## **French Army 1939-45:**

*The French Army 1939-45 (1)* Ian Sumner, Francois Vauvillier, 1998-04-15 The French Army of 1939 was considered by contemporaries to be the strongest army in the world at that time In fact as the events of the next ten months soon revealed the Army was riddled with fatal weaknesses In this book the first of two volumes examining the French Army of World War II 1939-1945 Ian Sumner and Francois Vauvillier examine the organisation uniforms and equipment of the army of 1939-40 and Vichy France It includes orders of battle and formation charts as well as many illustration and colour uniform artworks

**The German Army 1939-45 (1)** Nigel Thomas, 2012-09-20 On 1 September 1939 when Germany attacked Poland the Wehrmacht numbered 3 180 000 men It eventually expanded to 9 500 000 and on 8-9 May 1945 the date of its unconditional surrender on the Western and Eastern Fronts it still numbered 7 800 000 The Blitzkrieg period from 1 September 1939 to 25 June 1940 was 10 months of almost total triumph for the Wehrmacht as it defeated every country except Great Britain that took the field against it In this first of five volumes examining the German Army of World War Two Nigel Thomas examines the uniforms and insignia of Hitler's Blitzkrieg forces including an overview of the Blitzkrieg campaign itself

*The Polish Army 1939-45* Steven J. Zaloga, 2013-06-20 Polish soldiers fought in nearly every major campaign in the European theatre and their tale is a complicated and tragic one Poland was the first of the Allied nations to succumb to German aggression in the Second World War but by the most tortuous of routes her army managed to remain in the field through all five years of bloody fighting This richly detailed text by Steven Zaloga relates the story of the Polish Army during the Second World War from the first wave of Stukas in 1939 to its eventual conclusion

**The German Army 1939-45 (2)** Nigel Thomas, 2012-09-20 Hitler first considered an invasion of Great Britain in autumn 1940 then scheduled Operation Barbarossa the conquest of the European part of the Soviet Union for May 1941 Anxious to emulate Hitler's successes the Italian dictator Mussolini embarked upon unnecessary military adventures in North Africa and the Balkans which forced Hitler's intervention diverting and depleting precious German resources and a six week postponement of Barbarossa In this second of four volumes *Men at Arms 311-316-326-330* on the German Army of the Second World War Nigel Thomas examines the uniforms and insignia of the forces involved in North Africa and the Balkans

**The British Army 1939-45 (1)** Martin Brayley,2013-06-20 The Second World War was Britain s last conflict as a world power For a year it saw Britain standing alone against the fascist dictatorships winning it demanded the sacrifice of the entire national wealth This first book of three describes the uniforms developed for European service It traces the appearance of the Tommy from pre war mobilization through the years of defeat and endurance to D Day and the long fighting advance to Northern Germany The book also includes a campaign summary infantry organization tables lists of arms and services and basic specifications of a number of heavy weapons

**Companion to the Red Army 1939-45** Steven J Zaloga,Leland S Ness,2009-12-07 Stalin s Red Army entered the Second World War as a relatively untried fighting force In 1941 with the launch of Operation Barbarossa it joined the battle with Hitler s army the most powerful in history After a desperate war of attrition over four years the Red Army defeated the Nazis on the Eastern Front and won lasting fame and glory in 1945 by eclipsing the military might of the Third Reich This book begins with a review of the historical background of the Red Army in the years leading up to the outbreak of war in 1939 followed by a discussion of the major themes in the development of Soviet forces during the Great Patriotic War that ensued in 1941 The Red Army s organisational structures are examined from high command down to divisional level and below which helps Western readers to understand the differences between the terminology of the Soviet and common Western British US and German armies Soviet combat arms infantry armour and mechanised forces cavalry airborne and special forces are described along with a technical overview of infantry weapons armoured vehicles artillery and support equipment Fully illustrated with a comprehensive selection of archive photographs charts and tables of organisation this is an indispensable source of reference for anyone interested in the armies of the Second World War

**Populist Hearsay of 1939-45** Andrew Sangster,2020-04-30 World War II produced many histories which differ according to when and by whom they were written Many historians tend to write in order to justify their home nation In the recent Brexit debate it was claimed many times that we won the war and we do not need Europe politicians were as guilty of this as everyone else Britain survived rather than won the war single handedly and managed only because of the Allies In France at the L H tel National des Invalides in a museum dedicated to World War II the photographs and notes tended to imply that Germany was defeated by the French

