French Interventionism Europe's Last Global Player:

French Interventionism Adrian Treacher, 2017 This title was first published in 2003 This insightful volume makes the distinction between the fundamental objectives of French security policy and the tactical adaptations made to achieve them as the central theme that gives coherence The primary emphasis is on France's place in the world and on how efforts have been made to restore and then maintain claims to national greatness and elevated global standing It also offers detailed examinations of various military interventions both multilateral as in the case of the Gulf and former Yugoslavia and unilaterally as in sub-Saharan Africa Making an invaluable contribution to the literature this text brings together the foreign policy and security policy dimensions that relate to France's relations with the wider world and France's global ambitions which have been so much of a stimulus to French political elites during the Fifth Republic Provided by publisher **The Future of Transatlantic Relations** Andrew Dorman, Joyce P. Kaufman, 2010-11-29 Since the end of the Cold War and especially following the US decision to invade Iraq the once strong partnership between the US, Canada and the European allies has faced the serious possibility of significant change or even dissolution At the very least fundamental differences have emerged in the ways that many of the partners perceive the issues that are most important to them from perceptions of the threat of terrorism and attitudes to the use of force to expectation about the future nature of the NATO Alliance and in the ways in which those perceptions have become translated into policy decisions In this book experts from both sides of the Atlantic seek to explain why there has been so much divergence in the approach the various countries have taken And it seeks to raise questions about what those divergent paths might mean for the future of transatlantic relations *French Interventions in Africa* Stefano Recchia, Thierry Tardy, 2020-12-17 This book explores France's African intervention policy and related legitimization strategies through the United Nations, the European Union and various ad hoc multilateral frameworks France's enduring ability to project military power on the African continent and influence political events there has been central to its self-perception as a major power However since the end of the cold war France's paternalistic interference has been increasingly questioned not least by African audiences This has produced a gradual and somewhat reluctant turn to multilateralism on the part of French leaders Drawing on in-depth case studies of recent French intervention policy this edited volume critically assesses France's efforts to reassure critics by securing multilateral endorsements, share burdens and liabilities through collective implementation and re-affirm its status as a major power by spearheading complex missions The chapters in this book were originally published as a special issue of the Journal of Strategic Studies **Foreign Policy in Comparative Perspective** Ryan K. Beasley, Juliet Kaarbo, Jeffrey S. Lantis, Michael T. Snarr, 2012-04-25 Widely regarded as the most comprehensive comparative foreign policy text *Foreign Policy in Comparative Perspective* has been completely updated in this much anticipated second edition Exploring the foreign policies of thirteen nations both major and emerging players and representing all regions of the world chapter authors link the study of international relations to domestic politics

while treating each nation according to individual histories and contemporary dilemmas The book's accessible theoretical framework is designed to enable comparative analysis helping students discern patterns to understand why a state acts as it does in foreign affairs

The European Union as an Integrative Power Joachim Alexander Koops, 2011 A comprehensive analysis of the European Union's foreign policy over 40 years this study describes how multilateralism has been used in the fields of peace security and military crisis management Relying on detailed case studies this new research looks at interventions in Macedonia the Balkans the Congo and Chad and assesses EU's cooperation with NATO and the United Nations during these emergencies

EU Foreign Policy through the Lens of Discourse Analysis Caterina Carta, Jean-Frederic Morin, 2016-04-22 Leading scholars in discourse analysis and European foreign policy join forces in this book marking a real breakthrough in the literature Not only do they offer original perspectives on European foreign policy but they bring together various theories on foreign policy discourses that remain too often isolated from each other This theoretical diversity is clearly reflected in the book's four pronged structure Part I Post structuralist Approaches with contributions from Thomas Diez Henrik Larsen and Beste Isleyen Part II Constructivist Approaches with contributions from Knud Erik J rgensen Jan Orbie Ferdi de Ville Esther Barb Anna Herranz Surrall s and Michal Natorki Part III Critical Discourse Analytical Approaches with contributions from Senem Aydin D zgit Amelie Kutter Ruth Wodak Salomi Boukala and Caterina Carta Part IV Discursive Institutional Approaches with contributions from Ben Rosamond Antoine Rayroux and Vivien A Schmidt The volume is the first full length study on how to apply different discourse analytical approaches and methodologies to European foreign policy The paperback edition makes for a unique selling point as a course text

Contemporary French Security Policy in Africa Benedikt Erforth, 2019-07-25 Despite efforts to normalize its post colonial relationship and the downsizing of its permanent military presence France remains a sought after security provider in Africa This book uncovers individual and collective motivations that drive French foreign and security policy in Africa It explains French interventionism by drawing on actors subjective perceptions of reality and seeks to answer why French decision makers are ready to accept the considerable risks and costs involved in guaranteeing the security of African countries Adopting an actor centric constructivist ontology the author traces the emergence and subsequent development of ideas throughout the decision making processes that led to Operation Serval in Mali and Operation Sangaris in the Central African Republic

European Union Foreign Policy C. Bickerton, 2015-08-16 Scholars and policymakers in EU foreign policy lament the EU's inability to assert itself on the world stage This book explains this weakness by arguing that EU foreign policy is burdened by various internal functions and systemizes the analysis of internal functionality pushing the study beyond the concern with effectiveness

Beasley, 2013 In this much anticipated revision of their unique text the editors bring together fifteen top scholars to highlight the importance of both internal and external forces in foreign policymaking

