Robert Cohen, David J Snyder

Freedom Song A Personal Story Of The Nineteen Sixties Civil Rights Movement:

The Activist 1960s Robert C. Cottrell, 2023-05-01 Throughout the Long Sixties which spanned much of the seemingly quiescent 1950s and continued into the 1970s progressive activists sought to change American policy both foreign and domestic Beginning with a civil rights crusade that later expanded to a campaign against the Vietnam War the movement eventually splintered into a series of focuses racial ethnic demographic political cultural gender based and environmental This work details activists efforts to ensure basic rights through fostering civic engagement Chapters demonstrate how the various campaigns within the movement were all successful to some extent but none brought about the results that many desired Nonetheless they contributed to a more open egalitarian participatory and emancipated nation that is still being shaped today

Women Who Invented the Sixties Steve Golin, 2022-09-20 While there were many protests in the 1950s against racial segregation economic inequality urban renewal McCarthyism and the nuclear buildup the movements that took off in the early 1960s were qualitatively different They were sustained not momentary they were national not just local they changed public opinion rather than being ignored Women Who Invented the Sixties tells the story of how four women helped define the 1960s and made a lasting impression for decades to follow In 1960 Ella Baker played the key role in the founding of the Student Nonviolent Coordinating Committee which became an essential organization for students during the civil rights movement and the model for the antiwar and women s movements In 1961 Jane Jacobs published The Death and Life of Great American Cities changing the shape of urban planning irrevocably In 1962 Rachel Carson published Silent Spring creating the modern environmental movement And in 1963 Betty Friedan wrote The Feminine Mystique which sparked second wave feminism and created lasting changes for women Their four separate interventions helped together to end the 1950s and invent the 1960s Women Who Invented the Sixties situates each of these four women in the 1950s Baker s early activism with the NAACP and the Southern Christian Leadership Conference Jacobs s work with Architectural Forum and her growing involvement in neighborhood protest Carson s conservation efforts and publications and Friedan s work as a labor journalist and the discrimination she faced before exploring their contributions to the 1960s and the movements they each helped shape

Reclaiming Democracy Meta Mendel-Reyes, 2013-10-11 Meta Mendel Reyes provides a critical look at our fascination with the sixties discusses the ways in which democratic participation was at the heart of sixties politics and explores the interrelationship between the history and memory of the sixties and contemporary democratic politics Mendel Reyes stresses that if told properly the story of the sixties could help open our eyes to the possibility that ordinary people can take democratic action and do have the ability to make a difference in nineties politics In a time of cynicism about the American government s ability to solve the crises of inequality poverty and racism Mendel Reyes puts the decline of political participation in historical context and provides hope for the coming decades

Student Activism in 1960s America Magnus O. Bassey, 2024-08-23 This book sheds light on the untold stories of individual student activists at Queens College New York

City during the 1960s Against the backdrop of the ongoing Vietnam War and the assassination of President John F Kennedy some Americans began to lose faith in their government Based on injustices that students saw in their campuses in the country and in the world at large they began to question their political leaders Students organized their discontents over three major issues civil rights free speech and anti war sentiments Their protests involved direct actions such as sit ins marches picketing and boycotts At Queens College QC as the students moved away from the repressive McCarthy era of the 1950s they began to confront and challenge those in power at the college in the 1960s The defining characteristic of this break from the past was a student strike in 1961 in objection to the ban of controversial speakers who had been invited to campus by student clubs The student strike of 1961 gave the activists among them a direct and immediate way to fight power on campus and to fight racism and discrimination The author argues that student movements cannot be attributed to a single explanation and therefore he focuses on individual historical contexts presenting first person narratives from the actual participants and tells their stories in their own voices from their own records and from the documents they left behind The book identifies the QC student activists of the 1960s exploring how and why they became activists their activities their achievement as activists and what motivated them to think that they could make history themselves by confronting racism It provides an intimate look at the students lives and their social justice journey beginning at Queens College and as they moved into their careers