with some American assistance All countries have their bias and special points of view regarding their shared history of World War II always somewhat nationally self centred This book confronts these nationalistic populist views and in places challenges accepted versions of traditional national histories     The British Army 1939-45 (2) Martin Brayley,2012-02-20 The scope of Britain s wartime Middle East Command stretched far beyond the Libyan desert where the 8th Army s most famous battles were fought It extended from Gibraltar and Tunisia in the west to Iraq and Persia in the east and from Greece south to the Gulf of Aden In 1940-43 this was the only arena where the British Army could take the ground war to the German Wehrmacht it saw a succession of setbacks and triumphs until spring 1945 found the 8th Army victorious in northern Italy A summary of these campaigns is illustrated by photographs and detailed colour plates of the wide range of uniforms worn in the varied conditions of this huge theatre of war     The British Army 1939-45 (3) Martin Brayley,2013-06-20 The lightning Japanese offensives in East Asia in 1941-42 inflicted a series of costly defeats on the ill prepared and badly supported British Commonwealth forces in Malaya and Burma The forgotten 14th Army on the India Burma border slowly built up its strength and its tactical expertise and Wingate s Chindits proved that units supplied from the air could operate deep behind enemy lines In 1944 General Slim s troops decisively smashed Japan s last offensive at Imphal and Kohima and over the next year they drove the enemy relentlessly back through Burma reducing them to starving fugitives by the final victory in August 1945 This concise summary of Britain s East Asia campaigns is illustrated with many rare photographs and eight detailed colour plates     **Allied Intelligence Handbook to the German Army 1939-45** Stephen Bull,2017-04-06 What did the British or American soldier know about the German Army Was this knowledge accurate and just how did he know it There have been several handbooks of Second World War armies but they never tell us exactly what the Allied soldier knew at the time or how he was informed This is of importance because it influenced both conduct on the battlefield and the way in which the soldier thought about his enemy The book explains the background history of the organisations involved followed by short chapters based around a series of original documents This puts the original into context and also discusses whether the document that follows was correct in the picture it painted and what can be deduced about sources and the concerns of the intelligence officers who compiled the material Most of the documents were produced at the time by the British War Office or US War Department and cover different aspects of the German Army including tactics weapons and uniforms Subjects include Allied intelligence on the German Army from 1930 onwards British SIS MI6 and US Military Intelligence The organisations responsible how they worked and how they changed very rapidly with the coming of war The role of technology modern like the radio transmitter ancient as in scouring libraries and periodicals reports on military manoeuvres and parades Limitations of Ultra The German army itself from the tiny force left after Versailles to the rapid expansion in the late 1930s Innovation in tanks tactics machine guns rocket weaponry The problems of gathering intelligence not just danger but finance asking the right questions and the limitations of reporting and distribution     The French Army

,191? *Brighton at War 1939-45* Douglas d'Enno,2021-11-24 Long before war was declared on 3 September 1939 Brighton had steadily and carefully prepared for the coming conflict by building shelters organising defence and rescue services and providing the population with advice of its own or from government sources These precautions stood the town in good stead when the first bombs fell on it in mid 1940 and during the many subsequent attacks The resort did not admittedly suffer as grievously as some others on the South Coast yet civilian casualties totalled nearly 1 000 of whom over 200 were killed 357 were seriously injured and 433 slightly injured This is not the first book to reveal the toll of the bombs locally but it is the first to describe in parallel day to day events and societal responses during the nearly six years of conflict As elsewhere restrictions often made life arduous for residents Yet despite the hardship the town's citizens even marshalled sufficient resources to adopt two battleships and generously saved towards assisting with other wartime causes such as help to our ally Russia The hospitality trade and resort related services suffered greatly during the periods when the defence ban on entering the town was enforced In many respects however life went on largely as before particularly in the spheres of entertainment leisure and some sports Douglas d'Enno an authority on the history of Brighton and environs shows in meticulous detail in absorbing text and numerous pictures how life in wartime Brighton was a struggle for many but never dull

**Cap-Badges of the British Army 1939-45** G L D Alderson,2014-01-01 The regiments of the British Army have always set great store by their cap badges which in miniature encapsulated the history and traditions of the units that wore them They were worn with pride by the County Regiments which formed the bulk of the infantry throughout the two world wars While of relatively recent origin the cap badge absorbed a far older territorial allegiance which can almost be traced back to tribal loyalty before the Norman Conquest and which has been reinforced down the ages This book presents the reader with a comprehensive collection of capbadges through the years of the Second World War Every cap badge is clearly illustrated with pictures from the author's own private collection of badges and comes complete with written descriptions The fascinating histories behind the conjoining of the various units are also included A regimental index makes it simple to find specific badges quickly Cap badges of the British Army 1939 45 successfully removes the confusion surrounding the wearing of cap badges by British Army formations during the Second World War whilst enabling people to access this information in complete form for the first time Essential reading for those with a personal or professional interest in the Second World War

