong Historians have the task of inspecting as many versions of the same story as possible to come to some reasonable expectation of what actually took place A case in point would be the story of the Alamo Texans tell the story as they wanted it while the Mexicans tell a story that is completely opposite See DeQuello inside The stories in this book have been compared and researched as honestly as it is possible to do remembering that there are precious few eye witnesses left

American Women Robert E.

Riegel, 1970 The various roles of women in the United States from 1815 to 1890 are examined first viewed from social religious and physical standpoints in a crisp and slightly wry fashion **American Women in Mission** Dana Lee Robert, 1996 The stereotype of the woman missionary has ranged from that of the long-suffering wife characterized by the epitaph Died given over to hospitality to that of the spinster in her unstylish dress and wire rimmed glasses alone somewhere for thirty years teaching heathen children Like all caricatures those of the exhausted wife and frustrated old maid carry some truth the underlying message of the stereotypes is that missionary women were perceived as marginal to the central tasks of mission Rather than being remembered for preaching the gospel the quintessential male task missionary women were noted for meeting human needs and helping others sacrificing themselves without plan or reason all for the sake of bringing the world to Jesus Christ Historical evidence however gives lie to the truism that women missionaries were and are doers but not thinkers reactive secondary figures rather than proactive primary ones The first American women to serve as foreign missionaries in 1812 were among the best educated women of their time Although barred from obtaining the college education or ministerial credentials of their husbands the early missionary wives had read their Jonathan Edwards and Samuel Hopkins Not only did they go abroad with particular theologies to share but their identities as women caused them to develop gender based mission theories Early nineteenth century women seldom wrote theologies of mission but they wrote letters and kept journals that reveal a thought world and set of assumptions about women's roles in the missionary task The activities of missionary wives were not random they were part of a mission strategy that gave women a particular role in the advancement of the reign of God By moving from mission field to mission field in chronological order of missionary presence Robert charts missiologial developments as they took place in dialogue with the urgent context of the day Each case study marks the beginning of the mission theory Baptist women in Burma for example are only considered in their first decades there and are not traced into the present Robert believes that at this early stage of research into women's mission theory integrity and analysis lies more in a succession of contextualized case studies than in gross generalizations **The Biographical Cyclopaedia of American Women ...** , 1925 *Texas Women* Elizabeth Hayes Turner, Stephanie Cole, Rebecca Sharpless, 2015 This is a collection of biographies and composite essays of Texas women contextualized over the course of history to include subjects that reflect the enormous racial class and religious diversity of the state Offering insights into the complex ways that Texas position on the margins of the United States has shaped a particular kind of gendered experience there the volume also demonstrates how the larger questions in United States women's history are answered or reconceived in the state Beginning with Juliana Barr's essay which asserts that women marked the lines of dominion among Spanish and Indian nations in Texas and explodes the myth of Spanish domination in colonial Texas the essays examine the ways that women were able to use their borderland status to stretch the boundaries of their own lives Eric Walther demonstrates that the constant changing of governments in Texas Spanish Mexican Texan and U S gave slaves

the opportunities to resist their oppression because of the differences in the laws of slavery under Spanish or English or American law Gabriela Gonzalez examines the activism of Jovita Idar on behalf of civil rights for Mexicans and Mexican Americans on both sides of the border Renee Laegreid argues that female rodeo contestants employed a unique regional interplay of masculine and feminine behaviors to shape their identities as cowgirls Readers' Guide to Periodical Literature ,1922
