## **French Revolution In English History:**

**The French Revolution in English History** Philip Anthony Brown, 1923      **The French Revolution in English History** Philip Anthony Brown, 1924      **Britain and the French Revolution** Clive Emsley, 2014-10-13 The French Revolution catapulted Europe into a new period of political upheaval social change and into the modern era This book provides a concise introduction to the impact of the French Revolution on Britain and to the ways in which this impact has been assessed by historians The book is organised thematically It begins with a survey of the ideological debate sparked off by the Revolution discussing in particular the work of people such as Burke Paine Spence and Wollstonecraft From here it presents an exploration of the Revolution's impact on Parliamentary politics The growth of radicalism and loyalism The way in which French ideas influenced Irish aspirations to generate rebellion The third main section of the book focuses on the causes and course of Britain's war with Revolutionary France and on the effects of the war on the home front most notably the recurrent serious food shortages      **The French Revolution in English History, by Philip Anthony Brown,...** Philip Anthony Brown, 1918      English Historians on the French Revolution Hedva Ben-Israel, 2002-08-08 A study of the historiography of the Revolution demonstrating the successive stages of British opinion      **The French Revolution Debate and the British Novel, 1790-1814** Morgan Rooney, 2013 This study examines how debates about history during the French Revolution informed and changed the nature of the British novel between 1790 and 1814 During these years intersections between history political ideology and fiction as well as the various meanings of the term history itself were multiple and far reaching Morgan Rooney elucidates these subtleties clearly and convincingly While political writers of the 1790s Burke Price Mackintosh Paine Godwin Wollstonecraft and others debate the historical meaning of the Glorious Revolution as a prelude to broader ideological arguments about the significance of the past for the present and future novelists engage with this discourse by representing moments of the past or otherwise vying to enlist the authority of history to further a reformist or loyalist agenda Anti Jacobin novelists such as Charles Walker Robert Bisset and Jane West draw on Burkean historical discourse to characterize the reform movement as ignorant of the complex operations of historical accretion For their part reform minded novelists such as Charlotte Smith William Godwin and Maria Edgeworth travesty Burke's tropes and arguments so as to undermine and then redefine the category of history As the Revolution crisis recedes new novel forms such as Edgeworth's regional novel Lady Morgan's national tale and Jane Porter's early historical fiction emerge but historical representation largely the legacy of the 1790s novel remains an increasingly pronounced feature of the genre Whereas the representation of history in the novel Rooney argues is initially used strategically by novelists involved in the Revolution debate it is appropriated in the early nineteenth century by authors such as Edgeworth Morgan and Porter for other often related ideological purposes before ultimately developing into a stable nonpartisan aestheticized feature of the form as practiced by Walter Scott The French Revolution Debate and the British Novel 1790 1814 demonstrates that the

transformation of the novel at this fascinating juncture of British political and literary history contributes to the emergence of the historical novel as it was first realized in Scott's *Waverley* 1814      [Longman Handbook to Modern British History 1714 - 2001](#) Chris Cook, John Stevenson, 2014-07-10 This compact and accessible reference work provides all the essential facts and figures about major aspects of modern British history from the death of Queen Anne to the end of the 1990s The Longman Handbook of Modern British History has been extended to include a fully revised bibliography reflecting the wealth of newly published material in recent years the new statistics on social and economic history and an expanded glossary of terms The political chronologies have been revised to include the electoral defeat of John Major and the record of New Labour in office Designed for the student and general reader this highly successful handbook provides a wealth of varied data within the confines of a single volume      **The Oxford History of the French Revolution** William Doyle, 2018 In this comprehensive history of the French Revolution of 1789 William Doyle draws on a generation of extensive research and scholarly debate to reappraise the most famous of all revolutions      **History of the Wars Occasioned by the French Revolution, from the Commencement of Hostilities in 1792, to the End of 1816** C. Revolution explores this question in his wide ranging collection of essays Analyzing the new politics of contestation that transformed the traditional political culture of the Old Regime during its last decades Baker revises our historical map of the political space in which the French Revolution took form Some essays study the ways in which the revolutionaries break with the past was prepared by competition between agents and critics of absolute monarchy to control the cultural resources and political meanings of French history by the contending political vocabularies in which the French sought before 1789 to reconstitute their body politic and by the invention of public opinion as a new form of political authority displacing absolute rule Others trace to the conceptual improvisation of revolutionary notions of representation constitution sovereignty and of the French Revolution itself the ambiguities tensions and contradictions that were to drive the revolutionary dynamic in subsequent years The result is a substantial and unified set of studies stimulating renewed reflection on one of the central themes in modern European history