*The British Home Front 1939-45* Martin Brayley,2012-07-20 The population of Britain was mobilized to support the war effort on a scale unseen in any other Western democracy or in Nazi Germany They endured long working shifts shortages of food and all other goods and complete government control of their daily lives Most men and women were conscripted or volunteered for additional tasks outside their formal working hours Under the air raids that destroyed the centres of many towns and made about 2 million homeless more than 60 000 civilians were killed and 86 000 seriously injured This fascinating illustrated summary of wartime life and the organizations that served on the Home Front is a striking record of

endurance and sacrifice      Warwick at War 1939-45 Graham Sutherland,2020-03-20 When the Second World War broke out Warwick already had public air raid shelters planned gas masks were being distributed and there was even a power struggle when Warwickshire County Council took control of the Air Raid Wardens from the police Although Warwick was not a prime target for the Luftwaffe nearby Coventry was and minor blackout regulations were rigorously enforced St Mary s Church was believed to have been used as a marker for the Luftwaffe and when Coventry was attacked in November 1940 the flames could be seen from Warwick Afterwards refugees soon began arriving from the stricken city Visiting American and Canadian troops were welcomed in their thousands although other temporarily stationed service personnel were not always so popular as their arrival coincided with a shortage of other local young men in the town and bigamy cases were not unknown Meanwhile rationing brought its own problems the stealing of both petrol and ration coupons was not unheard of while the shortage of petrol resulted in a rise in offences involving the use of bicycles usually by service personnel By late 1944 it was apparent the Allies had won the war and the Home Guard was stood down Indeed the celebrations for VE Day had been prepared long before victory was declared      Hitler's Blitzkrieg Enemies 1940 Nigel Thomas,2014-02-20 The armies of Denmark Norway the Netherlands and Belgium bore the first crushing impact of Hitler s mighty Blitzkrieg war machine in Western Europe in a campaign that astonished and terrified the world The German Wehrmacht was millions strong equipped with the latest guns tanks and aircraft and had the priceless advantage of having learned the realities of modern warfare in Poland the previous September The defenders of Scandinavia and the Low Countries were raised from small populations and were inadequately funded trained equipped and armed Their modest numbers inexperience and largely indefensible borders condemned them to rapid defeat For this reason they have tended to be neglected by history in many cases unjustly Featuring period photographs and full colour artwork this book examines the dress insignia equipment organization and combat performance of the Danish Norwegian Dutch and Belgium armies thousands of soldiers who fought heroically in hopeless defence against the Nazi juggernaut      **Schnellbootwaffe: Adolf Hitler's Guerrilla War at Sea: S-Boote 1939-45** Hrvoje Spajic,2021-12-22 The Schnellbootwaffe was created in the early 1930s before the Second World War in concurrence with the regenerated Kriegsmarine Young officers most of whom learned their craft in the old Imperial Navy would now take responsibility for the operational use of these revolutionary vessels Working with the naval engineers of L rssen Shipyard the Germans designed combat weapons that were never surpassed by their opponents After the first series of Schnellboote were launched constantly improved versions of these vessels would follow The Schnellbootwaffe would achieve significant victories for the Kriegsmarine at the beginning of the war by using these vessels in high level strategies including a style of guerrilla warfare The British often call German torpedo boats E boats and these fast vessels were a genuine threat not only to coastal trade but also to the movement of Allied ships after D Day Indeed Admiral Rudolf Petersen s flotillas remained combat ready until the very end even after the balance of power was in favour of the Allies Allied air bombardment

of German torpedo boat bases from 1944 onwards failed to destroy the offensive potential of the Schnellboote and their crews. The Allied disaster at Lyme Bay at the end of April 1944 shows how this guerrilla war at sea was still dangerous even at this stage of the war. The Allied invasion plans were not yet known to the Germans but Eisenhower learned a great deal from Lyme Bay and the Schnellbootwaffe was still potentially dangerous right until the end of the war. This book tells the fascinating story about these special people whose pirate spirit and guerrilla style of naval combat is reminiscent of the ancient pirates and their own way of warfare.

*Kent at War 1939-45* Tanya Wynn, 2019-06-30

This comprehensive account of the southern English county during WWII covers everything from the Dunkirk evacuations to the Battle of Britain and more. Located along the English Channel, the southeastern county of Kent played a significant role in the Second World War. This volume covers Kent's many contributions, both civilian and military, throughout the conflict. The chronicle details how the Dover Patrol kept Allied shipping safe in the English Channel as well as the preparation and aftermath of the Dunkirk evacuations of May 1940, with all of the vessels leaving from and returning to Kent ports and harbors. Kent's numerous airfields were of vital importance during the Battle of Britain between July and October 1940. The Richborough camp, set up in 1939 at the old First World War Kitchener barracks, provided a safe haven to thousands of German and Austrian Jewish refugees. This book includes never-before-published letters written to one of the camp's residents during his stay there. Historian Tanya Wynn also discusses the county's military hospitals and POW camps, its Victorian Cross and George Medal winners, and the restricted areas that adorned the coast as the people of Kent battened down the hatches, knowing that they were the very first line of defense in case of a German invasion.
