French Writers and the Politics of Complicity Richard J. Golsan, 2006-02 Focusing on the political commitments of three French writers who collaborated with the Vichy Regime and Nazi Germany during World War II and on those of three leading French intellectuals of the 1990s whose misplaced political idealism led them to support xenophobic authoritarian regimes and dangerous historical revisionisms Richard J Golsan reexamines the notion of political commitment or engagement in two difficult periods in modern French history Discussing the fiction essays and journalism of Henry de Montherlant Jean Giono

and Alphonse de Chateaubriant Golsan explores the complexity of artistic and intellectual collaboration during the German Occupation. He demonstrates that in this context complicity with political evil often derived from nonpolitical motives including sexual orientation, antimodern aesthetics and dangerously skewed religious beliefs. Turning to the post cold war era of the 1990s, Golsan examines the philosopher Alain Finkielkraut's support for Croatian independence, the mediologist Régis Debray's pro-Serb stance during the bombing of Kosovo and the historian Stéphane Courtois's revisionist comparison of Nazi and Communist crimes during the 1997 debate surrounding the publication of *The Black Book of Communism*. In these three cases, laudable motives and misguided historical comparisons with Vichy Nazism and the Occupation period that marked the political and intellectual discourses of France in the 1990s resulted paradoxically in antidemocratic engagements profoundly at odds with the original motivations behind these intellectuals' commitments. In each of these case studies, political complicity derives from a combination of passions and ideals, whether positive or negative, emotional or intellectual, as well as a desire to make the present conform to a particular and generally skewed vision of the past. The full implications of these involvements are neither fully grasped nor understood by their authors, either through lack of objectivity, rationality or imagination, or through willful ignorance. The results are always unfortunate and often disastrous. Considered together, these six intellectuals serve as sobering reminders that political commitments are never as simple or straightforward as they seem and that admirable motives for political involvement can have dangerous and destructive consequences in historical practice.

History and Politics in French-Language Comics and Graphic Novels Mark McKinney, 2011-02-03. With essays by Baru, Bart Beaty, Cécile Vernier, Danehy Hugo, Frey Pascal, Lefèvre Fabrice, Leroy Amanda, Macdonald Mark, McKinney Ann, Miller and Clare Tufts. In Belgium, France, Switzerland and other French-speaking countries, many well-known comics artists have focused their attention on historical and political events. In works ranging from comic books and graphic novels to newspaper strips, cartoonists have addressed such controversial topics as French and Belgian collaboration and resistance during World War II, European colonialism and US imperialism, anti-Semitism in France, the integration of African immigrant groups in Europe and the green and feminist movements. *History and Politics in French Language Comics and Graphic Novels* collects new essays that address comics from a variety of viewpoints, including a piece from practicing artist Baru. The explorations range from discussion of such canonical works as Hergé's Tintin series to such contemporary expressions as Baru's *Road to America* (2002) about the Algerian War. Included are close readings of specific comics series and graphic novels such as Cécile Vernier and Danehy's examination of Cosey's Saigon/Hanoi about remembering the Vietnam War. Other writers use theoretical lenses as a means of critiquing a broad range of comics, such as Bart Beaty's Bourdieu-inspired reading of today's comics field and Amanda Macdonald's analysis of *bandes dessinées* (French comic books) in New Caledonia during the 1990s. The anthology establishes the French language comics tradition as one rich with representations of history and politics and is one of the first English language collections to explore the subject.