Daughters Of Canaan Margaret Ripley Wolfe, 2021-12-14 From *Gone with the Wind* to *Designing Women* images of southern females that emerge from fiction and film tend to obscure the diversity of American women from below the Mason Dixon line In a work that deftly lays bare a myriad of myths and stereotypes while presenting true stories of ambition grit and endurance Margaret Ripley Wolfe offers the first professional historical synthesis of southern women s experiences across the centuries In telling their story she considers many ordinary lives those of Native American African American and white women from the Tidewater region and Appalachia to the Mississippi Delta to the Gulf Coastal Plain women whose varied economic and social circumstances resist simple explanations Wolfe examines critical eras outstanding personalities and groups wives mothers pioneers soldiers suffragists politicians and civil rights activists and the impact of the passage of time and the pressure of historical forces on the region s females The historical southern woman argues Wolfe has operated under a number of handicaps bearing the full weight of southern history mythology and legend Added to these have been the limitations of being female in a patriarchal society and the constraining images of the southern belle and her mentor the southern lady In addition the specter of race has haunted all southern women Gender is a common denominator but according to Wolfe it does not transcend race class point of view or a host of other factors Intrigued by the imagery as well as the irony of biblical stories and southern history Wolfe titles her work *Daughters of Canaan* Canaan symbolizes promise and for activist women in particular the South has been about promise as much as fulfillment General readers and students of southern and women s history will be drawn to Wolfe s engrossing chronicle

Motherhood Reconceived Lauri Umansky, 1996-08 From the early days of second wave feminism motherhood and the quest for women's liberation have been inextricably linked And yet motherhood has at times been viewed by anti feminists and select feminists alike as somehow at odds with feminism In reality feminists have long treated motherhood as an organizing metaphor for women's needs and advancement The mother has been regarded with

suspicion at times deified at others but never ignored The first book devoted to this complex relationship Motherhood Reconceived examines in depth how the realities of motherhood have influenced feminist thought Bringing to life the work of a variety of feminist writers and theorists among them Jane Alpert Mary Daly Susan Griffin Adrienne Rich and Dorothy Dinnerstein Umansky situates feminist discourses of motherhood within the social and political contexts of the 1960s Charting an increasingly favorable view of motherhood among feminists from the late 1960s through the 1980s Umansky reveals how African American feminists sought to redefine black nationalist discourses of motherhood a reworking subsequently adopted by white radical and socialist feminists seeking to broaden the racial base of their movement Noting the cultural left's conflicted relationship to feminism that is the concurrent demand for individual sexual liberation and the desire for community Umansky traces that legacy through various stages of feminist concern about motherhood early critiques of the nuclear family tempered by strong support for day care an endorsement of natural childbirth by the women's health movement of the early 1970s white feminists attempt to forge a multiracial movement by declaring motherhood a universal bond and the emergence of psychoanalytic feminism ecofeminism spiritual feminism and the feminist anti pornography movement

The Trouble Between Us Winifred

Breines,2006-04-06 Inspired by the idealism of the civil rights movement the women who launched the radical second wave of the feminist movement believed as a bedrock principle in universal sisterhood and color blind democracy Their hopes however were soon dashed To this day the failure to create an integrated movement remains a sensitive and contested issue In *The Trouble Between Us* Winifred Breines explores why a racially integrated women s liberation movement did not develop in the United States Drawing on flyers letters newspapers journals institutional records and oral histories Breines dissects how white and black women s participation in the movements of the 1960s led to the development of separate feminisms Herself a participant in these events Breines attempts to reconcile the explicit professions of anti racism by white feminists with the accusations of mistreatment ignorance and neglect by African American feminists Many radical white women unable to see beyond their own experiences and idealism often behaved in unconsciously or abstractly racist ways despite their passionately anti racist stance and hard work to develop an interracial movement As Breines argues however white feminists racism is not the only reason for the absence of an interracial feminist movement Segregation black women s interest in the Black Power movement class differences and the development of identity politics with an emphasis on difference were all powerful factors that divided white and black women By the late 1970s and early 1980s white feminists began to understand black feminism s call to include race and class in gender analyses and black feminists began to give white feminists some credit for their political work Despite early setbacks white and black radical feminists eventually developed cross racial feminist political projects Their struggle to bridge the racial divide provides a model for all Americans in a multiracial society
