Farley, 2010-11-30 As the study of travel writing has grown in recent years scholars have largely ignored the literature of modernist writers Modernist Travel Writing Intellectuals Abroad by David Farley addresses this gap by examining the ways in which a number of writers employed the techniques and stylistic innovations of modernism in their travel narratives to variously engage the political social and cultural milieu of the years between the world wars Modernist Travel Writing argues that the travel book is a crucial genre for understanding the development of modernism in the years between the wars despite the established view that travel writing during the interwar period was largely an escapist genre one in which writers hearkened back to the realism of nineteenth century literature in order to avoid interwar anxiety Farley analyzes works that exist on the margins of modernism generically and geographically works that have yet to receive the critical attention they deserve partly due to their classification as travel narratives and partly because of their complex modernist styles The book begins by examining the ways that travel and the emergent travel regulations in the wake of the First World War helped shape Ezra Pound's Cantos From there it goes on to examine E E Cummings's frustrated attempts to navigate the unworld of Soviet Russia in his book Eimi Wyndham Lewis's satiric journey through colonial Morocco in Filibusters in Barbary and Rebecca West's urgent efforts to make sense of the fractious Balkan states in Black Lamb and Grey Falcon These modernist writers traveled to countries that experienced most directly the tumult of revolution the effects of empire and the upheaval of war during the years between World War I and World War II Farley's study focuses on the question of what constitutes evidence for Pound Lewis Cummings and West as they establish their authority as eyewitnesses translate what they see for an audience back home and attempt to make sense of a transformed and transforming modern world Modernist Travel Writing makes an original contribution to the study of literary modernism while taking a distinctive

look at a unique subset within the growing field of travel writing studies David Farley's work will be of interest to students and teachers in both of these fields as well as to early twentieth century literary historians and general enthusiasts of modernist studies

Churchill and Fisher Barry Gough, 2017-10-06 A vivid study of the politics and stress of high command this book describes the decisive roles of young Winston Churchill as political head of the Admiralty during the First World War Churchill was locked together in a perilous destiny with the ageing British Admiral Jacky Fisher the professional master of the British Navy and the creator of the enormous battleships known as Dreadnoughts Upon these Titans at the Admiralty rested British command of the sea at the moment of its supreme test the challenge presented by the Kaiser's navy under the dangerous Admiral Alfred von Tirpitz Churchill and Fisher had vision genius and energy but the war unfolded in unexpected ways There were no Trafalgars no Nelsons Press and Parliament became battlegrounds for a public expecting decisive victory at sea An ill fated Dardanelles adventure by ships alone as Churchill determined on top of the

Zeppelin raids on Britain brought about Fisher's departure from the Admiralty in turn bringing down Churchill. They spent the balance of the war in the virtual wilderness. The Invention of the White Race

Theodore W. Allen, 2022-01-11. A comprehensive tour de force analysis of the birth of slavery, racism, and white supremacy in the American South and how it shaped our modern world. A must read for all social justice activists, teachers, and scholars. Roxanne Dunbar Ortiz, author of *An Indigenous Peoples History of the United States*. Long heralded as a classic study of the origin of white privilege from the activist who first coined the term, Theodore W. Allen's work remains an indispensable resource for making sense of our conflicted present, a reference point for everyone from Roxanne Dunbar Ortiz and Nell Irvin Painter to Reni Eddo Lodge and Anibal Quijano. When the first Africans arrived in Virginia in 1619, there were no white people there. Nor, according to colonial records, would there be for another sixty years. In this seminal work, available for the first time here in a single volume, Allen tells how America's ruling classes created the category of the white race as a means of social control. Since that early invention, white privileges have enforced the myth of racial superiority, a fact central to maintaining ruling class domination over ordinary working people of all colors throughout the history of the Atlantic world. Spanning centuries and nations, Allen's analysis takes us from the plantations of Northern Ireland and the mines of Peru to the sugar fields of Brazil and colonies of Chesapeake Bay, Virginia. His account records lives of hardscrabble immigrant survival, Faustian bargains with white supremacy, the tragedy of human bondage, and the stubborn unbreakable resistance to the global color line.

Great Britain, 1974. *Britain and Ireland*. Juergen Kramer, 2020-07-07. From highly experienced teacher Juergen Kramer, *Britain and Ireland* is a handbook on the history of the British Isles that recounts the history of the two states, the United Kingdom of Great Britain and Northern Ireland, and the Republic of Ireland, Eire, and four nations, the Irish, the Welsh, the Scottish, and the English, from prehistory to the present. Accompanied by numerous illustrations and information boxes, and also an extensive selection of documents with questions to challenge readers, the book has a unique approach that presents not only the story of what happened in the British Isles but its interdependence with Europe and the rest of the world. With chapters organized chronologically and including a glossary and selected further reading, this is a must for all students of British and Irish studies.

The Invention of the White Race, Volume 2

Theodore W. Allen, 2014-06-03. On the steps of the Lincoln Memorial in 1963, Martin Luther King outlined a dream of an America where people would not be judged by the color of their skin. That dream has yet to be realized, but some three centuries ago it was a reality. Back then, neither social practice nor law recognized any special privileges in connection with being white. But by the early decades of

the eighteenth century that had all changed Racial oppression became the norm in the plantation colonies and African Americans suffered under its yoke for more than two hundred years In Volume II of *The Invention of the White Race* Theodore Allen explores the transformation that turned African bond laborers into slaves and segregated them from their fellow proletarians of European origin In response to labor unrest where solidarities were not determined by skin color the plantation bourgeoisie sought to construct a buffer of poor whites whose new racial identity would protect them from the enslavement visited upon African Americans This was the invention of the white race an act of cruel ingenuity that haunts America to this day Allen s acclaimed study has become indispensable in debates on the origins of racial oppression in America In this updated edition scholar Jeffrey B Perry provides a new introduction a select bibliography and a study guide

Mukherjee, 2014-06-19 En 2010 siete millones de personas murieron de cáncer en todo el mundo. Con esta fría estadística Siddhartha Mukherjee, médico e investigador oncológico, arranca su amplia y absorbente biografía ganadora del Premio Pulitzer de una de las enfermedades más extendidas de nuestro tiempo. El emperador de todos los males es una crónica completa del cáncer desde sus orígenes hasta los modernos tratamientos: quimioterapia de diversos tipos, radioterapia y cirugía, además de la prevención que han surgido gracias a un siglo de investigación, ensayos y pequeños avances trascendentales en muchos lugares distintos. Este libro es un repaso a la ciencia del cáncer y a la historia de los tratamientos que le han hecho frente, pero también es una reflexión sobre la enfermedad, la vida médica y las complejas y entrelazadas vidas de los oncólogos y sus pacientes. La empatía que muestra Mukherjee hacia los enfermos de cáncer y sus familias, así como hacia los médicos que muy a menudo tan pocas esperanzas les pueden ofrecer, hacen de este libro una historia llena de humanidad de una enfermedad compleja e inasible. Reseñas: Esta obra merece a Mukherjee un merecido lugar en el panteón de los grandes divulgadores de nuestra era, junto a Carl Sagan, Stephen Jay Gould y Stephen Hawking. The Boston Globe. Una magistral historia de la investigación sobre el cáncer. Publishers Weekly.
