Brogan,1957    [French National Cinema](#) Susan Hayward,2006-09-07 This examination of France's national cinema takes its primary artefact the feature film and discusses both popular cinema and the avant garde cinema that contests it Susan Hayward argues that writing on French national cinema has tended to focus on either great film makers or on specific movements addressing moments of exception rather than the global picture Her work offers a thorough and much needed historical textualisation of those moments and relocates them in their wider political and cultural context Beginning with an ecohistory of the French film industry she then traces the various movements in French cinema and the directors associated with them including the avant garde Poetic Realist New Wave and today's postmodern cinema Her analysis includes amongst other considerations the social and political concerns these cinemas reflect

[French Caesarism from Napoleon I to Charles de Gaulle](#) Philip Thody,1989-07-31    **The Origins of the French Nationalist**

**Movement, 1886-1914** Robert Lynn Fuller,2014-01-10 This narrative history explores the emergence of one of the most influential Nationalist movements of modern Europe It explains how and why the movement united the far right with the far left in a militant campaign to wrest control of France from the moderate republicans who were attempting to stabilize the country after a century of political volatility The agitation groups propaganda machines street fighting gangs and political hustlers who made up the Nationalists all campaigned for one end to overthrow the Third Republic The eruption of the Dreyfus Affair 1894 1899 provided the Nationalists with a convenient target for their assaults the Dreyfusard defenders of a wrongly convicted Jewish army captain Alfred Dreyfus This work based on original archival research in France argues that the Nationalists posed a real and dangerous threat that dissipated only when their goals were adopted by more moderate competing groups

[France 1814 - 1914](#) Robert Tombs,2014-09-25 Here is an incomparably rich portrait of France in the years when the disparate elements that made up the fragmented kingdom of the ancien regime were forged into the modern nation The survey begins with an exploration of national obsessions and attitudes It considers the tendency to revolution and

war the preoccupation with the idea of a New Order and the deep strain of national paranoia that was to be intensified by the dramatic debacle of the Franco Prussian War Robert Tombs then investigates the structures of power and in Part Three he turns his attention to social identities from the individual and family to the nation at large When every aspect of the period has been put under the microscope Robert Tombs draws them all into the broad political narrative that brings the book to its rousing conclusion Bursting with life as well as learning this is quite simply a tour de force
