French Popular Lithographic Imagery 181:

French Popular Lithographic Imagery, 1815-1870 Beatrice Farwell, 1981 *The Invention of the Model* Susan Waller, 2017-07-05 Although mastery of the representation of the human figure was central to art making as early as the fifteenth century in Europe in the nineteenth century French imagination the artist's model became identified as a distinct social type and cultural trope This study of the artist's model in Paris between 1830 and 1870 incorporates three histories a social history of professional models a cultural history of models as social types and an art history of representations of the model in elite and popular visual culture It takes as its starting point the artist model transaction demonstrating that stereotypes of the model that figured in the public imagination were framed both by gender and ethnicity the book develops a nuanced typology of different types of models Interwoven with the analysis of the constructed identities of models are accounts of the lives of particular models and the histories of the urban population groups from which they emerged *The Invention of the Model Artists and Models in Paris 1830 1870* is an adept exploration of a major issue in nineteenth century art which will be of interest not only to art historians but also to social and French cultural historians *Nineteenth-century French Studies*, 1981 **Picturing Children** Marilyn R. Brown, 2017-07-05 The representation of children in modern European visual culture has often been marginalized by Art History as sentimental and trivial For this reason the subject of childhood in relation to art and its production has largely been ignored Confronting this dismissal this unique collection of essays raises new and unexpected issues about the formation of childhood identity in the nineteenth century and makes a significant contribution to the development of inter disciplinary studies within this area Through a range of stimulating and insightful case studies the book charts the development of the Romantic ideal of childhood starting with Rousseau's *Emile* and attends to its visual social and psychological transformations during the historical period from which Freud's psychoanalytic theories eventually emerged Foremost scholars such as Anne Higonnet Carol Mavor Susan Casteras and Linda A Pollock uncover the means by which children became an important conduit for prevailing social anxieties and demonstrate that the apparently timeless images of them that proliferated at the time should be understood as complex cultural documents Over 50 illustrations enhance this rich and fascinating volume *Popular French Romanticism* James Smith Allen, 1981-01-01 Focusing on the Paris book world of this period Allen reveals how the rise of a new popular literature jolly chansonniers the roman feuilletons or serial novels melodramas gothic and sentimental novels dramatic nationalistic histories by such authors as Dumas Sand Lamennais Ancelot Desnoyer and de Kock coincided with remarkable developments in the production distribution and consumption of books Allen's research ranges from a survey of the then popular romantic titles and authors and the trade catalogs of booksellers and lending libraries to the police records of their activities diaries and journals of working people and military conscript records and ministerial literacy statistics The result is a remarkable picture of the exchange between elite and popular culture the interaction between ideas and their material reality and the

relationship between the literature and the history of France in the romantic period *Art Books 1980-1984* R.R. Bowker Company,1985 **Art Books** ,1950 Including an international directory of museum permanent collection catalogs A Bibliography of Sources in Christianity and the Arts Daven Michael Kari,1995 Works have been selected primarily for their utility to those conducting research in the fine arts relating to Christianity and religion General categories covered include bibliographies of bibliographies aesthetics architecture cinema dance and mime drama and rhetoric electronic communications radio TV and video fabric arts literature music photography visual arts calligraphy to sculpture wit and humor Fine Lithographs and Etchings by 19th and 20th Century French and German Masters William Weston Gallery,1993 *Subject Catalog*, 1982 Library of Congress,1982 **Rural Society and French Politics** Michael Burns,2014-07-14 Michael Burns charts the rural impact of the two political watersheds of fin de siecle France Boulangism and the Dreyfus Affair Broadening our understanding of the early Third Republic he investigates its intricate village life and shows how the deindustrialization of the countryside both upset and solidified rural cultures Originally published in 1984 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 **French Images from the Greek War of Independence (1821-1830)** Nina Athanassoglou-Kallmyer,Nina M. Athanassoglou-Kallmyer,1989-01-01 The Greek struggle against Ottoman rule was a crucial event in the history and politics of nineteenth century Europe In particular it had a strong impact on the political and cultural life of France during the Bourbon Restoration where it was appropriated and promoted as the symbolic spearhead of liberal ideas and of the growing Romantic rebellion This book by Nina Athanassoglou Kallmyer examines the French paintings prints and sculptures inspired by the Greek War of Independence Athanassoglou Kallmyer reinterprets important works by the foremost exponents of the Romantic movement including Delacroix Gericault Horace Vernet Ary Scheffer and David d Angers showing how they viewed the Greek struggle as a setting for the opposing forces of conservatism and liberalism She explains that far from being mere pictorial records of specific war episodes such as the massacre at Chios or the fall of Missolonghi images of the clashes between Greeks and Turks reflected the mottos and arguments of the French liberal propaganda echoed as well by contemporary newspapers parliamentary debates broadsides pamphlets popular plays and poems
