

extended Wilson's foreign policy by supporting countries that fight the right course in ensuring that the four essential human freedoms are never denied. Consequently, he would support the British Army at the initial days of World War II. Britain involvement in the war was seen as an act of defending democracy,⁷ an idea that had been integrated with freedom and foreign policy.

He tirelessly fought for the passage of Lend-Lease bill that would give him powers to finance the British course of action.⁸ When both the Houses passed the bill, Roosevelt sent a strong warning to foreign governments that the country that would interfere with any of the four essential human freedoms would be fought ruthlessly. Roosevelt further promised to repair the British vessels within the US shipyards.⁹ The British government on its part was to endorse freedom to its citizens to determine the form of government they wanted. Roosevelt was thus using his foreign policy to influence countries in the provision of a conducive environment for the advancing of the four essential human freedoms.¹⁰

In his view on the denial of freedom of religion by the Nazi and the Soviet governments, Roosevelt made concerted endeavours in assisting USSR in its fight against the Nazi government. He would influence the Moscow policy on religion in an exchange for military aid. This was in spite of the Soviet Union being the architecture of Communism, an ideology that no American would want to hear. Roosevelt insisted on Stalin to implement the Soviet Republics' constitutional obligation on freedom of religion without fear or favour.¹¹ He went ahead and persuaded the American Catholics on the similarity of the Soviet Union's Constitution in addressing the freedom of religion. In this way, Roosevelt's foreign policy was not to isolate the Soviet Union for being Communist but to aid it in its fight against the Nazi who was a greater threat to religion and humanity. The move also assisted in advancing freedom of religion within the Soviet Union territories.

Roosevelt critically portrayed the Soviet Union government's policy on religion in a glowing term to defuse the opposition on the US assistance to Moscow.¹² He creatively used his tactics to influence Moscow to allow its citizens to enjoy the

Freedom And Foreign Policy

Juliet Kaarbo, Cameron Theis

Freedom And Foreign Policy:

A Foreign Policy of Freedom Ron Paul, 2007 Ron Paul provides a history of economic policy in the United States and uses this history to argue that the same free market principals applied to U S domestic policy should be applied to U S foreign policy Foreign Policy of Freedom , *Freedom of the Seas and US Foreign Policy* Connor Donahue, 2024-04-05 This book critically analyzes US political military strategy by arguing that freedom of the seas discourse is fundamentally unfit for an era of maritime great power competition The work conducts a genealogical intellectual history of freedom of the seas discourse in US foreign policy to show how the concept has evolved over time to facilitate American control over the global ocean space It concludes that the contemporary discourse works to establish the high seas as an arena free from claims of sovereignty so that the United States as the presumed unrivaled naval power can intervene globally on behalf of its national interests However since sea control strategies depend on a preponderance of material force as the United States wanes in relative material capability it becomes less able to support political military strategies predicated on the assumption of global naval dominance The book provides a timely commentary on the current geopolitical competition between the United States and China and critiques the US approach toward China in the maritime domain in order to highlight potential avenues of foreign policy action that may enable the two countries to mitigate the risk of conflict This book will be of much interest to students of naval history maritime security US foreign policy and international relations **The Christian Right & US**

Foreign Policy in the 21 st Century Mohd Afandi Salleh, 2020-01-07 This book is about the role of the Christian Right in the US foreign policy decision making process It reveals that the Christian Right has long been fascinated with some international issues in general and US foreign policy in particular The interest of the movement in international issues increased markedly during the George W Bush administration 2000 2009 During this period the movement successfully widened its activism from domestic social conservative issues to foreign policy issues by participating in articulating and lobbying for its religious version of American foreign policy In assessing the role of the Christian Right in US foreign policy making this dissertation examines aspects of US foreign policy namely Israel international religious freedom and global humanitarianism Based on these three aspects the Christian Right is seen as skilled in framing and defining issues The Christian Right seems effective in selecting and prioritizing international issues that have a reasonable chance of being picked up on by foreign policy decision makers especially in Congress Moreover the Christian Right has shown its maturity in seeking engagement and cooperation with other organizations regardless of whether they are secular or religious to advance its international goals Finally in pursuing and conveying its international agenda the Christian Right has adopted a more moderate and mundane approach Instead of using its traditional religious rhetoric the Christian Right has successfully projected its foreign policy preferences into the conventional realist discourse of American foreign policy that was largely based on the objective of national interest and national security **Prioritizing International Religious Freedom in U.S.**

