*The French Revolution* Nesta H. Webster, 2014-03 This Is A New Release Of The Original 1919 Edition      **Women of the French Revolution** Winifred Stephens Whale, 1922 Through her discussions of women s participation in salons clubs and politics Whale paints a vivid picture of society in revolutionary France      **British and American Anticommunism Before the Cold War** Markku Ruotsila, 2001 This work examines in a comparative historical way the socialist liberal and conservative strands of Anglo American anticommunist thought before the Cold War In so doing this book provides us with an intellectual pre history of Cold War attitudes and policy positions      *In Search of Marie-Antoinette in the 1930s* T. Lawrence Larkin, 2019-04-02 In Search of Marie Antoinette in the 1930s follows Austrian biographer Stefan Zweig American producer Irving Thalberg and Canadian American actress Norma Shearer as they attempt to uncover personal aspects of Marie Antoinette s life at the French court in the late eighteenth century and to dramatize them in biography cinema and performance for public consumption during the 1930s The first chapter establishes the core subject as an inquiry into the respective contributions of Zweig Thalberg and Shearer in formulating an objective or authentic image of Marie Antoinette The three chapters that follow examine in some detail how Zweig pursued research and drafted the psychological biography at his Salzburg home Thalberg acquired film rights to the best selling book and fought the censors to preserve the more sensational aspects of the screenplay at the Culver City studio and Shearer worked closely with a new producer to give the script a strong romantic angle and to perform the character of the queen on the sound stage The professionals research standards and strategic objectives are weighed in the formulation of a new myth at once sensitive to the historical record and suited to the leisure market      **Books of 1912-**, 1922      Catalogue of the War Office Library Great Britain. War Office. Library, 1913      *Cults, Conspiracies, and Secret Societies* Arthur Goldwag, 2009-08-11 Did you know Freemasonry s first American lodge included a young Benjamin Franklin among its members The Knights Templar began as impoverished warrior monks then evolved into bankers Groom Lake Dreamland Homey Airport Paradise Ranch The Farm Watertown Strip Red Square The Box are all names for Area 51 An indispensable guide *Cults Conspiracies and Secret Societies* connects the dots and sets the record straight on a host of greedy gurus and murderous messiahs crepuscular cabals and suspicious coincidences Some topics are familiar the Kennedy assassinations the Bilderberg Group the Illuminati the People s Temple and Heaven s Gate and some surprising like Oulipo a select group of intellectuals who created wild formulas for creating literary masterpieces and the Chauffeurs an eighteenth century society of French home invaders who set fire to their victims feet      Historicizing the French Revolution Antonino De Francesco, 2022-03-24 This book provides a critical examination of over 300 historical works about the French Revolution published in Europe in particular in France Great Britain Germany Italy and Russia as well as in the United States between 1789 and 1989 It also goes on to examine recent trends in French Revolution historiography and consider where histories of this landmark event may go in the future By emphasizing the

elements which have been valued or hidden exalted or silenced Historicizing the French Revolution shows how reflections on 1789 are always fundamentally tied to the times in which they are formulated Antonino De Francesco looks at the ways in which these historical accounts can be seen to support and at times contrast with the formation of political modernity both in national and international contexts as it has taken shape in the hundreds of years that have followed this key moment in world history

*World Fascism* Cyprian Blamires, 2006-09-18 This book shows how during the 20th century evils such as totalitarianism tyranny war and genocide became indelibly linked to the fascist cause and examines the enduring and popular appeal of an ideology that has counted princes poets and war heroes among its most fervent adherents From the followers of Hajj Amin Al Husseini the Arab leader who met with Adolf Hitler in November 1942 to the murderous death squads of the Croatian Ustasha to certain members of the British Establishment fascism's heady brew of extreme nationalism and revolutionary violence has attracted followers from across all religions races and classes Now widely reviled fascism became an immensely powerful political force in Western Europe throughout the 1930s and into the 1940s How did civilized nations like Italy Germany Austria and others succumb to an ideology now regarded by the political mainstream as barbarous and beyond the pale *World Fascism A Historical Encyclopedia* covers all the key personalities and movements throughout the history of fascism and brings to light some of the ideology's lesser known aspects from Hindu extremists in India to the influential role of certain women in fascist movements How did an ideology which was openly boastful of its belief in violence come to seduce the elites of some of the most civilized nations on earth What can explain fascism's enduring appeal

**It Didn't Have to Be This Way** Harry Veryser, 2023-12-12 Excellent I highly recommend this book RON PAUL Why is the boom and bust cycle so persistent Why did economists fail to predict the economic meltdown that began in 2007 or to pull us out of the crisis more quickly And how can we prevent future calamities Mainstream economics has no adequate answers for these pressing questions To understand how we got here and how we can ensure prosperity we must turn to an alternative to the dominant approach the Austrian School of economics Unfortunately few people have even a vague understanding of the Austrian School despite the prominence of leading figures such as Nobel Prize winner F A Hayek author of *The Road to Serfdom* Harry C Veryser corrects that problem in this powerful and eye opening book In presenting the Austrian School's perspective he reveals why the boom and bust cycle is unnatural and unnecessary Veryser tells the fascinating but frightening story of how our modern economic condition developed The most recent recession far from being an isolated incident was part of a larger cycle that has been the scourge of the West for a century a cycle rooted in government manipulation of markets and currency The lesson is clear the devastation of the recent economic crisis and of stagflation in the 1970s and of the Great Depression in the 1930s could have been avoided It didn't have to be this way Too long unappreciated the Austrian School of economics reveals the crucial conditions for a successful economy and points the way to a free prosperous and humane society
