Market **Advertising, Gender and Society** Magdalena Zawisza-Riley, 2019-07-03 Advertising Gender and Society explores contemporary social psychological theory and original research that examines the portrayal of gender in advertising. It reports empirical data, discusses the social implications of gendered advertising, and comments on the relevant 2019 ASA rules. Zawisza Riley analyses theories such as stereotype content and elaboration likelihood models, stereotype threat, and ambivalent sexism theories, the selectivity hypothesis, as well as implicit and embodied cognition to illuminate the relationships between sex, gender, and advertising in cultural and social contexts. The author thus examines the portrayal of gender in advertising, its effectiveness, and effect on audiences, and the ways in which audiences, marketers, and policy makers can mitigate potential harm of gendered advertising. She offers theory extension and novel application of existing theory and research to the subject of gender advertising. Advertising Gender and Society is ideal for students, academics, and professionals in the fields of psychology, gender, and media studies, as well as marketing, advertising, and policy making.