Foreign Policy United States. Congress. House. Committee on Foreign Affairs. Subcommittee on Africa, Global Health, and Human Rights, 2011 Power, Freedom, and Diplomacy Paul Seabury, 1963 Analyzes American conduct in world affairs against the framework of international politics **Foreign Policy Of India -7E** V N Khanna, 2018 This authoritative work on India's foreign policy rests on the fundamental values of international relations that India has cherished Efforts have been made to analyze these values and to evaluate to what extent these have been implemented and to what extent these have been effective This edition of the book has been updated to include new issues that have emerged and have come to dominate India's foreign policy concerns India's stance on Climate Change has undergone an evolution in the last two decades which is important to understand Similarly India's relation with Israel which was tepid and limited till 1992 has undergone a radical transformation ever since India has forged a close and important partnership with Israel which will be critical going forward for it especially in the defence sector India and Israel have also come to share a sense of solidarity being common victims of terrorism as was highlighted by the 26/11 Mumbai terror attacks of 2008 Thus it is important to take stock of India's growing relationship with Israel Furthermore the rise of China is the biggest geopolitical challenge India faces in this century This edition discusses how India is seeking to formulate a foreign policy in accordance with its emergence as a major international power It also discusses India's relations with its neighbours in South Asia **Legislation on Foreign Relations Through ...** United States, 2008 United States Foreign Policy United States. Congress. Senate. Committee on Foreign Relations, 1961 **Polarity in International Relations** Nina Græger, Bertel Heurlin, Ole Wæver, Anders Wivel, 2022-08-30 This book brings together a group of leading scholars on international relations to develop and apply the concept of polarity on past and present international relations and discuss its applicability and usefulness in the future Despite a comprehensive debate on a global power shift often discussed in terms of the decline of the United States the crisis in the liberal international order and the rise of China IR's main concept of power polarity remains undertheorized and understudied The great powers and their importance for dynamics and processes in the international system are central to current debates on international order but these debates too often suffer from a combination of politicized empirical analysis and reliance on old theoretical debates and conceptualizations typically originating in the Cold War security environment In order to meet these challenges this book updates conceptualizes applies and critically debates the concepts of unipolarity bipolarity multipolarity and non polarity in order to understand the current world order **Status of International Religious Freedom** United States. Congress. House. Committee on International Relations. Subcommittee on International Terrorism, Nonproliferation, and Human Rights, 2004 *European Union Delegations in EU Foreign Policy* F. Austermann, 2014-09-09 This first comprehensive study of the EU's diplomatic representation in the world the EEAS this book seeks to understand why it has failed to formulate a centralised policy towards external states It also analyses why the EEAS has more success in centralising diplomatic structures in developing countries than with some economic partners **Annual Report,**

International Religious Freedom 1999, Report Submitted to the Committee on International Relations, U.S. House of Representatives and the Committee on Foreign Relations, United States Senate by the Department of State in Accordance with Section 102 of the International Religious Freedom Act of 1998 United States. Dept. of State, 2000

Foreign Policy in Comparative Perspective Ryan K. Beasley, Juliet Kaarbo, Jeffrey S. Lantis, Michael T. Snarr, 2012-04-25 Widely regarded as the most comprehensive comparative foreign policy text *Foreign Policy in Comparative Perspective* has been completely updated in this much anticipated second edition Exploring the foreign policies of thirteen nations both major and emerging players and representing all regions of the world chapter authors link the study of international relations to domestic politics while treating each nation according to individual histories and contemporary dilemmas The book's accessible theoretical framework is designed to enable comparative analysis helping students discern patterns to understand why a state acts as it does in foreign affairs

