Wreck Recovery In Britain Peter J Moran,2018-10-30 Whereas on the Continent the Missing Research and Enquiry Unit left no stone unturned to try to trace the thousands of airmen who still remained missing strangely enough no similar operation was carried out by the RAF on crash sites in the United Kingdom Many of these still contained the mortal remains of pilots whose names had been added to the Memorial to the Missing unveiled at Runnymede in 1953 It is difficult to understand today how it took so long for the realization to sink in that aircraft wreckage still remained buried When it did there followed what can only be described as an unholy scramble to find crash sites and dig them up heavy plant being employed to make it easier and quicker At the height of this unfettered exploration period during the 1970s there were over 30 aviation archaeology groups at work particularly in the counties of Essex Kent and Sussex Unrecovered human remains were now being found which understandably raised criticism from some quarters Inevitably order had to be restored and the Ministry of Defence stepped in with a code of conduct for digging up crashed aircraft a measure that was reinforced by an Act of Parliament in 1986 Thereafter a process was introduced whereby the Ministry issued licenses before a wreck site could be excavated and every license application whether granted or refused is listed for the first time in this book

Because of its high cost it was a poor candidate for aid funding It was provided in part to honour a highly irregular promise of civil aid in connection with a major arms deal After two parliamentary inquiries and intense media coverage in a landmark judgement the aid for Pergau was declared unlawful Tim Lankester offers a detailed case study of this major aid project and of government decision making in Britain and Malaysia Exposing the roles played by key politicians and other stakeholders on both sides he analyses the background to the aid arms linkage and the reasons why the British and Malaysian governments were so committed to the project before exploring the response of Britain's Parliament and its media and NGOs and the resultant legal case The main causes of the Pergau debacle are carefully drawn out from conflicting policy agendas within the British government to the power of the business lobby and the inability of Parliament to provide any serious challenge Finally Lankester asks whether given what was known at the time and what we know now he and his colleagues in Britain's aid ministry were correct in their objections to the project Pergau is still talked about as a prime example of how not to do aid Tim Lankester a key figure in the affair is perfectly placed to provide the definitive account At a time when aid budgets are under particular scrutiny it provides a cautionary tale

Young People's Voting Behaviour in Europe Nicola Maggini, 2016-10-31 This book uses

various concepts of age to examine young people's voting behaviour in six European countries between 1981 and 2000. It addresses questions such as what are the determinants of voting choices among young people and to what extent are these factors different from those of adults. Through an innovative approach aimed at studying party choice with a strong empirical orientation, the author argues that age is less important in influencing voting choices than having been young and socialized to politics in a given historical period. Ultimately, values and political factors explain young people's voting choices more than social identities, which marks a change from previous generations. This book will appeal to students and scholars in comparative politics, electoral behaviour, party politics, and political sociology. *Steiner & Woods EU Law* Marios

Family Change and Family Policies in Great Britain, Canada, New Zealand, and the United States Sheila B. Kamerman, Alfred J. Kahn, 1997. This is the first volume in a series reporting on the evolution of family policies in twenty Western welfare states and comparing current provisions. The developments are presented in the context of a report on family change for each of the countries and with a view of the economic, political, and institutional contexts in which they occurred. Each of the country reports in the present volume has been prepared as a team collaboration by internationally recognized experts. The co-editors have prepared an analytic introduction which discussed the methodology for the series as well as the hypotheses that emerge from these first case studies. The topics include family formation and current structural patterns, families and the division of labour, the income of families, earnings, taxation, transfer programmes, as well as the political and institutional context for family policy. An extensive bibliography is provided. About the series: A series of country studies and comparative analyses examining major changes in the family and the broad spectrum of family policies in Western industrial society in the second half of the twentieth century. Vol 2: The Consociational Democracies: Belgium, Switzerland, and the Netherlands. Vol 3: France and Southern Europe. Vol 4: Capitalist and Socialist Central Europe: Austria, the Germanies, Hungary, and Poland. Vol 5: The Scandinavian Welfare States. Vol 6: Family, Industrial Society, and the Welfare State in the West: Early Variations and Long-Term Developments in Comparative Perspective. Vol 7: Family Policies in the West Since World War II: A Cross-National Analysis. **State Sponsored Literature** Asha Rogers, 2020.
