

French Structuralism

Culture as Mental Structures

- Structures of knowledge about kinship. All kinship systems classify relationships by gender, generation and collaterality.
- Structures of meaning within myths. Myths consist of (1) elements that oppose or contradict each other and (2) other elements that "mediate", or resolve, those oppositions.

French Nietzscheanism: A Note on the Philosophical School Pons Malleus, 2025-08-19 The story of French Nietzscheanism is not merely one of philosophical inheritance it is a tale of reinvention provocation and enduring transformation Emerging in the intellectual crucible of twentieth century France this movement represents one of the most creative appropriations of Friedrich Nietzsche s thought an appropriation that did not seek to preserve his philosophy as sacred doctrine but instead treated it as a living force a weapon of critique and a source of existential and conceptual liberation This book explores the broad and complex terrain of French Nietzscheanism tracing its influence across the works of Jacques Derrida Michel Foucault Gilles Deleuze and others It charts the way in which Nietzsche s ideas on power morality language subjectivity and history were reinterpreted and reassembled in response to the unique philosophical political and cultural tensions of twentieth century France Nietzsche s call for the revaluation of values his suspicion of absolute truths and his celebration of becoming over being resonated profoundly with French thinkers grappling with the legacies of Hegelianism Marxism psychoanalysis and structuralism To speak of a school of French Nietzscheanism is both necessary and misleading Necessary because there is a discernible trajectory in which Nietzsche s philosophy serves as a catalyst for a sustained critique of Western metaphysics and humanist subjectivity Misleading because the thinkers gathered under this label are marked as much by their differences as by their shared admiration for Nietzsche Each figure selected his Nietzsche Dionysian or ascetic anti Christian or aesthetic genealogist or tragic philosopher to serve

his own philosophical project Yet their divergence is precisely what makes French Nietzscheanism philosophically fertile it resists dogma encourages experimentation and invites us to rethink thought itself What unites these thinkers is less a doctrinal fidelity to Nietzsche than a methodological affinity a shared commitment to genealogy to the unmasking of hidden power structures and to the disruption of static conceptual binaries For Foucault Nietzsche provided the key to understanding how knowledge and power are historically constructed For Deleuze Nietzsche was the philosopher of difference and affirmation a figure capable of overturning the reactive forces that govern modern thought For Bataille and Blanchot Nietzsche opened the door to the experience of limit transgression and the dissolution of the subject In the aftermath of World War II as France reeled from the trauma of fascism and colonialism Nietzsche's work offered an alternative to the stifling moralism of traditional philosophy and the deterministic schemas of orthodox Marxism French Nietzscheanism became a philosophy of resistance not only political resistance but resistance to philosophical complacency linguistic conformity and the very structures of identity and reason that once underpinned Enlightenment thinking This book does not aim to provide a comprehensive history of Nietzsche reception in France nor to defend a single reading of Nietzsche's philosophy Rather it invites readers into a conversation between Nietzsche and his French interlocutors between past and present between philosophy and life In doing so it hopes to reveal how Nietzsche's thought far from being a closed system remains a provocation a challenge to reimagine the possibilities of freedom thought and becoming

The Rise of Anthropological Theory Marvin Harris, 2001-08-14 The best known most often cited history of anthropological theory is finally available in paperback First published in 1968 Harris's book has been cited in over 1 000 works and is one of the key documents explaining cultural materialism the theory associated with Harris's work This updated edition included the complete 1968 text plus a new introduction by Maxine Margolis which discusses the impact of the book and highlights some of the major trends in anthropological theory since its original publication RAT as it is affectionately known to three decades of graduate students comprehensively traces the history of anthropology and anthropological theory culminating in a strong argument for the use of a scientific behaviorally based etic approach to the understanding of human culture known as cultural materialism Despite its popularity and influence on anthropological thinking RAT has never been available in paperback _until now It is an essential volume for the library of all anthropologists their graduate students and other theorists in the social sciences

The Methods of the Gernet Classicists (RLE Myth) Roland A. Champagne, 2015-03-05 The Gernet Centre was founded as a place where the structural method could be applied to the classics Structuralists attribute the survival origin and function of myths to common crosscultural factors they identify as structures As this book first published as *The Structuralists on Myth* in 1992 explains these structures are bundles of information not obvious either to the narrator or to the listener The bundles are collected features that reveal either the reasons for the survival of myths or their origins or their functions within their contexts The structuralists consider themselves to have talents as the collectors from myths of these bundles of information

Institution in Cultures: Theory and Practice, 2022-07-04 The book represents a selection of papers presented at an international symposium in Singapore on the role of theory and practice in the mutually interactive and mutating relations between institutions and cultures In effect the papers turn about a single theme the ways in which power is expressed through those institutions by means of which cultures mediate their requirements The symposium brought together scholars and academics from a variety of disciplines including literature philosophy cultural studies sociology comparative literature and comparative religions In terms of the geography of cultures and the history of institutions the range of reference to this book of the symposium is global from Hong Kong awaiting 1997 through the travails of political democracy in Singapore and

Cultural Studies la Greenblatt or under the aegis of Shakespeare as cultural idol through German Romantic theory and its relevance to current theorizing about theory in America to Zen Buddhism and Nagarjuna and how these two sources refract the concerns of Jung Lacan and Derrida through Colonialism and postcoloniality and how they have shaped identity and mediated power to the current crises in education created by these mediations specifically in literary studies The aim of the symposium was twofold to theorize about the impulse to theorize in relation to the plurality of cultures and institutions which comprises our contemporary world and to ground this impulse in those specificities and contingencies which provide resistance to such theorizing