Law and International Religious Freedom Pasquale Annicchino, 2017-12-01 This book analyzes the promotion and protection of freedom of religion in the international arena with a particular focus on the role and influence of the US International Religious Freedom Act 1998 It also investigates the impact of the IRFA on the legislation and policies of third countries and the EU The book develops the story of the protection of religious freedom through foreign policy by showing how religious laws affect and shape a more communitarian dimension of the notion of freedom of religion which stands in contrast with a traditionally Western individualistic understanding of the right It is argued that it is still possible to defend the unstable category of freedom of religion or belief especially when major violations are at stake The book presents a balanced contribution to the academic debate on the promotion and protection of religious freedom The comparative approach and interdisciplinary methodology make it a valuable resource for academics students and policy makers in Law International Relations and Strategic Studies

Press Freedom and Global Politics

Douglas A. Van Belle, 2000-04-30 Van Belle provides the first systematic analysis of the effects that press freedom has on the conduct of international politics The institutionalization of press freedoms within a state and the free flow of information between the free presses of different nations creates a foreign policy decision making environment that systematically limits policy options generates domestic political imperatives and provides specific benefits to a leader This shapes some aspects of foreign policy in a consistent and empirically identifiable manner most notably by limiting international conflicts When social psychological propositions regarding dehumanization and the acceptance of killing in war are introduced to Van Belle's model shared press freedom is shown to provide a mechanism that prevents lethal conflicts The effects of press freedom on international conflict particularly on hypotheses related to escalating conflicts beyond the threshold of casualties are quite robust However Van Belle indicates there is no evidence of a complimentary effect on cooperation The combination of findings from the empirical analyses suggest that the key to the effects of press freedom center on the creation of images such as the dehumanized image of an enemy A thoughtful analysis that scholars and researchers of foreign policy and

international relations as well as journalism and mass communication will find particularly useful

Protecting Religious Freedom United States. Congress. House. Committee on Foreign Affairs. Subcommittee on Africa, Global Health, Global Human Rights, and International Organizations, 2014

American Politics and the African American Quest for Universal Freedom Hanes Walton, Jr, Robert C. Smith, Sherri L. Wallace, 2017-03-30 This dynamic and comprehensive text from nationally renowned scholars continues to demonstrate the profound influence African Americans have had and continue to have on American politics Through the use of two interrelated themes the idea of universal freedom and the concept of minority majority coalitions the text demonstrates how the presence of Africans in the United States affected the founding of the Republic and its political institutions and processes The authors show that through the quest for their own freedom in the United States African Americans have universalized and expanded the freedoms of all Americans New to the Eighth Edition A new co author Sherri L Wallace is renowned for her teaching scholarship and participation in APSA's American government textbook assessment for coverage of race ethnicity and gender She is the perfect addition following an election year that included female presidential candidates as well as candidates of color and issues focusing on racial tension and inequality Offers a new Media Integration Guide for the first time Provides the first overall assessment of the Obama administration in relation to domestic and foreign policy and racial politics in particular Updated through the 2016 elections connecting the Obama years with the new administration Looks at candidates Hillary Clinton and Ben Carson in particular in relation to the themes of the book Adds a new section on State Politics and Elections Includes new sections on intersectionality dealing with issues of race gender and sexuality LGBT issues as another manifestation of the struggle for universal freedom a discussion of the Black Lives Matter movement and a new section focusing on the changing character of black ethnicity as result of increased immigration from Africa and the Caribbean Discusses the way in which race contributed to the polarization of American politics the connections to the Tea Party and the Obama Presidency and the 2016 presidential campaign as the most polarized since the advent of polling Previews the impact of the Trump Administration on matters of race and ethnicity