History and Foreign Policy in France and Germany Ulrich Krotz, 2015-08-11 Why do states similar in size resources and capabilities significantly differ in their basic orientations and actions across major domains in foreign policy security and defense This book addresses this important question by analyzing the major differences between the foreign policies of France and Germany over extended periods of time *National Security Cultures* Emil J. The Europeanization of National Foreign Policy E. Gross, 2009-04-17 Eva Gross analyzes changing national preferences towards the EU CFSP and ESDP by providing detailed accounts of British French and German crisis decision making in FYROM Afghanistan Lebanon and DR Congo While transatlantic relations remain important crisis management under the EU label is increasingly accepted in national capitals *Reassuring the Reluctant Warriors* Stefano Recchia, 2015-10-26 Why did American leaders work hard to secure multilateral approval from the United Nations or NATO for military interventions in Haiti the Balkans and Libya while making only limited efforts to gain such approval for the 2003 Iraq War In *Reassuring the Reluctant Warriors* Stefano Recchia addresses this important question by drawing on declassified documents and about one hundred interviews with civilian and military leaders The most assertive hawkish and influential civilian leaders he argues tend to downplay the costs of intervention and when confronted with hesitant international partners they often want to bypass multilateral bodies America s top level generals by contrast are usually reluctant warriors who worry that intervention will result in open ended stabilization missions consequently the military craves international burden sharing and values the potential exit ramp for U S forces that a handoff to the UN or NATO can provide Recchia demonstrates that when the military speaks up and clearly expresses its concerns even strongly pro intervention civilian leaders can be expected to work hard to secure UN or NATO approval if only to reassure the military about the likelihood of sustained burden sharing Conversely when the military stays silent as it did in the run up to the 2003 Iraq War bellicose civilian leaders are empowered the United States is then more likely to bypass multilateral bodies and it may end up carrying a heavy stabilization burden largely by itself Recchia s argument that the military has the ability to contribute not only to a more prudent but also to a more multilateralist U S intervention policy may be counterintuitive but the evidence is compelling

The European External Action Service and National Foreign Ministries Rosa Balfour, Caterina Carta, Kristi Raik, 2016-02-11 Based on extensive empirical work by a cross European group of researchers this book assesses the impact of the creation of the European External Action Service EEAS on the national foreign policy making processes and institutions of the EU member states As such the contributions cover both the involvement of the national diplomatic and foreign policy actors in shaping the outlook of the EEAS and its mission as well as the changes or not it has produced for those actors of the member states The analysis draws in theoretical frameworks from Europeanization and socialization but also from intergovernmental frameworks of policy making within the European Union An introduction by the editors outlines

the issues and trends examined in the book and establishes the theoretical and methodological framework Split into 2 sections Part I EEAS and national diplomacies as part of global and European structures has contributions by Richard Whitman Rosa Balfour Christian Lequesne Caterina Carta and Simon Duke Part II National diplomacies shaping and being shaped by the EEAS is covered by Daniel Fiott Fabien Terpan Cornelius Adebahr Andrea Frontini Ignacio Molina and Alicia Sorroza Laura C Ferreira Pereira Alena Vysotskaya G Vieira and Louise van Schaik Grzegorz Gromadzki Mark Rhinard Jakob Lewander and Sara Norrevik Sabina Kajnc Lange Ruby Gropas and George Tzogopoulos Vit Bene and Kristi Raik This book is much needed especially in an era when the EU is trying to pull its weight in the international sphere e.g. Syria Iran the Arab Spring Chinese relations and emerging powers but also at a time when the EU is trying to recalibrate its institutional structure in light of the current financial predicaments and questions on the democratic legitimacy of the European project

European Union and Strategy Kjell Engelbrekt, Jan Hallenberg, 2010-09-13 This edited volume sets out to explore the paradox that the European Union EU produces policies with strategic qualities but lacks the institutions and concepts to engage in strategic reasoning and action proper The book has a two fold agenda exploring current EU external policies that are or seem to be linked to strategic priorities and also studying the concept of strategy in the particular context of EU decision and policymaking The volume first examines the character of the Union as a strategic actor at this stage of its development It then explores the ability of the Union to act and otherwise influence both its periphery and the wider world focusing in particular on how it is perceived by other actors The final section comprises personal assessments by a group of contributors regarding the character of the union as a strategic actor in the present and future When these are pieced together a picture emerges of a European strategy in the making albeit one that so far is modest and partial This book will be of interest to students of European Security European Politics and IR

Gaffney,2010-04-09 Gaffney analyzes how de Gaulle came to power in 1958 The drama surrounding the Fourth Republic s collapse and the focus upon an exceptional individual meant that de Gaulle was able to confer a particular style of leadership on the Fifth Republic The five Presidents who came after him have each capitalized on their own political persona **Interpreting Global Security** Mark Bevir,Oliver Daddow,Ian Hall,2013-08-15 This edited collection explores the fruitfulness of applying an interpretive approach to the study of global security The interpretive approach concentrates on unpacking the meanings and beliefs of various policy actors and crucially explains those beliefs by locating them in historical traditions and as responses to dilemmas Interpretivists thereby seek to highlight the contingency diversity and contestability of the narratives expertise and beliefs that inform political action The interpretive approach is widespread in the study of governance and public policy but arguably it has not yet had much impact on security studies The book therefore deploys the interpretive approach to explore contemporary issues in international security combining theoretical engagement with good empirical coverage through a novel set of case studies Bringing together a fresh mix of world renowned and up and coming scholars from across the fields of security studies political theory and international relations the chapters explore the beliefs traditions and dilemmas that have informed security practice on the one hand and the academic study of security on the other as well as the connections between them All contributors look to situate their work against a broader historical background and long standing traditions allowing them to take a critical yet historically informed approach to the material European Union Security Dynamics J. Matlary,2015-12-28 This book shows how France and Britain are leaders in EU security and defense policy and explains why both states need each other in this policy area The lack of relevant military capacity in Europe today implies that the US favors a strong EU in this field