The Oxford Handbook of Foreign Policy Analysis Juliet Kaarbo, Cameron Theis, 2024-01-17 The Oxford Handbook of Foreign Policy Analysis repositions the subfield of Foreign Policy Analysis FPA to a central analytic location within the study of International Relations IR Over the last twenty years IR has seen a cross theoretical turn toward incorporating domestic politics decision making agency practices and subjectivity the staples of the FPA subfield This turn however is underdeveloped theoretically empirically and methodologically To reconnect FPA and IR research this handbook links FPA to other theoretical traditions in IR takes FPA to a wider range of state and non state actors and connects FPA to significant policy challenges and debates By advancing FPA along these trajectories the handbook directly addresses enduring criticisms of FPA including that it is isolated within IR it is state centric its policy relevance is not always clear and its theoretical foundations and methodological techniques are stale The Oxford Handbook of Foreign Policy Analysis provides

an inclusive and forward looking assessment of this subfield Edited and written by a team of world class scholars and with a preface by Margaret Hermann and Stephen Walker the handbook sets the agenda for future research in FPA and in IR The Oxford Handbooks of International Relations is a twelve volume set of reference books offering authoritative and innovative engagements with the principal sub fields of International Relations The series as a whole is under the General Editorship of Christian Reus Smit of the University of Queensland and Duncan Snidal of the University of Oxford with each volume edited by specialists in the field The series both surveys the broad terrain of International Relations scholarship and reshapes it pushing each sub field in challenging new directions Following the example of Reus Smit and Snidal's original Oxford Handbook of International Relations each volume is organized around a strong central thematic by scholars drawn from different perspectives reading its sub field in an entirely new way and pushing scholarship in challenging new directions

American Politics and the African American Quest for Universal Freedom Robert C. Smith, Sherri L.

Wallace, Hanes Walton, Jr., 2025-08-29 American Politics and the African American Quest for Universal Freedom is known for its lucid style student oriented approach and wide ranging perspective Designed to allow flexibility in teaching approaches this tenth edition retains all the features that made previous editions so popular All chapters have been updated with new content and the latest data available including Inclusive and affirming language throughout Enhanced discussion on Elements of Black Culture and the political significance of African American music and the Black Church Black American public opinion and the various strands of African American ideology The CROWN Act the politics of black hair and the African American celebrity impact on politics Political significance of the increasing ethnic diversity of Black communities due to immigration from Africa and the Caribbean and the latest on Black Lives Matter discussion Discussion on the first Black sorority political action committee established in the U S and advocacy organizations serving the Black LGBTQIA community Characteristics of eligible and registered Black voters the coverage of the 2024 presidential and congressional elections and the results of the congressional elections with respect to partisan control of Congress and the size of the Black congressional delegation Demographic characteristics of the members of the 118th Congress now includes sexual orientation and generational data for comparison Race policies of former President Biden reclassifying him as antiracist An alternative method of ranking presidents that brings the views of Black experts to the conversation and includes a discussion of the record number of Black political appointments and policies implemented under Biden Confirmation hearing of the first Black woman Justice Ketanji Brown Jackson appointed to the Supreme Court New material on the Voting Rights Act Affirmative Action and the Pigford cases testing institutional racism Tennessee Three highlighting racism in the rare expulsion of two Black members of the Tennessee House of Representatives and how Republican state controlled legislatures are stunting the quest for universal freedom Revisions using the Urban League's State of Black America Equality Index as a measure of material well being in the African American community to examine historic and systemic patterns in structural inequities as

manifested in economics health education social justice and civic engagement Updated Textbook Media Integration Guide featuring lecture power points chapter summaries critical thinking questions the profiles and Faces and Voices and the links to the biographical material and videos American Politics and the African American Quest for Universal Freedom continues to offer a comprehensive rigorous and accessible understanding of how the presence of African Americans in the United States has profoundly influenced and influences American politics It remains essential reading for all students of American Government Black Politics and African American Studies particularly those approaching the study of race and politics for the first time
